The background of the entire page is a sepia-toned photograph of a classroom. A teacher is standing at the front of the room, facing a whiteboard. Several students are seated at their desks, some looking towards the teacher. The room is filled with educational materials, including posters on the walls and a whiteboard. The overall atmosphere is that of a typical classroom setting.

Clark County School District

Plan to Transition to the Hybrid Instructional Model

INTRODUCTION

History

State Requirements and Guidance

Governor Sisolak ordered schools closed effective March 16, 2020, and that order remained in effect through the end of the 2019-2020 school year.ⁱ School districts were required to submit to the Nevada Department of Education a Request for an Emergency Program of Distance Education, and the Clark County School District (CCSD) finished the 2019-2020 school year under an emergency distance education program.

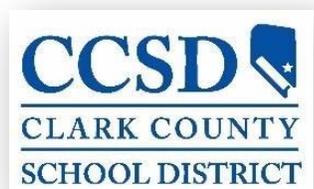

On June 9, 2020, the Governor requiredⁱⁱ school districts to develop school reopening plans for the 2020-2021 school year based on *Nevada's Path Forward: A Framework for a Safe, Efficient, and Equitable Return to School Buildings*ⁱⁱⁱ, and provided for the reopening of schools effective June 10, 2020. The Nevada Department of Education provided guidance^{iv} for the development of school reopening plans, and the District began the work to develop reopening plans for the 2020-2021 school year.

The guidance reiterated the requirement that school districts follow Nevada's Phase 2 restrictions:

- 50 percent fire code occupancy
- Groups no larger than 50
- All social distancing requirements, that is, a separation of at least six feet between people, are satisfied.

These social distancing requirements translated into specific protocols as the plan was developed:

- With the extremely large class sizes in the District and the space available in schools, approximately 50 percent of students may attend school at any one time to meet social distancing requirements.
- In collaboration with the Southern Nevada Health District (SNHD), bus capacity of 50 percent or less must be maintained to meet social distancing requirements.
- Assemblies, performances, large performing arts classes, and athletic events must be restricted.

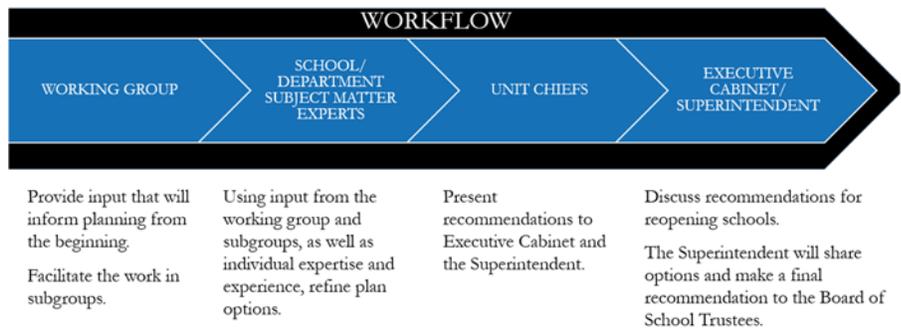

School districts were guided to create plans that “address multiple potential reopening scenarios, including full-time distance education for all students, in-person instruction following social distancing protocols, and hybrid learning.”

Reopening plans were guided by stakeholder input, including a diverse working group of individuals representing multiple facets of our community, and a broad family and community survey. This input was considered alongside the knowledge and expertise of experts in teaching and learning, health and wellness, operations, facilities, communication, technology, risk management, and other areas from both within the District and across the country.

On July 28, 2020, Governor Sisolak released Emergency Directive 028^v, which required school districts to consult with local health officials “when making determinations regarding delivering instruction through in-person, distance learning, or hybrid learning models;” refined requirements related to social distancing, face coverings, isolation and quarantine guidelines, continuing to provide services and instruction, and reopening athletics. The directive also delegated to superintendents the authority to make determinations regarding implementing hybrid learning models.

Reopening Our Schools Working Group

The workflow for developing the plan started with the Reopening Our Schools Working Group. The working group included stakeholders with first-hand experience, including parents/guardians, support professionals, teachers, a social worker, principals, District and community leaders, and two trustees.

The working group considered eight options and developed these eight options in consideration of their own experiences. They considered these scenarios as they built out procedures for specific pieces, including how many students could be in a classroom at a time with social distancing in place, student arrival and dismissal procedures, or how to ensure the school is appropriately cleaned between groups of children.

The initial work by the working group was instrumental as it allowed our subject matter experts to further develop and refine the plan and analyze the options in terms of:

- Health and safety
- Student learning, including both instruction and social-emotional wellness
- Financial impact
- Feasibility
- Community impact
- Choice
- Risk

Family and Community Survey

The District also surveyed community stakeholders to gather broad input to guide plan development.

The survey was available in English and Spanish between May 21, 2020, and June 2, 2020, for a total of 13 days. A total of 94,603 responses were received. The survey was designed to answer five main questions:

1. What is important to stakeholders when considering children attending school in person?
2. How strongly would stakeholders support different options for fall 2020?
3. How important are different aspects of distance education?
4. How did CCSD’s emergency distance education affect stakeholders?
5. How prepared for distance education in fall 2020 do our stakeholders feel?

Results of the Family and Community Survey were presented to the Board of School Trustees on June 11, 2020. Reference material from this presentation is available at [https://go.boarddocs.com/nv/ccsd/v/Board.nsf/files/BQGUBN752E51/\\$file/06.11.20%20Ref.%2005.05.pdf](https://go.boarddocs.com/nv/ccsd/v/Board.nsf/files/BQGUBN752E51/$file/06.11.20%20Ref.%2005.05.pdf).

Approval of the Reopening Our Schools Plan

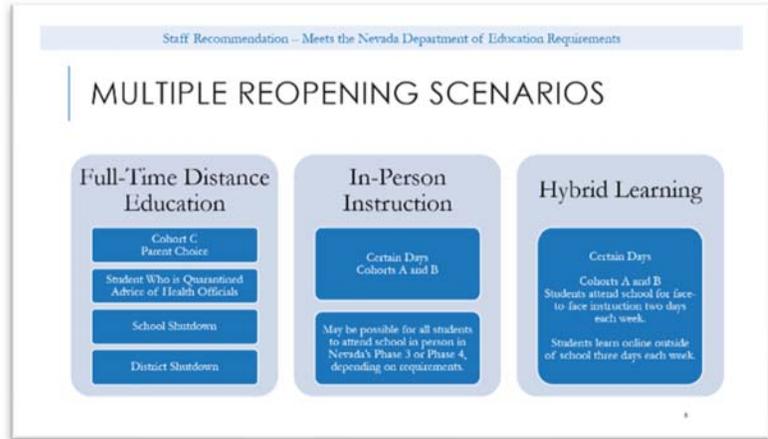

The Board of School Trustees received a presentation and participated in discussion related to the Reopening Our Schools Plan on June 25, July 6, and July 9, 2020, and provisionally approved the reopening plan on July 9, 2020. The accompanying school calendar changes were also approved by the Board of School Trustees on Thursday, July 9, 2020, and were subsequently submitted to the Nevada Superintendent of Public Instruction.

The plan, as provisionally approved, included three reopening scenarios:

- Full-time distance education
- In-person instruction
- Hybrid learning

On July 21, 2020, the Board of School Trustees voted to begin the 2020-2021 school year in full-time distance education, with staff having the option to telecommute and rural schools having the option to open in hybrid or full-time face-to-face instructional models, if social distancing requirements could be met, local community health data warranted, and enough staff were willing to work at the school.

Since August 10, 2020, all but seven CCSD schools have been operating in distance education, with three rural schools operating in the hybrid instructional model and four rural schools operating full-time face-to-face.

Parent/Guardian, Staff, and Community Input

Family and Community Survey

A parent/guardian and family survey was conducted in May and June 2020. The District learned that to all stakeholders, enhanced cleaning, hand washing, and social distancing were the three most important factors when considering children attending school in person. At this time, most stakeholders favored returning to school with full-time face-to-face and hybrid instructional models over distance education. Regarding the importance of various aspects of distance education, it was evident that most stakeholders valued communication and feedback the most, while students very strongly favored flexibility over structure, supported by frequent feedback on student progress. Finally, most respondents felt that the emergency distance education plan in the spring of 2020 negatively impacted academic indicators and relationships with friends, though half reported an improvement in family relationships.

Primary Takeaways

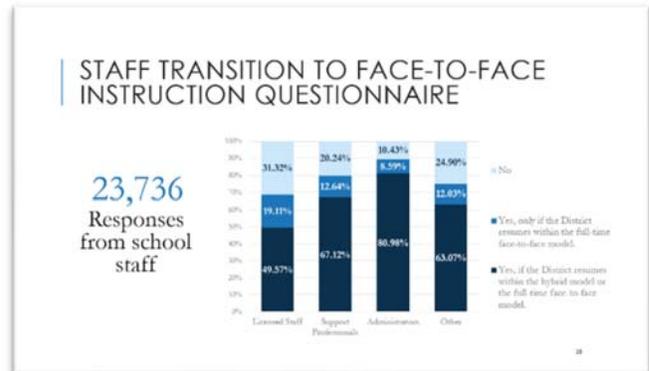

1. *Parents/guardians and students want schools open with protocols in place for enhanced cleaning, hand washing, and social distancing.*
2. *Future distance education plans require significant improvement.*
3. *Students without support structures will benefit from returning to the classroom.*

Staff Transition to Face-to-Face Instruction Questionnaire

School employees were surveyed about a possible transition to face-to-face instruction in September and October 2020.

- The Board of School Trustees authorized telecommuting during distance education as part of the decision to open schools in full-time distance education.
- Some staff members have made the decision to telecommute, while other staff are reporting to their work locations every day.
- Full-time face-to-face instruction, and possibly the hybrid instructional model, cannot be implemented without employees reporting to work locations.

When employees were asked if they were planning to return to their work locations if they continued to have the option, just over half of those who responded are prepared to return to the work location in the hybrid or full-time face-to-face model. School licensed staff were least likely to want to return (50%), followed by school support professionals (68%), followed by site administrators (81%).

Primary Takeaways

1. Some staff members prefer to telecommute, are concerned about health impacts of returning to the work location, or foresee childcare or other challenges to returning to the work location.
2. Some staff members may not understand that the hybrid and full-time face-to-face instructional models may not be able to be implemented without instructional staff in schools.

Community Listening Sessions

Community listening sessions were held to hear directly from legislators, parents/guardians, municipalities, and CCSD employees to gain insight on what they believe will make this a stronger and more equitable school district for all students to thrive and flourish. At the end of each session, opinions and ideas were captured — what they are satisfied with, what they are most concerned about, what they need more of, and what they would like to see change.

