SECTION 3 - Good Food Management Practices to Prevent Unsanitary Conditions

		IN	OUT		NA	
24	Acceptable personal hygiene practices, clean outer garments, proper hair restraints used. Living quarters and child care completely separated from food service.	■	<input type="checkbox"/>		<input type="checkbox"/>	
25	Non-PHF and food storage containers properly labeled and dated as required. Food stored off the floor when required. Non-PHF/TCS not spoiled and within shelf-life. Proper retail storage of chemicals.	■	<input type="checkbox"/>		<input type="checkbox"/>	
26	Facilities for washing and sanitizing kitchenware approved, adequate, properly constructed, maintained and operated.	■	<input type="checkbox"/>		<input type="checkbox"/>	
27	Appropriate sanitizer test kits provided and used. Equipment and ware washing thermometer(s) are required. Wiping cloths and linens stored and used properly.	■	<input type="checkbox"/>		<input type="checkbox"/>	
28	Small wares and portable appliances approved, properly designed, in good repair.	■	<input type="checkbox"/>		<input type="checkbox"/>	
29	Utensils, equipment, and single serve items properly handled, stored, and dispensed.	■	<input type="checkbox"/>		<input type="checkbox"/>	
30	Nonfood contact surfaces and equipment properly constructed, installed, maintained and clean.	■	<input type="checkbox"/>		<input type="checkbox"/>	
31	Restrooms, mop sink, and custodial areas maintained and clean. Premises maintained free of litter, unnecessary equipment, or personal effects. Trash areas adequate, pest proof, and clean.	■	<input type="checkbox"/>		<input type="checkbox"/>	
32	Facility in sound condition and maintained (floors, walls, ceilings, plumbing, lighting, ventilation, etc.).	■	<input type="checkbox"/>		<input type="checkbox"/>	

TEMPERATURE OBSERVATIONS

CT = Cooking temp. HH = Hot Holding temp. CH = Cold Holding temp. RH = ReHeat temp. TC = Time as Control temp. COOL = Cooling temp.
 No Temperature Observations

VIOLATIONS, OBSERVATIONS AND CORRECTIVE ACTIONS

Item No	Observations & Corrective Actions
B	Violation: No hot water to entire facility. Inspector Observation: -Maximum temperature observed as measured at the three compartment sink faucet is 66 degrees Fahrenheit. -Maximum recorded temperature at the hand sink faucet is 66 degrees Fahrenheit. -Maximum recorded temperature at the mop sink is 65 degrees Fahrenheit. -Maximum recorded temperature at the mens restroom hand sink is 64 degrees Fahrenheit. Corrective Action: Provide water at a minimum of 120 degrees F at 3-compartment sink(s) and minimum of 100 degrees F at hand sink(s). (5-101; 5-102; 5-103) NOTE: Manager states they have made a call to corporate maintenance in Las Vegas to have someone to come make definitive repairs.
4	Violation: No hot water to entire facility. Inspector Observation: -Maximum temperature observed as measured at the three compartment sink faucet is 66 degrees Fahrenheit. -Maximum recorded temperature at the hand sink faucet is 66 degrees Fahrenheit. -Maximum recorded temperature at the mop sink is 65 degrees Fahrenheit. -Maximum recorded temperature at the mens restroom hand sink is 64 degrees Fahrenheit. Corrective Action: Provide water at a minimum of 120 degrees F at 3-compartment sink(s) and minimum of 100 degrees F at hand sink(s). (5-101; 5-102; 5-103)

Overall Inspection Comments:

Substantial Health Hazard - Snack Bar Establishment Closed - All food activities must remain suspended until corrective action has been taken to eliminate/correct the hazard. A fee of \$716 must be paid prior to scheduling the re-inspection during normal business hours. (Mon - Fri. 8am- 4:30p excluding holidays. The substantial health hazard must be corrected and the inspection must yield 10 demerits or less to re-open. Failure on re-inspection will result in additional fees & continued closed status and may require a supervisory conference. Fee may also be paid online on the SNHD portal website, www.southernnevadahealthdistrict.org/permits-and-regulations/environmental-health-invoice-payment/ To pay online will require to input an invoice number, your invoice number will be emailed tomorrow morning.

FIGHT the BITE

HELP PREVENT DISEASES THAT CAN BE SPREAD BY MOSQUITOES

Eliminate standing water

Prevent mosquito bites

Report mosquito activity

In August, the Southern Nevada Health District declared an outbreak of West Nile virus. This season, the highest number of human cases have been reported since the disease was first detected in the state in 2004. In addition to the high number of cases, many of those who have been ill have had the more serious neuroinvasive form of the illness.

West Nile virus is transmitted by the bite of an infected mosquito. The illness is not spread person-to-person. The best way to keep from getting sick is to prevent mosquito bites. People can protect themselves and their families by taking the following precautions:

- When outdoors, use [Environmental Protection Agency \(EPA\)-registered](#) insect repellents containing DEET, Picaridin, IR3535, Oil of lemon eucalyptus (OLE), or 2-undecanone.
- Wear pants and long-sleeved shirts when outdoors. Treat clothing and outdoor gear with repellent.
- Make sure doors and windows have tight-fitting screens without tears or holes.
- Prevent mosquito breeding by eliminating areas of standing water around homes, including unmaintained swimming pools.

Additional tips and more information about West Nile virus are available on the Health District website at www.snhd.info/west-nile and on the Centers for Disease Control and Prevention website at www.cdc.gov/westnile/prevention/index.html.

If you think you or your family member have West Nile Virus, please contact your doctor.

Residents can report mosquito activity to the Mosquito Surveillance Program at 702-759-1633. Updated information about the Health District's surveillance activities is available each week at www.snhd.info/wn-updates.
