September 15, 2026

We recently became aware of a parent's concern relative to certain class expectations. Given our commitment to partnering with parents to address any issue that might arise, we immediately sought to schedule a meeting with the parent to engage in a conversation about the concern. We look forward to meeting with the parent in the coming days and working collaboratively with that objective. The Lakeview School District remains fully committed to educational excellence and best practices in all it does.

Respectfully,

Karl D. Paulson
Superintendent
Lakeview Public Schools