Primary Takeaways

1. Some state legislators and local elected leaders are in favor of students having the ability to be back in a school building, even if it is in the hybrid instructional model.
2. Community members are concerned about dramatic learning loss, especially for students in elementary schools.
3. Members of all stakeholder groups have great concerns pertaining to mental health.
4. Emerging themes across stakeholder groups included health, mental health, equity, two-way communication, standardization, and preparation.

Hybrid Cohort Questionnaire

Parents/guardians were asked to complete a questionnaire in November 2020 to select the cohort within the hybrid instructional model their children will participate in. The questionnaire also asks parents/guardians to determine if they would utilize transportation services. Schools will monitor and assist with the completion of the questionnaire to ensure a response is received for every student. At the time of this document's date, the questionnaire is still open to parents/guardians.

Anticipated Takeaways

- 1. Anticipated number of students participating in each cohort of the hybrid instructional model.*

Meetings with K-12 Principals

Region superintendents held meetings to which all principals were invited to provide input on the content of the plan.

Primary Takeaways

- 1. Principals appreciated the opportunity to connect with level peers to provide input regarding the outline of the plan.*
- 2. Principals want to connect with their students, especially those with the most need, such as students with Individual Education Programs (IEPs), English language learners (ELLs), and those with social-emotional needs.*

Why Transitioning to the Hybrid Instructional Model is Important

The health crisis brought on by COVID-19 has brought additional crises that must be considered when making decisions. There is a health crisis that has kept children out of schools, but we must balance that with the mental health crisis and the academic crisis that is being observed.

Health Crisis	Mental Health Crisis	Academic Crisis
<ul style="list-style-type: none"> • Ongoing COVID-19 infections • No vaccine available 	<ul style="list-style-type: none"> • Increased student suicide rate • Decreased referrals for mental health supports • Decreased referrals to Child Protective Services 	<ul style="list-style-type: none"> • Decreased enrollment and attendance • Parents/guardians reporting lower than usual grades

Balancing these three crises requires that we see the importance of each as they relate to each other.

The Centers for Disease Control and Prevention (CDC) states that “it is critical for schools to open as safely and as quickly as possible for in-person learning,” noting that “Schools are an important part of the infrastructure of communities, as they provide safe, supportive learning environments for students, employ teachers and other staff, and enable parents, guardians, and caregivers to work. Schools also help to mitigate health disparities by providing critical services including school meal programs and social, physical, behavioral, and mental health services.”^{vi}

Guiding Principles

As the District has engaged in this work from the beginning, the following principles have guided decision making and planning for reopening our schools:

- Ensure the safety and wellbeing of all students and employees.
- Promote equity and accessibility to learning for all students.
- Provide instructional delivery systems to meet the needs of all students.
- Foster positive relationships and interactions.

This work is by far the most complex, intricate work ever engaged in by this District and all school districts across the country. Information and advice has been gathered from many peers and resources within our District, community, and across the state and the country.

- The Superintendent meets regularly with the other 16 Nevada Superintendents, the state Charter Authority, and the Nevada Superintendent of Public Instruction.
- The Superintendent meets regularly with the Council of the Great City Schools to discuss COVID-19 recovery efforts.
- The Superintendent is a member of the School Superintendents Association AASA COVID-19 Recovery Task Force.
- District leadership collaborate multiple times each week with the SNHD.
- District leadership and staff have collaborated with and considered the best thinking from universities across the country, including Harvard and Georgetown.
- District leadership have been collaborating with their counterparts in school districts across Nevada and the country to share ideas and solve problems with peers and professional organizations.
- In addition, specific guidance is provided from the CDC, the State of Nevada, and the Nevada Department of Education.

Current State Guidance and Requirements

Since the opening of schools, no additional directives have been released by the Governor related to schools. The Nevada Department of Education continues to maintain COVID-19-related guidance for school districts at http://www.doe.nv.gov/home/COVID_Resources/.

On October 28, 2020, the Governor voiced his desire for students to return to the classroom, noting that CCSD is the only school district in the state currently operating in full-time distance education, and stating, “I want more kids to get in-person learning in a safe and responsible way.”

We applaud the Governor and the Nevada Superintendent of Public Instruction for their continual dedication to ensuring the students in Nevada are supported with precautions designed to support health and safety while allowing the structures in place in this state to support their academic and social-emotional needs. Superintendent Jesus F. Jara states, “This plan follows the health and safety guidelines provided for schools but also gives our children the opportunity to address academic gaps and engage with their peers and adult educators. We must embrace this work with a relentless sense of urgency. Our children are depending on us.”

RECOMMENDATION

Staff's recommendation to the Board of School Trustees is to implement a plan that transitions students to the provisionally Board-approved hybrid instructional model for most schools, with a phased-in timeline for students, and a possible transition to full-time face-to-face instruction for certain schools. The protocols and practices in this plan are designed to allow CCSD to bring children back to school with the support of the Governor, the Nevada Superintendent of Public Instruction, and the SNHD. Major components of the recommendation include:

1. Implement the hybrid instructional model at all schools except those opening for or continuing in full-time face-to-face instruction and programs continuing to operate in full-time distance education, with the following parameters:

- a. Parents/guardians may select for students to participate in two days of face-to-face instruction and three days of distance education each week or continue to participate in full-time distance education.
- b. Students participating in two days of face-to-face instruction and three days of distance education each week will be equally distributed into Cohorts A and B in order to ensure facility and transportation capacity requirements can be met. Individual adjustments may be possible at the school level.
- c. The hybrid instructional model will be implemented with staggered groups of students over two weeks to allow for schools to adjust protocols and procedures after smaller groups of students attend.
- d. Evening programs at Morris Sunset East High School, Cowan Sunset High School, and Burk Sunset High School will continue in full-time distance education.

2. Implement the full-time face-to-face model at certain schools that can accommodate social distancing, meet all safety and health guidelines, and with the support of the SNHD, including:

- a. Rural schools.
- b. Small urban schools, based on recommendation of the region superintendent, and discretion of the Superintendent.

3. Discontinue telecommuting for staff.

- a. Certain sites unable to accommodate social distancing may require rotational telecommuting.

Clark County School District Reopening Our Schools Plan – Hybrid Instructional Model

The *Clark County School District Reopening Our Schools Plan* was developed to meet all the guidelines provided by the Nevada Department of Education.

The primary structure of the hybrid scenario within the plan requires that students be divided into three student cohorts.

Students in Cohort A attend school face-to-face on Mondays and Tuesdays and engage in distance education on Wednesdays, Thursdays, and Fridays.

Students in Cohort B engage in distance education on Mondays, Tuesdays, and Wednesdays and attend school face-to-face on Thursdays and Fridays.

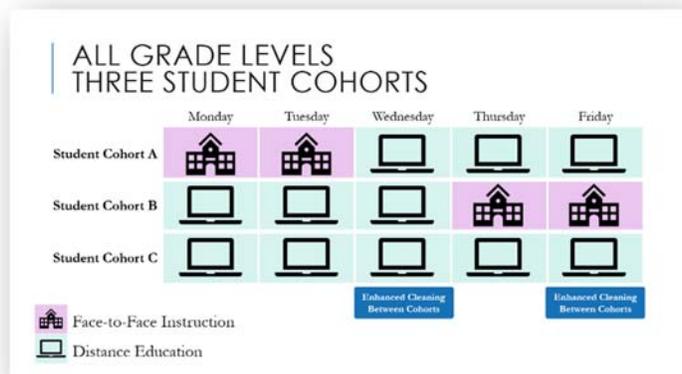

Students in Cohort C engage in full-time distance education all days. This cohort is for those students who may be part of a vulnerable population or whose families are uncomfortable with the child attending school face-to-face.

Students whose parents/guardians choose for their children to participate in Cohort C may be required to remain in full-time distance education for the remainder of the school year, depending on available space in classrooms and schools.

Wednesdays are designated for distance education for students and time for licensed professionals to engage in instructional planning, collaboration, and professional learning.

Custodial teams will conduct disinfectant duty activities in each classroom and common areas throughout the day, but this schedule was also developed to allow for complete enhanced cleaning of the entire school between cohorts of students.

Additional details regarding the implementation of this scenario are provided throughout this document.

Clark County School District Reopening Our Schools Plan – Face-to-Face Instructional Model

Schools currently operating in the full-time face-to-face scenario may operate according to their traditional schedules, recognizing that, for these schools, social distancing requirements and other required health and safety guidelines are able to be met with students on campus and in the classroom every day.

Summary of Preparedness and Mitigation Protocols and Strategies

Detailed protocols and strategies have been developed and will be in place for the transition to the hybrid instructional model. The following pages summarize and point out key details in each of the major topic areas included in the Plan to Transition to the Hybrid Instructional Model:

- Transition Timeline
- Expectations
- Health and Safety
- Facility Preparation and Maintenance
- School Operations
- Food Service
- Transportation
- Technology
- Athletics
- Human Resources
- Communications

Our Commitment to Continual Improvement

The protocols and strategies detailed in this plan are a result of the information and guidance available at the time of this document's publication. Should additional information or revised guidance become available, protocols and strategies will be revised as needed. For this reason, this document will be considered a working document throughout the implementation of the hybrid instructional model.

1. TRANSITION TIMELINE

November 3	<p>Parent/guardian cohort selection.</p> <ul style="list-style-type: none"> • Parents/guardians may select the cohort within the hybrid instructional model their children will participate in. • Students participating in two days of face-to-face instruction and three days of distance education each week will be equally distributed into Cohorts A and B in order to ensure facility and transportation capacity requirements can be met. Individual adjustments may be possible at the school level.

2. EXPECTATIONS

Expectations for Administration

- If you do not feel well, stay home.
- Complete the *Health Check* form daily.
- Educate students, staff, and visitors about health promotion and illness prevention practices.
- Provide a clean, safe, and healthy educational environment for students, staff, and visitors.
- Exhibit and enforce social distancing measures.
- Inform and enforce handwashing and hand sanitizing protocols.
- Wear and require cloth face coverings.
- Implement Procedure for Visitor or Employee Entry on a School Campus or District Facility Property.
- Collaborate with District administration and health officials as needed for contact tracing a COVID-19 exposure or case positive student or employee.

Expectations for Staff

- If you do not feel well, stay home.
- Complete the *Health Check* form daily.
- Educate students about health promotion and illness prevention practices.
- Exhibit and enforce social distancing measures.
- Inform and enforce handwashing and hand sanitizing protocols.
- Wear and require cloth face coverings.
- Collaborate with school and District administration and health officials as needed for contact tracing a COVID-19 exposure or case positive student or employee.

