

January 23, 2026

Alison,

After a recent review of finances and forward planning for the recently-opened Ready to Work and Tri-Cities Navigation facilities in Englewood, we're finding that our cost of operations has been higher than anticipated. For this reason, we will need to withdraw our RFP for the Loveland shelter project. It's possible in the future we could consider partnering on projects, but right now we have to focus on ensuring stability of our existing operations.

thanks,

Dave Mauro
