**Response to the Most Absurd, False, and Gutter Political Attack from a Desperate,
Failing Establishment**

Oklahoma City, OK – As I lead the charge for a bold overhaul of education in Oklahoma, putting parents back in control, rejecting radical agendas, and demanding excellence: it's no surprise to face politically motivated attacks.

Any suggestion that a device of mine was used to stream inappropriate content on the television set is categorically false. I have no knowledge of what was on the TV screen during the alleged incident, and there is absolutely no truth to any implication of wrongdoing.

These falsehoods are the desperate tactics of a broken establishment afraid of real change. They aren't just attacking me, they're attacking the values of the Oklahomans who elected me to challenge the status quo.

I will not be distracted. My focus remains on making Oklahoma the best state in the nation, in every category.