Expectations for Students

- If you do not feel well, stay home from school.
- Always wear a cloth face covering on the bus and at school.
- Always stay six feet apart from other people.
- Wash your hands often.

Expectations for Parents/Guardians

- Review and/or update emergency contact information in Infinite Campus.
- If your child does not feel well, keep them home from school.
- Utilize the District's *Parent and Guardian Guidance Checking Your Student Before Leaving Home* flyer to ensure your child is well prior to sending your child to school. (See Appendix for flyers in English and Spanish prepared for parents/guardians.)
- Check your child's temperature to rule out fever and/or signs or symptoms of illness prior to departure from home.

3. HEALTH AND SAFETY

Medical Impact of COVID-19 on Student and Employee Health and Wellness

COVID-19 is mostly spread person-to-person by respiratory droplets released when people talk, cough, or sneeze. It is thought that the virus may spread when inhaled or spread to hands from a contaminated surface and then making hand contact with the eyes, nose, or mouth, causing infection.

When interacting with students who are not suspected or confirmed to have COVID-19, the CDC recommends following everyday prevention actions. Therefore, personal prevention practices, such as social distancing; handwashing; hand sanitizing; not touching eyes, nose, or mouth; wearing cloth face coverings; and staying home when sick, and environmental practices, such as frequent cleaning and disinfection of frequently touched surfaces, are important principles that are covered in this transition plan.

Requirements Related to Health and Wellness

To lower the risk of infection transmission, schools must promote healthy behaviors that reduce the spread of illness.

- Educate students, staff, and visitors about health promotion and illness prevention practices.
- Provide a clean, safe, and healthy educational environment for students, staff, and visitors.
- Exhibit and enforce social distancing measures.
- Inform and enforce handwashing and hand sanitizing protocols.
- Properly wear and require cloth face coverings.
- Implement a procedure for ensuring visitors and employees enter and remain on a school campus or District facility property safely.
- Collaborate with District administration, school nurses, and health officials as needed for contact tracing a COVID-19 exposure or case positive student or employee.

Prevention and Mitigation of Virus Spread Within Schools

Educating Staff and Students about Healthy Behaviors

Social Distancing^{vii}

Social distancing, also called “physical distancing,” means keeping space between yourself and other people outside of your home. To practice social or physical distancing:

- Stay at least six feet (about two arms’ length) from other people.
- Do not gather in large groups and avoid close contact with other people (close contact is being within six feet of another person for 15 cumulative minutes of exposure over a 24-hour period).
- Stay out of crowded places and avoid mass gatherings.
- In the classroom, have all desks facing forward and separated from each other by at least six feet in all directions.
- Consider communitywide level of COVID-19 spread and adjust distance education to accommodate phased school reopening procedures.
- Have students eat pre-packaged breakfasts and/or lunches in the classroom rather than reassembling students in a common cafeteria.
- Assess group gatherings and events planned for the school year and consider postponing non-critical gatherings and events.
- Utilize smaller class sizes; limit each group of students to one teacher, when possible.
- Minimize transitions from one classroom to another.
- Use distance education methods for general assemblies, special events, and other activities that would avoid large gatherings of 50 or more students.

Handwashing and Hand Sanitizing^{viii}

Handwashing and the use of alcohol-based hand sanitizers help to prevent infections and reduce the number of viable pathogens on the hands. Access to handwashing supplies is essential. These supplies include soap, hand sanitizer with at least 60 percent alcohol (for staff and older children who can safely use hand sanitizer), paper towels, tissues, and no-touch trash cans.

Handwashing is the single most effective infection control intervention (CDC).

Hand hygiene is performed by washing hands with soap and water for at least 20 seconds or using hand sanitizer with 60-95 percent alcohol content until the product dries. If hands are visibly soiled, use soap and water.

Staff members should perform hand hygiene frequently, including:

- Before and after site check-in procedures.
- Before and after contact with any student.
- Contact with potentially infectious material.
- Before putting on and after removing personal protective equipment (PPE), including gloves, to remove any pathogens that might have been transferred to bare hands during the removal process.

When handwashing stations are not readily available, the use of hand sanitizer should be encouraged. Students and staff should be encouraged to wash hands/use hand sanitizer often, such as:

- After coughing, sneezing, or blowing nose.
- After using the restroom.
- Before eating or preparing food.
- Before and after touching face.
- Prior to boarding the school bus.
- Prior to school entry.
- After contact with animals or pets and playing outside.
- Before and after providing routine care for another person who needs assistance (e.g., a child).
- Before putting on and after removing gloves.
- After touching frequently touched areas (e.g., doorknobs, handrails, shared computers).

Cloth Face Coverings^{ix}

Cloth face coverings are useful to prevent the spread of disease. Cloth face coverings are meant to protect other people in case the wearer is unknowingly infected but does not have symptoms. Cloth face coverings are not surgical masks, respirators, or other medical PPE. Cloth face coverings should be washed daily.

- Face coverings must be worn by staff and students.
- Individuals should be frequently reminded not to touch the face (eyes, nose, or mouth) at any time, including while wearing a cloth face covering and to wash hands frequently.
- Information should be provided to staff, students, and students' families on proper use, removal, and washing of cloth face coverings. Cloth face coverings should not be placed on:
 - Children younger than two years old.

- Anyone who has trouble breathing, is unconscious, is incapacitated, or has a disability that prevents them from wearing a cloth face covering or otherwise unable to remove the cloth face covering without assistance.
- General Rule of Cloth Face Coverings

Except as otherwise set forth below, all District students and employees must wear an approved face covering that covers the face from the bridge of the nose to snugly under the chin at all times while on District property, including all buildings, grounds, and school buses, and/or while engaged in District activities.

For purposes of this protocol, approved face coverings include homemade or store-bought cloth face masks, surgical masks, masks with filters, or transparent/clear face masks that cover the face from the bridge of the nose to snugly under the chin. Face coverings with exhalation vents, those that are open at the top or bottom (such as bandanas or clear plastic face shields without an approved face covering underneath), or those that do not cover the face from the bridge of the nose to under the chin may not be worn.

Face coverings must comply with all applicable District policies, regulations, and dress codes pertaining to student and employee attire.

- Exceptions

Face coverings may be removed in the following circumstances:

- Employees who need a break from wearing their face covering while on CCSD property may do so if alone in their own office or classroom, or outdoors while maintaining appropriate social distancing. An employee may not remove his or her face covering in a common space (conference room, break room, restroom, stairwell, hallway, or other common area), regardless of whether such space is currently occupied by others.
- Employees or students who are eating or drinking, provided that appropriate social distancing protocols are followed. Face coverings must be replaced when finished eating or drinking.
- Students who are engaged in vigorous physical activity, including physical education (PE) classes and recess, provided that appropriate social distancing protocols are followed.
- To the extent possible, employees who work with students who are deaf or hard of hearing, learning to read, learning the English language, or otherwise require direct view of the employee's mouth for the purposes of learning, should wear

clear face coverings that extend from the bridge of the nose to below the chin, such as clear plastic masks. Approved face coverings must be worn at all times when employees are not engaged in such instructional activities.

- Additional Information

For school athletic activities, refer to the section regarding athletics for further guidance on face coverings for student athletes.

Other allowances for requests for accommodations will be addressed as required by applicable law and any relevant District policies and regulations.

Initial PPE supplies (gloves, disposable gowns, hand sanitizer, three-ply masks, student/staff cloth face coverings) will be provided to all schools prior to students transitioning to the hybrid instructional model.

COVID-19 Employee Testing and Monitoring Program

A Task Force Initiative for Educator Safety and Screening (T.I.E.S.) is being developed as a response to the COVID-19 pandemic to provide District staff an opportunity for testing and monitoring their health to promote safe workplace environments.

Ensuring Essential Visitors Enter a School Campus or District Facility Safely

Visitors should be limited to individuals who are essential to school or District activities and who make an appointment. All visitors must:

- Complete a *Visitor Questionnaire and Acknowledgement*, which includes a symptom self-check form (see image below). All visitor questionnaires must be retained and kept confidential by site administration for a period of one year.
- Wear a visible visitor badge or sticker to indicate proof of screening.
- Wear cloth face coverings upon entry to school buildings unless they have been granted an accommodation.
- Observe social distancing of six feet or more.
- Be encouraged to wash or sanitize hands regularly, especially before and after check-in procedures, between classes or activities, and when working with children or supplies.

Department Name: _____

VISITOR QUESTIONNAIRE AND ACKNOWLEDGEMENT

First Name

Last Name

Cell Phone

Email

In accordance with the Southern Nevada Health District (SNHD) Guidelines, if you answer yes to any of the following questions, you shall not be permitted entry to the facility. Circle the respective answer to each question.

1. Do you have a new cough that cannot be attributed to another health condition?	YES	NO
2. Do you have new shortness of breath that cannot be attributed to another health condition?	YES	NO
3. Do you have any <i>one</i> of the following symptoms: fever (100.4° F or higher), chills, repeated shaking with chills, muscle pain, headache, sore throat, vomiting, nausea, diarrhea, increasing congestion, runny nose or new loss of taste or smell?	YES	NO
4. Have you come into close contact (within 6 feet for over 15 minutes) with someone who has a laboratory-confirmed COVID-19 diagnosis in the past 14 days?	YES	NO
5. Have you received a laboratory-confirmed positive COVID-19 diagnosis in the last 10 days?	YES	NO

I acknowledge that **being on a CCSD campus** is for my personal benefit and that I will immediately be asked to leave and will be given instructions for rescheduling my visit if I become ill. In addition, if I become symptomatic and/or receive a positive COVID-19 test result within fourteen (14) days of my visit to the CCSD building, I will immediately contact them at 702-799-7133 and give my name and the date of my visit and who I met with to notify the SNHD to make appropriate contact notifications during this pandemic.

For Office Use Only

Appointment Date:

Building/Room

Name of Employee Handling Appointment

Ensuring Employees Enter a School Campus or District Facility Safely

A *Health Check* form has been developed and required for all employees working onsite in District buildings to complete at the start of their work shift. Access to the *Health Check* form is available to employees in three ways:

- The daily *Health Check* form will display in a Web browser window when the employee logs on to their District computer.
- A shortcut with the title *Health Check* is included on every computer desktop.
- Employees can also visit <https://health-check.ccsd.net/>.

