

RESOLUTION AGREEMENT
Peoria Unified School District
OCR Case 08-22-1273

INTRODUCTION

Peoria Unified School District (District) agrees to implement this Resolution Agreement (Agreement) to resolve the violations identified by the U.S. Department of Education, Office for Civil Rights (OCR), under Title VI of the Civil Rights Act of 1964 (Title VI) and its implementing regulation in the above-referenced OCR case. Those violations include that the District failed to take adequate action to address numerous incidents of student-on-student harassment based on race, color, and national origin, and employee-on-student race-based harassment in the 2020-2021 and 2021-2022 school years. As a result, the District permitted the Student and other students at the School to be subjected to a hostile environment based on race, color, and national origin that denied or limited their ability to participate in or benefit from the School's programs and activities. The District also failed to investigate the known hostile environment at the School to identify other students who may have been subjected to harassment and a hostile environment based on race, color, or national origin but did not report such harassment given the School's repeated and prolonged failures to respond promptly and effectively to reported instances of harassment. In addition, OCR has a concern that the District may not have met its recordkeeping and compliance reporting obligations under Title VI. The District assures OCR that it will take the following actions to comply with the requirements of Title VI.

I: INDIVIDUAL REMEDIES

Within 15 days of this Agreement being signed, the District will offer, in writing, to reimburse the Complainant up to \$5,000 for [redacted content] received by the Student since August 1, 2020, up through December 31, 2022. The District will copy OCR on its written offer to the Complainant. The total amount of reimbursement is conditioned on the Complainant providing the District with documentation proving expenditures for [redacted content] for the Student within 90 days of the date that the District offers to reimburse the Complainant. If the Complainant provides the District with such documentation, the District will reimburse the Complainant within 15 days of receiving the documentation.

Reporting Requirement 1: Within 60 days of signing this Agreement, the District will submit to OCR all communications to and from the Complainant related to Term I, including, as applicable, documentation submitted by the Complainant and proof of payment to the Complainant. The District will promptly and fully address OCR's concerns, if any, until OCR notifies the District that no further reporting is required for Reporting Requirement 1 or Term I.

II: REMEDIES FOR OTHER STUDENTS

Within 30 days of this Agreement being signed, the District will offer, in writing, to meet with each School student identified by OCR as a target of harassment based on race, color, or national origin by School students and the student's parent(s)¹ to:

- investigate the alleged harassment of the student;
- assess the impact of the harassment on the student and whether it created a hostile environment; and
- discuss if the student needs any interim supports and/or remedies (e.g., class assignments, counseling, peer mediation, or academic remediation).

For each student whose parent accepts the offer to have a meeting, the District will:

- work with the parent to schedule the meeting on a mutually convenient date and time; and
- take notes that accurately reflect the date and time of the meeting and the discussion, including the perspectives shared, the information considered, and the requested supports and/or remedies.

Within 20 days of each meeting required by Term II, the District will submit to the student's parent(s), copying OCR:

- a list of meeting attendees, including the name and job title of each individual;
- a copy of the meeting notes; and
- any offer of supports and/or remedies for the Student, including who will provide them and when (e.g., one hour of counseling per week with the School psychologist and a stay-away agreement with the harassing student).

Reporting Requirement 2: For each student who meets with the District, the District will submit to OCR, within 30 days of the meeting, documentation showing whether the offered supports and/or remedies were accepted or rejected by the parent, and that any accepted supports and/or remedies are being provided to the student. The District will promptly and fully address OCR's concerns, if any, until OCR notifies the District that no further reporting is required for Reporting Requirement 2 or Term II.

III: CLIMATE ASSESSMENT

The District will identify an impartial individual (the Investigator) to assist with the creation and administration of a Climate Assessment at the School before the end of the 2022-2023 school year.

¹ For purposes of this Agreement, the term "parent" includes legal guardians.

The Investigator will be an individual who:

- has not worked and does not work at the School;
- does not have any known familial relations with any students or employees of the School; and has expertise in assessing school climate with respect to racial harassment and equity.

The Investigator may be a District employee or an independent contractor, provided the individual meets the requirements of Term III. The District also may use more than one qualified individual to conduct the assessment.

Reporting Requirement 3: Within 30 days of this Agreement being signed, the District will submit to OCR for its review and approval the name, job title, and qualifications of a proposed Investigator.

A. School Climate Assessment

In coordination with the Investigator, the District will develop and administer three school climate surveys to students, parents, and employees at the School before the end of the 2022-2023 school year. The Investigator will make recommendations to the District about the surveys' content and method of administration to ensure both are effective. The District will notify parents of current students and students who were enrolled at the School in the 2020-2021 and 2021-2022 school years of an opportunity to provide input about the survey to the Investigator, consistent with Arizona Revised Statutes 15-117.

The Investigator's recommendations to the District for the climate surveys will address, at a minimum:

1. the prevalence of race-, color-, or national origin-based harassment in the School;
2. the willingness to report incidents of harassment to School and District personnel;
3. the perception of the School's and District's handling of reports and complaints of harassment; and
4. suggestions for reducing incidents of harassment in the School and improving the District's response to reports and complaints of harassment.

