### Concrete Rehab

2026 Concrete Rehabilitation Program - Page 15

In **2026**, Akron will be **resurfacing a total of 47 centerline miles of roadway** as part of the **2026 Resurfacing Program**. This list also includes the **2026 Concrete Pavement Rehabilitation Program** (also known as **Concrete Patch and Match**) which focuses on the **Ellet and Goodyear Heights** areas.

Akron has budgeted **\$6.5M** for this year's **Resurfacing Program** and an additional **\$1.85M** for the **Concrete Pavement Rehabilitation Program**.

Roads listed as "**2026 Base**" are part of the primary program for this year and will be the top priority. Roads listed as "**2026 Alternate**" will only be completed if additional funding becomes available, otherwise they are considered a priority for next year's program.

Residents can submit a service request to 311 to get a **pothole filled** or to request a road be considered for **future resurfacing programs** by **calling 3-1-1**, going online to [akronohio.gov/311](https://akronohio.gov/311) or downloading the **Akron311 app**.

## City of Akron

# Concrete Pavement Rehabilitation Program

The **Concrete Patch and Match Program** is not an overall replacement of the entire pavement, but replacement of individual concrete slabs (or blocks) that are needed. Each slab is around 10' x 12'- 18' depending on the street. Each road segment is evaluated and a determination is made which segments need to be replaced in order to improve the overall condition of the road. It could just be 1 slab that needs to be replaced or multiple.