All employees must:

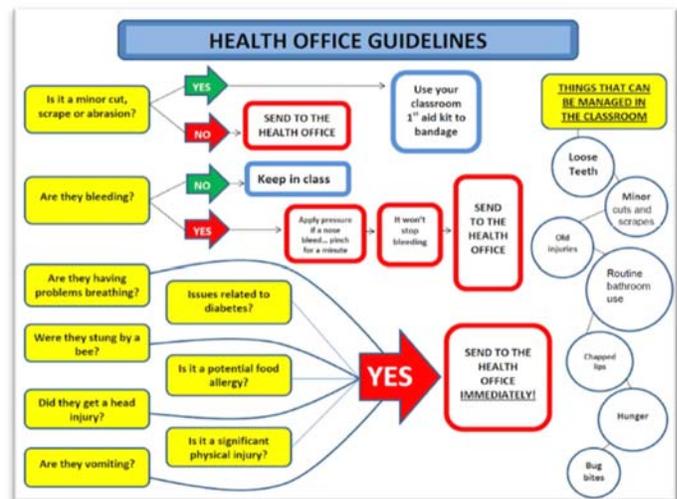

- Be reminded that if they are feeling sick they should stay home and advise their supervisor. They should **not** come into work and then indicate symptoms or exposure on the *Health Check* form.
- Complete the *Health Check* form every day they report to the work location.
- Properly wear a cloth face covering at all times.
- Be encouraged to wash or sanitize hands regularly, especially before and after check-in procedures, between classes or activities, and when working with children or supplies.

Management of Minor Injuries in the Classroom

The management of minor first aid injuries, to the degree possible, should be handled in the classroom to prevent health office congregation and possible cross exposure. *First Aid and Emergency Guidelines for School Personnel* are available to all staff^x.

The following recommendations for basic first aid care of students with minor injuries are below:

- Ensure all classrooms are provided with a first aid kit that can be restocked as needed.
- To the extent possible, students provide their own first aid with staff direction and physical distancing (i.e., student to pinch own nose for bloody nose).
- Teachers should contact health office personnel prior to sending the student to the health office so that triage needs can be considered.

Medication Administration

In some instances, students may need to take medication at school. To the degree possible, efforts should be made to identify ways that medications may be taken at home, instead of during school hours.

The following steps should be taken to ensure the safety of all students and minimize office clustering.

- Parents/guardians should be notified that they will need to make an appointment prior to the start of school to bring the medication in so that delivery times may be staggered.
- Parents/guardians will bring in the medication with an appropriate pharmacy label or with a licensed health care provider order to the school nurse.
- For over-the-counter medication, a copy of the prescription or licensed health care provider order is required.
- The school nurse will collaborate with the licensed health care provider and parents/guardians to ensure that any nebulizer medication delivery must be converted to an inhaler, preferably with a spacer, to avoid Aerosolized Transmissible Diseases of COVID-19 (Taras, 2020).

All employees must follow the Health Services Department policy for medication administration and CCSD Regulation 5150, Health and Welfare: Students^{xi}.

- Health office personnel may consider visits to classrooms to administer medication to the students.
- To the extent possible, students should be encouraged to self-administer medication that may be self-carried in accordance with District regulations and Nevada law.
- Stagger student times coming into the health office area for medication.
- Another option for medication delivery, following collaboration between the site administrator and school nurse, include:
 - Educational staff may be taught by the school nurse to administer scheduled medications to students.
 - Medication will be locked up in a secure location and verified by the school nurse in the respective classroom.
 - Staff members will be provided training by the school nurse regarding documentation. Confidentiality must be maintained. Delegation of training must be completed monthly by the school nurse.
- **Note: Controlled substances and medications given on an as-needed basis must be administered by health office staff.**

Specialized Medical Procedures

Specialized medical procedures may be needed for students with disabilities to ensure equal access to health needs and education in the school environment.

- An authorized licensed health care provider must provide a prescribed procedure intervention(s) necessary for a licensed nurse, or qualified District employee to perform or assist students during the school day.
- Students must have equal access to curriculum and health care needs in the school environment.
- The use of PPE during these procedures following COVID-19 may be consistent with pre-pandemic use for some procedures.
- For others, additional PPE use may be warranted.
- The Health Services Department will provide guidance for school nurses and other school staff in terms of appropriate PPE for these procedures and delegated care.

Medically Fragile Students

With regard to medically fragile student populations, it is important that IEP teams work with the school nurse, licensed health care provider, and parent/guardian in determining if it is in the best interest of the child to return to school. Medically fragile students are considered a vulnerable COVID-19 population and may not be able to attend school.

Students with immunosuppression may be at increased risk during an outbreak of COVID-19 because they are at high risk for health complications.

- Distance education should be considered to support academics.
- Parents/guardians have the option for students to participate in full-time distance education to keep their child at home due to health concerns, an extended illness, or quarantined because of an exposure to the virus.

It is important to consider recommendations from the licensed health care provider when determining if vulnerable populations, such as medically fragile students, should return to campus for instruction. Things to consider include:

- Hospitalized students and students who are home due to health problems or acute illness/injuries may require a plan to remain on full-time distance education.
- Students who are already receiving services on a Homebound Program placement will continue to receive Homebound instruction through full-time distance education.
- Students who are already receiving supplemental home services will continue to receive supplemental home services support through distance education.

Personal Protective Equipment

The use of PPE is based upon several precautionary factors, including the CDC and SNHD guidance, level of COVID-19 contagion in the community, and the role and the responsibility of the individual. Education on proper use of PPE is important.^{xii}

N95 Masks and Surgical Face Masks

- Medical-grade face masks (surgical masks, N95 masks, and N95 respirators) should be reserved for health care providers who are providing direct health care services.
- Symptomatic students/staff should be provided a surgical mask, if available, until they go home.
- Individuals should be careful not to touch their eyes, nose, and mouth when removing their face covering and wash hands immediately after removing.

Face Shields/Protective Eyewear

- Face shields provide full-face coverage and should only be utilized in addition to a mask to provide greater protection from both large and small droplet contamination.
- Goggles also provide excellent protection for eyes, but fogging is common.
- Goggles should be worn when blood or body fluid splashes, sprays, or spatters are possible.
- A face shield worn over a surgical mask or N95 mask may be utilized when an N95 respirator is not available.

Gloves (Non-Latex)

- Gloves should be worn when it can be reasonably anticipated that contact with respiratory, blood, gastrointestinal fluids, or other potentially infectious materials; mucous membranes; nonintact (broken) skin; or potentially contaminated intact skin (e.g., of a student incontinent of stool, urine, or vomit) could occur.

Gowns

- There may be a need to consider gowns when sputum or other bodily contents may come into contact with an employee's clothing during one-on-one student care, one-to-one nursing care, and during suctioning procedures.

Protective Equipment Use by Direct Service Providers

Job Classification for PPE Use	N95 Respirator	Face Shield	Disposable Gowns	Disposable Gloves	Gowns/Coveralls/Other Body Covering	Cloth Face Covering	Disposable Mask or KN95
School nurses/FASAs/health office backups in health care areas with students suspected or confirmed for COVID-19.	X	X	X	X	X		X with face shield if N95 not available
School personnel not in health care areas with students who have possible COVID-19 symptoms. Notify the health office.						X	
School personnel providing personal care to students who may potentially be exposed to bodily fluids of non-COVID-19 students.		X preferred		X			X
School nurses/licensed nurses performing or present during aerosol generating procedures, such as nebulizer treatments, chest physiotherapy, suctioning, tracheostomy care, and other specialized procedures producing respiratory droplets.	X	X	X	X	X		
Transportation personnel/bus aides who must come in direct physical contact with passengers (e.g., buckling/unbuckling, performing wheelchair safety services).		X		X		X	

Health Office

Detailed guidance and protocols related to health services are available to schools in the Health Services COVID-19 Resource Guide^{xiii}, available at <https://drive.google.com/file/d/1nEEWp8M38ieHyMQtM6QEeqABtyMwI9vx1/view?usp=sharing>.

Protocols for School Health Offices During COVID-19 Pandemic

- Only health office personnel or those staff members assisting with student care should be permitted in the health office.
- Student aides must not be assigned to the health office.
- Parents/guardians, siblings not in school, and visitors should not enter the health office to prevent the possible exposure to illness and disease.
- All non-essential personnel should be directed to an alternative location.
- Desks and cots are to be spaced in the health office so staff and students are not within six feet of one another. Cloth face coverings must be worn at all times.
- Social distancing lines will be placed on the office floor to remind students to keep their distance.
- Consider placing cots head-to-toe or toe-to-toe, depending on the configuration of the health office.
- Restroom use in the health office should be limited only to students receiving care.
- Nonmedical food/drink items should not be stored in the health office refrigerator.

Procedure for Updates of Student Health Information

The Health Services Department reviews student health information as part of the process to update Infinite Campus (Health Condition Flags) and electronic health office documentation yearly.

The *Student Health Information for School Year* form, CCF-768, is typically disseminated via paper form to students/families at the beginning of each school year. Due to COVID-19, the Health Services Department created a Google form/survey link as an alternative method for data collection. School nurses will collaborate with site administrators to consider the following options to obtain the necessary updates for student health information:

- Send the *Student Health Information for School Year* form, CCF-768, via email to parents/guardians.
- Continue to distribute the *Student Health Information for School Year* form, CCF-768, in a paper format.
- Utilize the student health information survey link to collect the data. The school nurse will facilitate copying/generating the link to utilize for the school site.

Health Office Preparation Checklists for Schools

The following activities will be conducted by site administrators:

- Work with the school nurse to develop health office procedures for managing student illness in schools.
 - Designate health office back-up personnel for training (minimum of two back-ups per school site).
 - School nurse will provide training for PPE, medication, emergency procedures, and COVID-19 protocols.
 - Notify classroom staff of the process to contact health office personnel (phone call, email, Google document, etc.) so triage can take place.
 - If a student or staff member arrives at the established well visit area feeling ill with COVID-19 symptoms or has been exposed to someone with COVID-19, they must immediately be taken to the designated sick room so as not to contaminate a space with well students. It is important to maintain privacy and prevent discrimination for those who may have COVID-19, while ensuring wellness for other students and staff.
- Establish a well visit area.
 - Establish a well visit area for students with health care needs that cannot be addressed in the classroom (e.g., diabetic and other noncontagious health care needs). The well visit area must include a phone, desk, chair, computer, and printer.
 - Students should wash their hands/use hand sanitizer before and after the office visit and maintain physical and social distancing while in the well visit area.
 - Access to water, hand washing, and restroom facilities is required.
 - Additional staff may need to monitor or assist students in the well area when health office staff are not available.
 - School nurse will need a designated area to complete special education health assessments.
- Establish a sick room.
 - Establish an area for students with possible COVID-19 symptoms away from the well visit area.
 - The area should be identified with appropriate signage.
 - Phone, desk, chair, computer, and printer are required to facilitate referrals and contact parents/guardians.
 - Students should be provided a surgical mask, upon entry into the sick room, if they are not wearing a face covering.
 - Students should wash their hands/use hand sanitizer before and after the office visit and maintain physical and social distancing while in the area.