The District will incorporate the Investigator's recommendations into its development and administration of the climate surveys to the School's (a) students, (b) parents, and (c) employees, including any school resource officers (whether employees or contractors). Prior to administering the school climate surveys to the School's students, the District will provide to parents a notice explaining the purpose of the climate survey, a copy of the survey, and the opportunity to opt in the parents' child for participation in the survey through a written form.

Reporting Requirement 4. At least 45 days before the scheduled administration date of the climate survey to School students, parents, and employees, the Investigator will provide recommendations to the District for the school climate surveys. At least 30 days before the date each climate survey will be administered, the District will provide to OCR a report that includes a copy of the proposed school climate survey and an explanation of how the District plans to

implement the survey. The District will promptly and fully address OCR's feedback, if any, until the District receives OCR's final approval of the surveys, and notice from OCR that no further reporting is required for Reporting Requirement 4.

B. Investigator's Analysis of the School Climate Survey Results

The Investigator will analyze the results of all school climate survey results from (a) students in grades five to eight at the School, (b) parents of students in grades five to eight at the School, and (c) School employees, including any school resource officers (whether employees or contractors) within 30 days of each survey's completion to identify appropriate steps the School and District could take to improve the School's climate.

Within 30 days of completing the analysis of the last of the three survey results, the Investigator will produce a report (Report) for the District and OCR that includes, at a minimum:

1. documentation demonstrating that the approved surveys were conducted as planned;
2. the analysis of the survey responses from the School's students, parents, and employees and any recommended steps the School and District could take to improve the School's climate;
3. conclusions about the climate at the School, separately addressing the climate for Black students among other student groups at the School; and
4. the Investigator's recommended reforms, if any, to the District's and School's policies, practices, employee training, and education programs regarding racial harassment.

C. The District's Response to the Investigator's Report and Climate Assessment

The District will review the Investigator's Report and Climate Assessment, consisting of the results of the three school climate surveys of students, parents, and employees. The District will: evaluate, what if any steps, should be taken in response to the Report, the Investigator's recommended reforms, and Climate Assessment (e.g., conducting school-wide initiatives and investigations of alleged student-on-student and staff-on-student harassment of race and national origin identified by students, parents, and/or employees in the survey results, and offering interim supports and remedies where appropriate); propose any such steps to OCR for its review and approval; and promptly implement any approved steps.

The District will share the aggregated survey responses and Investigator's recommended reforms with the public by, at a minimum, posting an announcement about and a link to a public version of the Report on the School's website homepage and social media, and emailing an announcement about and a link to the public version of the Report to the parents of all School students. The information shared will not include any personally identifiable information.

Reporting Requirement 5: Within 90 days of OCR approving the Plan, the District will submit to OCR the draft Report and a draft of the aggregated survey responses for the public. The District will promptly and fully address any concerns OCR has about the Report or aggregated survey responses, until OCR approves both documents.

Reporting Requirement 6: Within 30 days of OCR approving the Report and aggregated survey responses, the District will share the aggregated survey responses and Investigator's recommended reforms with the public and submit the public link to the survey responses, as well as the email announcement required by Term III, to OCR. The District will promptly and fully address OCR's concerns, if any, until OCR notifies the District that no further reporting is required for Reporting Requirement 6 or Term III.

Reporting Requirement 7: Within 30 days of the District sharing the Investigator's recommended reforms and the aggregated survey responses with the public, the District will provide OCR with a report of any steps the District intends to take in response to the Report, the Investigator's recommended reforms, and Climate Assessment. The District will promptly and fully address OCR's feedback regarding those proposed steps until OCR approves them.

Reporting Requirement 8: Within 60 days of OCR approving the District's proposed steps in response to the Report and survey results, the District will provide OCR with documentation that it took those steps. The District will promptly and fully address OCR's concerns, if any, until OCR notifies the District that no further reporting is required for Term III.

IV: ANTI-HARASSMENT STATEMENT

The Superintendent will issue a statement that will be published on the District's website, printed in appropriate publications reaching all District parents, students, and employees, and posted in prominent locations at the School, stating that the District does not tolerate acts of harassment, including acts of harassment based on a student's actual or perceived race, color, or national origin. The statement will encourage any student who believes they have been subjected to harassment or a hostile environment based on race, color, or national origin, or retaliation, to report it to the District and identify the process that should be used to file such complaints. The statement will include the District's commitment to conducting a prompt investigation. The statement will warn that students found to have engaged in acts of harassment that create a hostile environment based on race, color, or national origin and/or retaliation may be disciplined and make clear that such discipline may include, if circumstances warrant, suspension and expulsion. The statement will encourage students, parents, and District employees to work together to prevent acts of harassment and retaliation.

Reporting Requirement 9: Within 30 days of this Agreement being signed, the District will submit to OCR a draft statement written pursuant to Term IV. The District will promptly and fully address OCR's feedback, if any, until the District receives OCR's final approval of the statement.
