STRAWS SUCK! Since opening in 2010, Searsucker has used over 1.4 million plastic straws in cocktails and non-alcoholic beverages. Every day, 500 million straws are being used in the U.S. alone, making them one of the world's largest ocean pollutants. In congruence with the Surfrider Foundation, and as a Certified Ocean Friendly Restaurant, we have taken the pledge to lessen our impact. ALL of our beverages will be served without straws unless requested.