- Access to water, hand washing, and restroom facilities must be accessible in this area, particularly for students with gastrointestinal symptoms.
- Additional staff may need to monitor students in the sick room when health office staff is not available.
- Staff members should wear appropriate PPE, according to CDC guidelines.
- Non-contact thermometers should be used.
- Supplies, such as non-contact thermometers, paper, pens, first aid kit, disinfectant spray, paper towels, trash bags, and additional PPE items should be in the sick room.
- Ensure a safe environment with adequate PPE.
 - Each school site was provided with a short-term supply of PPE from the school nurse to start the school year.
 - Coordinate with the Purchasing Department to secure additional PPE as needed.
 - Provide designated storage space for PPE in the sick room.
- Prepare to assist with contact tracing.
 - Notify the school nurse and/or assigned health services director for any COVID-19 positive cases in the school.
 - Work with the school nurse to provide the following information if there is a confirmed COVID-19 case at the school site:
 - Student name, date of birth, and student number.
 - Names of sibling(s) or parent/guardian and employees of the District.
 - Class lists of the confirmed student.
 - Student bus roster for both morning and afternoon routes, including the bus driver and bus aide.
 - Rosters for school athletics, clubs, and activities of the confirmed student.
 - The Health Services Department will collaborate with the SNHD to provide guidance related to quarantine and/or school closure based on specific case information for confirmed positive COVID-19 cases.

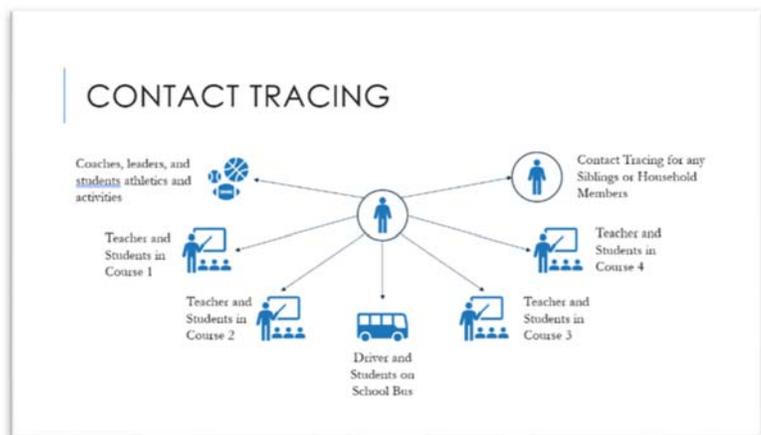

Response to Exposure or Confirmed COVID-19 Case

Site administrators will follow the procedures outlined for communication with their region superintendent, health services director, and the Communications Department regarding all suspected or confirmed COVID-19 cases of students, families, and/or employees, and follow all recommendations issued from the SNHD.

Contact Tracing of a COVID-19 Exposure or Case Positive Student or Employee

Schools play a critical role in contact tracing. Contact tracing, a core disease control measure employed by local and state health department personnel for decades, is a key strategy for preventing further spread of COVID-19 (CDC, 2020). The SNHD works closely with the Health Services Department to prevent the spread of disease in schools and monitor any outbreaks or community spread.

- Contact tracing is part of the process of supporting patients with suspected or confirmed infection^{xiv}.
- In contact tracing, the school nurse and SNHD staff work with families or staff members to help them recall everyone with whom they have had close contact during the timeframe while they may have been infectious. Site administrators may be asked to assist with providing this information as well.
- The school nurse and SNHD staff will notify exposed individuals (contacts) of their potential exposure as rapidly and sensitively as possible.
- Contacts are only informed that they may have been exposed to a patient with the infection. They are not told the identity of the patient who may have exposed them (due to privacy laws).
- Contacts are provided with education, information, and support to understand their risk, as well as information on what they should do to separate themselves from others who are not exposed, monitor themselves for illness, and the possibility that they could spread the infection to others even if they themselves do not feel ill.

Cohort and School/Site Closures

Site administrators will work with the school nurse, health services director, region superintendent, and personnel within the Communications Department regarding any cohort and/or school/site closures.

- Site administrators will assist with contact tracing by identifying one site administrator and two back-up staff to serve as the point of contact for all COVID-19 matters.
- The identified site administrator will immediately notify the school nurse and/or assigned health services director regarding any COVID-19 positive cases in the school.
- The Health Services Department will follow up with the identified site administrator and region leadership for confirmation provided by the SNHD. The identified site administrator will work with the school nurse to provide the following information:
 - Student name, date of birth, student number.
 - Names of sibling(s) or parent/guardian employees of the District.
 - Class lists of the confirmed student.
 - Student bus roster for both morning and afternoon routes, including the bus driver and bus aide.
 - Rosters for school athletics, clubs, and activities of the confirmed student.
- Region leadership will collaborate with the identified site administrator, principal, Health Services Department, and the SNHD to review the lists/numbers of students and staff impacted for potential quarantine.
- The Health Services Department will collaborate with the SNHD to provide direction for region leadership and the schools in regard to quarantine and/or cohort and school closures based on specific case information for confirmed positive COVID-19 cases of student(s) and/or staff. This will be conducted on a case-by-case basis determined by the extent of impacted individuals and any other factors.
- Pivoting to full-time distance education due to the impact of student(s) and/or staff will be determined in collaboration with the Health Services Department, principal, region leadership, deputy superintendent, and the SNHD.
- Communication regarding pivoting to full-time distance education will include the following in the designated order:
 1. Notification to the Trustee of the school by region leadership.
 2. Principal will contact the Communications Department.
 - The Communications Department, Health Services Department, and principal will finalize letters of notification for parents/guardians and school

communities. Region leadership will approve the letters of notification prior to distribution.

3. Notification to the families of students recommended for quarantine, including telephone calls and letters home, is made by the school administration.
4. Letters of notification for parents/guardians and school communities are distributed by the school administration.

Common COVID-19 Messaging Sample Messages for Schools

Example Message - Quarantine Needed

Today we learned that an individual at [INSERT SCHOOL NAME] tested positive for COVID-19. CCSD is prohibited by federal law from revealing the identity of the individual; however, the District is working in collaboration with the Southern Nevada Health District (SNHD) to perform the necessary contact tracing.

As part of this process, it has been determined that you will need to quarantine. The exposure date was the week of [INSERT DATE].

You may return to work/school after 14 days from your exposure date if you do not develop any symptoms of the COVID-19 virus. A negative test will not change the quarantine period. If you become symptomatic during the quarantine period, you will need to stay in quarantine for ten days from the onset of your symptoms. Again, a negative test does not allow you to return.

At this time, you will participate in full-time distance education effective tomorrow, October 16, 2020. Due to the cohort schedule and Election Day, the earliest day you may return to campus is [INSERT DATE].

Please know that we appreciate your cooperation during these challenging times. If you have any questions related to COVID-19, please contact the SNHD at 702-759-INFO (4636).

Example Parent/Guardian Message - Positive Case

This is [INSERT NAME], Principal at [INSERT SCHOOL NAME].

Today we learned an individual at our school tested positive for COVID-19.

CCSD is prohibited by federal law from revealing the identity of the individual; however, the District is working in collaboration with the Southern Nevada Health District (SNHD) to perform the necessary contact tracing. A close contact is someone within six feet for a collective 15 minutes. Any individual in close contact needs to quarantine for 14 days.

If the school or the SNHD has not directly contacted you, you have not been identified as an individual with a close contact. All others may be considered a low-risk exposure, similar to an exposure in the community (e.g., shopping, gathering, events).

CCSD has taken precautions in accordance with re-opening plans to limit the risk to others. This includes cleaning and disinfecting the entire school. Social distancing and personal protective equipment are required while on campus.

Out of an abundance of caution and transparency, we are notifying all students and staff of the following:

- While low-risk exposure does not require a test, any family may seek community testing at the available sites throughout our community.*
- It is important to be mindful to continue pre-screening for any symptoms and possible community contact.*
- If any students are participating in outside activities, they are asked to be diligent in following current, best-practiced mitigation methods for the safety of our school and students.*

CCSD reminds everyone that if they have symptoms (i.e., fever, cough, chills, repeated shaking with chills, muscle pain, headache, sore throat, vomiting, nausea, diarrhea, increasing congestion, runny nose, new loss of taste or smell, or shortness of breath), to stay home.

We will continue to provide information on any impact this process could have on the school schedule.

Example Employee Message - Positive Case

An employee at [INSERT LOCATION] reported they tested positive for COVID-19. The Health Services Department is working to confirm the case with the Southern Nevada Health District.

The employee has not been to work since the week of [INSERT DATE]. If confirmed, the employee will be asked by the Southern Nevada Health District (SNHD) to identify those with whom the employee had "close contact" with before the employee first became symptomatic. "Close contacts," are those persons with whom the employee was within six feet for a collective 15 minutes. These individuals will be notified by SNHD.

CCSD is prohibited by federal law from revealing the identity of the employee. CCSD has taken precautions in accordance with phased re-opening plans to limit the risk to other employees. Social distancing and personal protective equipment is required by employees. CCSD has increased regular daily cleaning of facilities and appropriate steps have been taken to address this case. However, out of an abundance of caution, we are making you aware.

CCSD reminds all employees that if they have symptoms, (i.e., fever, cough, or shortness of breath) they should notify their supervisor and stay home. Sick employees should follow Centers for Disease Control and Prevention (CDC)-recommended steps:

- Stay home: Most people with COVID-19 have mild illness and are able to recover at home without medical care. Do not leave your home, except to get medical care. Do not visit public areas.
- Stay in touch with your doctor: Call before you get medical care. Be sure to get care if you have trouble breathing, have any other emergency warning signs, or if you think it is an emergency.
- Practice home isolation: Separate yourself from other people and pets in your home. You should stay in a specific "sick room" if possible, and away from other people and pets in your home. Use a separate bathroom, if available.

The CDC always recommends everyday preventive actions to help prevent the spread of respiratory diseases, including:

- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60 percent alcohol. Always wash hands with soap and water if your hands are visibly dirty.

Should you have additional questions in regards to the coronavirus please contact the SNHD at 702-759-INFO (4636).

Nevada COVID Trace

The Nevada Governor's Office and the Nevada Department of Health and Human Services encourage citizens to download and utilize *COVID Trace*, a free, easy-to-use mobile phone app that gives public health officials the information they need to fight COVID-19, without compromising privacy.

The app notifies users if they have likely been exposed to COVID-19 based on times and locations of Bluetooth connectivity with other users who report a positive COVID-19 test.

For additional information and to download the app, users can visit <https://nvhealthresponse.nv.gov/covidtrace/>.

Employee COVID-19 Exposure Guidelines

This guidance is provided to communicate consistent processes and procedures for employees diagnosed or exposed to COVID-19, as well as determine when an employee is eligible to return to work.

Determining When Employees Need to Remain at Home

Employees must remain home and contact their immediate supervisor if any of the following are true:

- The employee has been in close contact (within six feet for 15 cumulative minutes of exposure over a 24-hour period) with a person known to have COVID-19.
- The employee has been caring for a household member with COVID-19.
- The employee has a fever of 100.4°F or higher.
- The employee has COVID-19 symptoms or has received a positive COVID-19 lab test result. Common symptoms include fever (100.4°F or higher), chills, repeated shaking with chills, fatigue, muscle pain, headache, sore throat, vomiting, nausea, diarrhea, increasing congestion, runny nose, new cough, new shortness of breath, or new loss of taste or smell.

Employees who do not meet any of the above criteria are to remain at work and monitor health or utilize leave. Employees who are concerned will be encouraged to contact their licensed health care provider. Supervisors may not require that an employee miss work and take leave for any criteria related to COVID-19 other than the criteria listed above.

Gathering Information and Tracking Exposure

If an employee remains home due to the criteria above, the following CONFIDENTIAL information must be provided to the supervisor:

- Full name of employee (including middle name)
- Date of birth
- Date of suspected or confirmed COVID-19 exposure
- List of illness signs and symptoms, if applicable
- Date of COVID-19 test, if applicable
- Date signs and symptoms started, if applicable
- Name of licensed healthcare provider (optional)
- Location of COVID-19 test (optional)
- Last day at school/site

The supervisor will enter the information into the Employee COVID-19 illness tracking database^{xv} and may not disclose this information to any other person. This information is submitted electronically to the Risk Management Department and shared with the Health Services Department. Additional guidance for how to enter the information can be found at <http://ccsd.net/departments/risk-management/covid-19-information>.

Additionally, the supervisor will notify the region superintendent via email and the Communications Department via communications@nv.ccsd.net or (702) 799-5304 of a possible COVID-19 exposure or case positive. The supervisor will collaborate with the region superintendent and the Communications Department to disseminate information to the school community. *No information will be disseminated until clearance is provided by the region superintendent and the Communications Department.*

Note: Employers shall not require a COVID-19 test result or a healthcare provider's note for employees who are sick to validate their illness, qualify for sick leave, or return to work. However, if an employee wishes to provide a document or email from the SNHD approving the employee to return to work, that is acceptable.

Verification and Contact Tracing

The Health Services Department will work with the SNHD to verify exposure. If exposure to other employees is possible, the supervisor will provide a list of prolonged contacts (persons within six feet for 15 cumulative minutes of exposure over a 24-hour period).

If someone has close contact with someone known to have COVID-19 but developed COVID-19 within the previous three months (result on file) and has recovered and remains without COVID-19 symptoms, they do not need to stay at home.

Telecommuting or Leave

If the employee has been in close contact (within six feet for 15 cumulative minutes of exposure over a 24-hour period) with a person known to have COVID-19:

- Employee will remain at home in self-quarantine or seek medical attention, if necessary.
- Supervisor will encourage the employee to contact their licensed health care provider for guidance.
- Supervisor may authorize the employee to work from home if the employee is asymptomatic (no symptoms) or symptomatic and able to work from home.
- If symptomatic, and unable to work from home, the employee may request up to ten days of COVID-19 Emergency Paid Sick Leave at 100 percent rate of pay. The site administrator may enter this leave type on the employee's behalf^{xvi}.

- If the employee needs additional time, the employee may request sick leave in HCM.
- If the employee does not have sick leave or exhausts available sick leave, the employee may contact the Family Medical Leave Act (FMLA) Office.

If the employee has been caring for a household member with COVID-19:

- Employee will remain at home in self-quarantine.
- Supervisor may authorize the employee to work from home, depending upon job duties.
- If unable to work from home, the employee may request up to ten days of COVID-19 Emergency Paid Sick Leave at two-thirds rate of pay for a COVID-19 qualifying event involving caring for a family member/individual.
- The employee may supplement their pay with available leave.
 - The site administrator may enter this leave type on the employee's behalf using the COVID-19 Time/Attendance Guide at <https://bit.ly/3jscGxC>.
 - If the employee needs additional time, the employee may request sick leave in HCM.
 - If the employee does not have sick leave or exhausts available sick leave, the employee may contact the FMLA Office.

If the employee has COVID-19 symptoms or has received a positive COVID-19 lab test result:

- Employee will remain at home in isolation or seek medical attention, if necessary.
- Supervisor will encourage the employee to contact their licensed health care provider for guidance.
- Supervisor may authorize the employee to work from home if the employee is asymptomatic (no symptoms) or symptomatic and able to work from home.
- If symptomatic and unable to work from home, the employee may request COVID-19 Emergency Paid Sick Leave at 100 percent rate of pay.
 - The site administrator may enter this leave type on the employee's behalf using the COVID-19 Time/Attendance Guide at <https://bit.ly/3jscGxC>.
 - If the employee needs additional time, the employee may request sick leave in HCM.
 - If the employee does not have sick leave or exhausts available sick leave, the employee may contact the FMLA Office.

Determining When an Employee May Return to Work

A questionnaire to assist supervisors in determining when an employee can return to work is available. The supervising site administrator is responsible for completing the form and submitting this questionnaire electronically to the Risk Management Department.

Symptomatic employees may return to work:

- If tested and the test is negative for COVID-19, once symptoms improve and negative test results are provided.
OR
- If not tested but the employee has symptom(s), after at least ten days have passed since symptoms first appeared, fever-free for 24 hours, and improvement of symptoms.

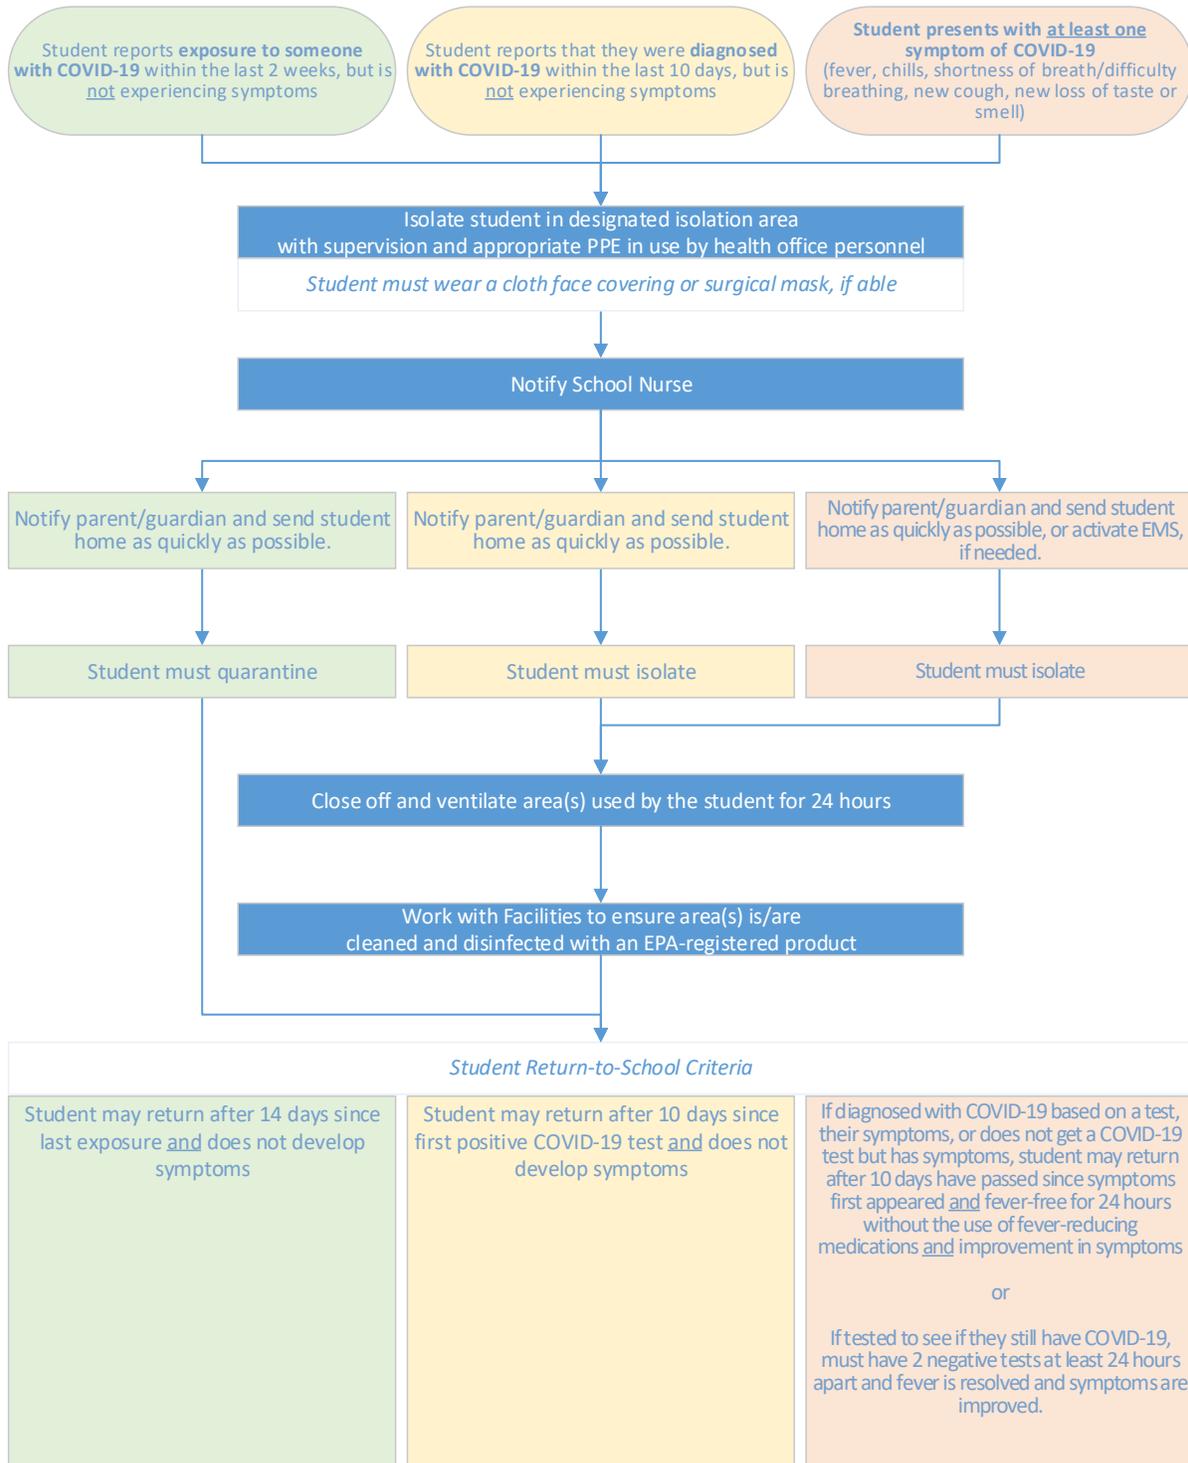

Employees caring for a household member with a positive test or close contact exposure to someone with COVID-19 may return to work after:

- Fourteen days since last close contact (a negative test does not allow an earlier return).
AND
- If the employee does not develop symptoms.

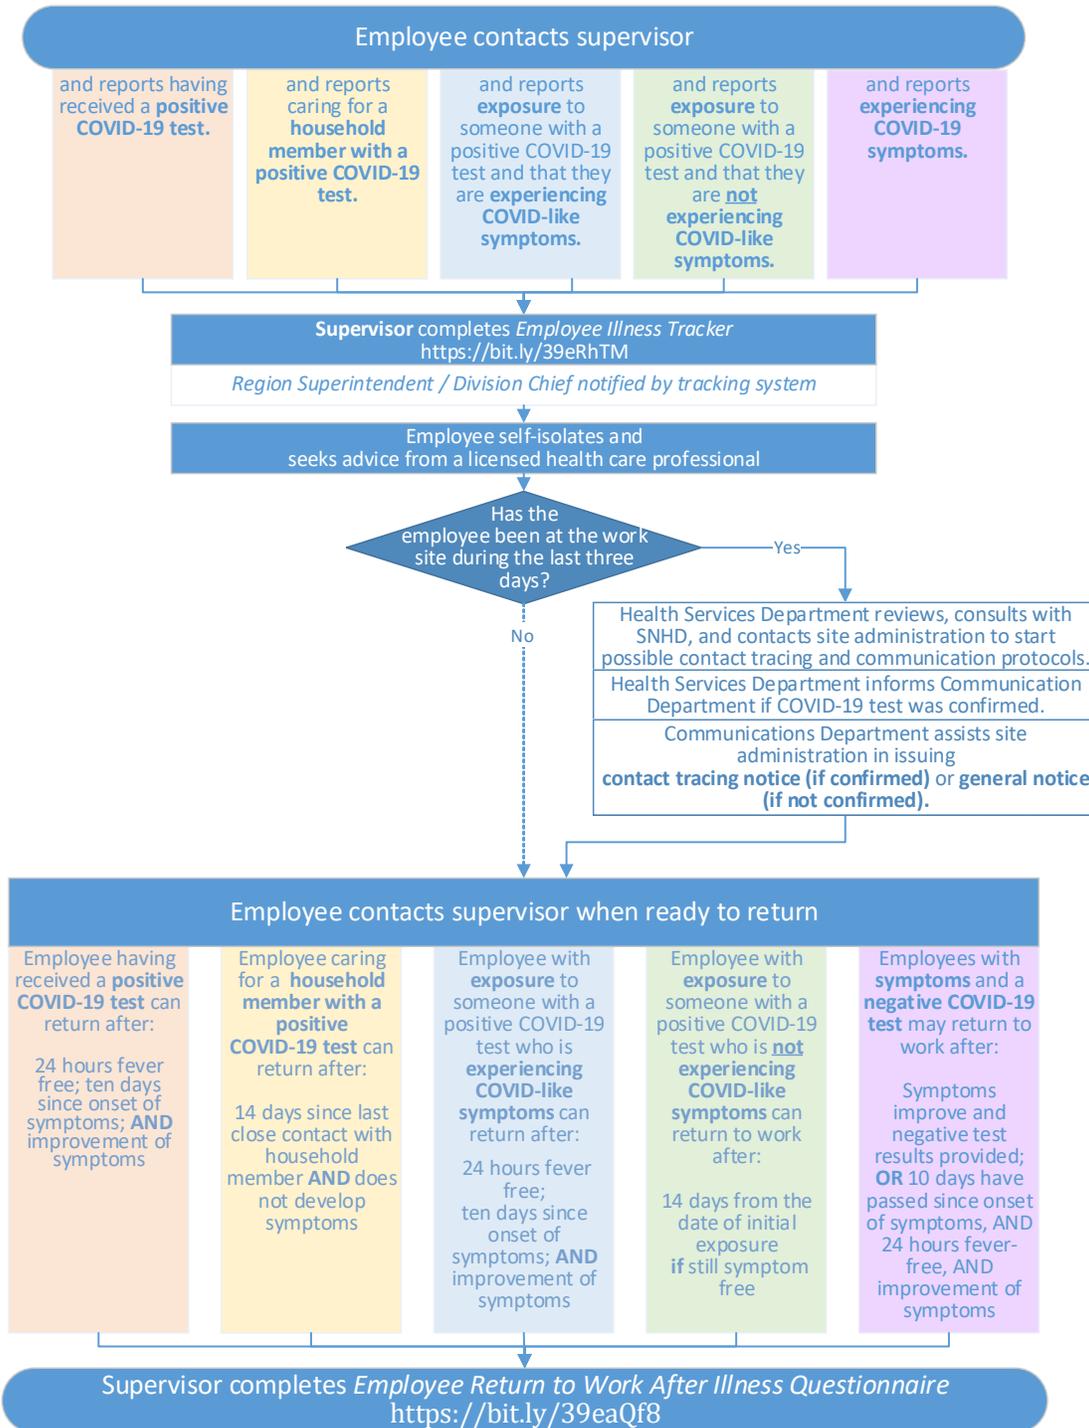

Employees with positive COVID-19 lab results may return to work after:

- No fever over 100.4°F for at least 24 hours.
AND
- Is beyond ten full calendar days since onset of symptoms.
AND
- Improvement of symptoms.

Student COVID-19 Exposure Notification Workflow

Employee COVID-19 Exposure Notification Workflow

4. FACILITY PREPARATION AND MAINTENANCE

Sanitation and Cleaning

Sanitation and Cleaning for Student and Staff Equipment Sharing

The head custodian/building manager will disinfect all staff equipment, including but not limited to, front office phones, front office computers, copy machines, refrigerators, microwaves, coffee makers, and all staff workroom equipment, twice daily. The head custodian/building manager will assign the custodial night crew tasks, using the Daily Service Record (DSR) with disinfecting procedures for all, including but not limited to, classroom computer keyboards and mice, phones, printers, copy machines, door handles, light switches, tables, countertops, handles, and sinks inside the classrooms. Drinking fountains located in the classrooms, outside, and in other areas of the school will not be used. Custodial staff will have all supplies necessary for these cleaning efforts. If workstations are used in career and technical education (CTE) classrooms and labs, the workstations will need to be disinfected between groups of students by the teachers.

Door hangers (pictured right) will be posted on the door of each room that has been disinfected. Each time the room is disinfected, the custodial staff will update the date and time, providing a quick visual reference for all staff and students.

Daily Custodial Facilities Cleaning

In an effort to maintain a safe and clean learning environment for students and staff, under the direction of head custodians/building managers, custodial personnel shall perform the following disinfectant light duty activities in each classroom and common area throughout the facility daily.

To properly disinfect surfaces, each product listed below must be applied following the label instructions and the surface must remain wet for the appropriate contact time (“dwell time”) specified in the instructions prior to wiping down the surface.

DISINFECTED / DESINFECTADO

Date / Fecha: _____

Time / Hora: _____

By / Por: _____

DISINFECTING COMMON AREAS
 Frequency: twice during day shift and once during night shift.
 Hallways/Main office/Multipurpose room/Media center and other non-classroom areas.

- Disinfect ALL high touch surfaces
 - Light switches
 - Door knobs/handles
 - Door push bars/windows
 - Phones
 - Keyboards/mice
 - Printers/fax machines
 - Copy machines
 - Counter tops/tables
 - Vending machines
 - Sinks/drinking fountains
 - All staff workroom equipment

DISINFECTING RESTROOMS
 Frequency: twice during day shift and once during night shift.
 Individual classroom restrooms/group restrooms.

- Clean & Disinfect
 - Toilets and Urinals
 - Sweep and mop floors
 - Sinks
 - All Touch surfaces
- Check for fullness - fill if empty
 - Soap dispensers
 - Toilet paper
 - Paper towels
 - Sanitary dispensers
- Empty Trash cans and bins

Chemical Product – SDS Name	Concentration	Application
PortionPac® Germicidal Cleaner 264 Dwell Time: 5 minutes	16 oz Hospital Grade Spray Bottle	Touch surfaces including: Door handles Light switches Sinks Computer keyboards and mice Trash cans Desks and chairs All restroom surfaces including: Walls Mirrors Sinks Toilet paper/paper towel dispensers Toilet partitions Door handles Light switches
PortionPac® Germicidal Cleaner 264 Dwell Time: 5 minutes	64 oz Pump Stock Solution Bottle Concentration	Toilets and urinals
PortionPac® Germicidal Cleaner 202 Dwell Time: 5 minutes	2 gal. Mop Bucket	Restroom floors
Virex® Tb Ready-to-Use Disinfectant Cleaner Dwell Time: 2 minutes	32 oz Spray Bottle	All restroom surfaces including: Walls Mirrors Sinks Toilet paper/paper towel dispensers Toilet partitions Door handles Light switches

Current chemical supply inventory levels are maintained and can be viewed in the head custodian/building manager's office. The head custodian/building manager may order additional supplies through the Brady Industries catalog. Only order supplies sufficient for the needs of the school so other schools may also obtain supplies.

In addition to regular custodial cleaning, each classroom will be supplied with a bottle of Germicidal cleaner for general staff use. This bottle will be prepared by the custodian to ensure proper chemical portions. Training materials will be provided to staff for proper product utilization.

- All custodians were provided with a job card with instructions including a sample schedule to clean and disinfect schools/sites properly.

- All custodians will be given a door hanger to place on all doors in the school/site to show when and what time and by whom the space was disinfected.
- Schools have been provided with an informational video showing directions on how to disinfect a classroom using the approved Germicidal detergent 16 oz spray bottle.
- Schools have been provided with hand sanitizer wipes for the classrooms.
- All schools/sites have adequate amounts of paper towels, cleaning towels, Germicidal detergent, VirexTB, gloves, goggles, hand sanitizer, sanitizing wipes, and masks for proper cleaning and disinfecting. Additional supplies can be ordered from Brady Industries via SAP.

Custodial Cleaning Definitions

Daily Cleaning

- ***Light Duty Cleaning***
Empty trash and replace liner, if necessary. Clean and disinfect any sinks and spot clean door, door glass, and switch plates with prepared PortionPac Germicidal Detergent 16 oz spray bottle. Pick up large papers, pencils, crayons, paper clips, and other small objects for the vacuum specialist. Empty pencil sharpener(s) and dust all horizontal surfaces with a woolly duster.
- ***Vacuum Cleaning***
Vacuum all traffic areas and spot vacuum all visible dirt. Vacuum under trash cans and ensure that the trash can has been emptied. Secure the room when finished.
- ***Restroom Cleaning***
Flush toilets and urinals, and then dispense one pump of PortionPac 64 oz Stock Solution Germicidal Detergent into each urinal and toilet. Refill all dispensers, detail dust all horizontal surfaces with a woolly duster, and detail sweep floor. Remove trash and replace liner. Spray 16 oz PortionPac Germicidal Detergent and wipe mirrors, sinks, bright work, doors, switch plates, soap dispensers, paper towel dispensers, toilet paper dispensers, female napkin dispensers, railings, partitions, and walls. Scrub urinals and toilets with a bowl brush and check for hard water deposits. If hard water deposits are present, use approved acid for urinals and toilets and approved acid for sinks and bright work. Disinfect floor with PortionPac Germicidal Detergent 202 Mopping Solution.

Enhanced Cleaning

- Includes daily light duty, vacuum, and restroom cleaning, in addition will also include the use of VirexTB to spray and wipe all touch surfaces (doors, switch plates, computer keyboards, mice, phones, copy machines, desks, counters, chairs, sinks, soap dispensers, paper towel dispensers, etc.) in the entire school with the dwell time of two minutes.
- Complete disinfection of the nurse's office using VirexTB with the dwell time of two minutes.
- Spot clean all carpets via carpet extraction.

Disinfecting Cleaning

Only when a positive confirmed COVID-19 case is submitted by the SNHD to the Risk and Environmental Services Department will this process take place.

- A FAMIS work order will be submitted and the Operations Disinfecting Cleaning Crew will be dispatched to the site to apply a Clorox360 Electrostatic Sprayer with the Clorox Disinfectant Cleaner throughout the entire site.
- The Operations Disinfecting Cleaning Crew will be suited in the appropriate PPE, including a hooded disposable coverall, gloves, goggles, and a disposable mask.

Confirmed Positive COVID-19 Custodial Facilities Cleaning and Enhanced Cleaning

In the case the SNHD confirms a positive COVID-19 event directly affecting a school, the Risk Management Department will be notified by the SNHD, and the Facilities Services Unit will initiate a deep clean protocol for that campus in compliance with CDC recommendations^{xvii}.

In order to properly disinfect surfaces, each product listed below must be applied following the label instructions and the surface must remain wet for the appropriate contact time specified in the instructions prior to wiping down the surface.

Chemical Product	Concentration	Application
Clorox® Total 360® System - Electrostatic Sprayer Dwell Time: 2 minutes	Total 360® Disinfectant Cleaner (128 fl. oz)	Entire school All touch surfaces
Virex® Tb Ready-to-Use Disinfectant Cleaner Dwell Time: 2 minutes	32 oz Spray Bottle	All touch surfaces including: Door handles Light switches Sinks Computer keyboards and mouse Trash cans Desks and chairs All restroom surfaces including: Walls Mirrors Sinks Toilet paper/paper towel dispensers Toilet partitions Door handles Light switches

Custodial staff will not require additional training unless the site procures a Clorox 360 machine, which would come with training provided by Brady Industries.

The night crew will be cleaning and disinfecting the restrooms once at night, leaving the head custodian/building manager to clean all touch surfaces in the restrooms twice a day.

Custodial Cleaning Schedule to Include Enhanced Cleaning

Monday, Tuesday, and Thursday: Light Duty Cleaning

Custodians will follow the written daily cleaning schedule within a normal shift:

- Empty trash and replace liner, if necessary. Clean and disinfect any sinks and spot clean door, door glass, and switch plates with prepared 16 oz PortionPac Germicidal Detergent. Pick up large papers, pencils, crayons, paper clips, etc., for the vacuum specialist. Empty pencil sharpener(s) and dust all horizontal surfaces with a woolly duster.

- **Vacuum Cleaning**

Vacuum all traffic areas and spot vacuum all visible dirt. Vacuum under trash cans and ensure that the trash can has been emptied. Secure room when finished.

- **Restroom Cleaning**

Flush toilets and urinals, and then dispense one pump of PortionPac 64 oz Stock Solution Germicidal Detergent into each urinal and toilet. Refill all dispensers, detail dust all horizontal surfaces with a woolly duster, and detail sweep floor. Remove trash and replace liner. Spray PortionPac 16 oz Germicidal Detergent and wipe mirrors, sinks, bright work, doors, switch plates, soap dispensers, paper towel dispensers, toilet paper dispensers, female napkin dispensers, railings, partitions, and walls. Scrub urinals and toilets with a bowl brush and check for hard water deposits. If hard water deposits are present, use approved acid for urinals and toilets and approved acid for sinks and bright work. Disinfect floor with PortionPac Germicidal Detergent 202 Mopping Solution.

COVID Day Custodian Daily Tasks
(These tasks are in addition to your normal duties)

RESTROOMS -
Frequency: twice during day shift and once during night shift.
-Individual (classroom restrooms), group restrooms

1. Clean & disinfect

- Toilet
- Sweep and mop floor
- Sinks
- All Touch surfaces

2. Check for fullness - fill if empty

- Soap dispensers
- Toilet paper
- Paper towels
- Sanitary dispensers

3. Empty Trash cans and change liners

COMMON AREAS -
Frequency: twice during day shift and once during night shift.
- Hallways/Main office/Multipurpose room/Media center and other non-classroom areas.

1. Disinfect **ALL** high touch surfaces

- Light switches
- Door knobs/handles
- Door push bars/windows
- Phones
- Keyboards/mice
- Printers/fax machines
- Copy machines
- Counter tops/tables
- Vending machines
- Sinks/drinking fountains
- All staff workroom equipment

DAY CUSTODIAN To Do SCHEDULE
This is intended to be a Guide, times may vary

SUGGESTED TIME FRAME	TASK TO COMPLETE
7:00 am - 8:30 am	Open building (exterior) Unlock all outside doors Blow off all entrances and clean exterior mats Pick up debris from entire campus Open all classroom doors Raise U.S. and State Flags
8:30 am - 9:00 am	Begin COVID additional duties Disinfect staff, student restrooms and staff lounge(s) Disinfect ALL high touch surfaces
9:00 am - 9:15 am	BREAK
9:15 am - 9:45 am	Continue COVID additional duties
9:45 am - 11:00 am	Sweep/mop/vacuum hallways, stairwells & gym floor Put away stock, if applicable Complete CBOR, Daily inventory, etc and any necessary paperwork Perform any tasks requested by Administration Complete any minor maintenance repairs and work orders
11:00 am - 11:30 am	LUNCH
11:30 am - 1:00 pm	Collect lunch trash from classrooms, replace liners Sweep/mop/vacuum hallways, stairwells & gym floor
1:00 pm - 1:15 pm	BREAK
1:15 pm - 2:15 pm	Continue COVID additional duties Disinfect staff, student restrooms and lounge(s) Disinfect ALL high touch surfaces
2:15 pm - 3:00 pm	Cafeteria - Clean and break down tables for evening cleaning staff, if applicable Remove any graffiti found Elementary - Disinfect playground high touch areas, if applicable
3:00 pm - 3:30 pm	Secure gates Meet with night custodians

Wednesday: Enhanced Cleaning Schedule

As there are no students on campus, light duty, vacuum, and restroom cleaning should be minimal, leaving extra time for enhanced cleaning and utility cleaning.

- Includes daily light duty, vacuum, and restroom cleaning and the use of VirexTB to spray and wipe all touch surfaces (doors, door glass, switch plates, computer keyboards, mice, phones, copy machines, desks, counters, chairs, sinks, soap dispensers, paper towel dispensers, etc.) in the entire school with the dwell time of two minutes.
- Complete disinfection of the nurse’s office using VirexTB with the dwell time of two minutes.
- Spot clean all carpets via carpet extraction.

Friday: Enhanced Cleaning Schedule

- Includes daily light duty, vacuum, and restroom cleaning and also includes the use of VirexTB to spray and wipe all touch surfaces (doors, door glass, switch plates, computer keyboards, mice, phones, copy machines, desks, counters, chairs, sinks, soap dispensers, paper towel dispensers, etc.) in the entire school with the dwell time of two minutes.
- Complete disinfection of the nurse’s office using VirexTB with the dwell time of two minutes.

Head Custodian and Building Manager Cleaning Schedule to Include Enhanced Cleaning

Monday, Tuesday, and Thursday

- Open facility; unlock gates; raise flags; unlock assigned doors; and check for graffiti, vandalism, or hazards.
- Check custodial assignments for proper work performance.
- Sweep sidewalks, monitor parking lot, shrub beds, curbs, and fence lines as needed.
- Prior to the arrival of students, clean the primary, intermediate, and Kindergarten playground with a germicide detergent. Items to be cleaned include all high touch surfaces, such as railings and handles.
- Vacuum hallways, if applicable.
- Clean, sanitize, and disinfect outside drinking fountains throughout the facility using the Germicidal Detergent 16 oz spray bottle, if applicable.
- Set up for breakfast, if applicable.
- Spray and wipe the entire school touch surfaces outside of the classrooms using the Germicidal Detergent 16 oz spray bottle (e.g., front office doors, door glass, counters, common area keyboards and mice, chairs, staff restrooms, hallways, windows, sinks, student restrooms, etc.).
- Spot clean walls, doors, pillars, posts, and windows using the Germicidal Detergent 16 oz spray bottle as needed.
- Spot mop sidewalks as needed.
- Monitor and restock restrooms several times during the day.
- Meet with the principal about special needs, general concerns, etc.
- Ensure lawns, shrubs, and greenery are properly watered and cared for.
- Clean multipurpose room from breakfast and set up for lunch including table sanitizer, mops, water, and cleaning tools, if applicable.
- Monitor school grounds and fence lines and pick up debris.

- Clean all door glass in the office and halls daily using the Germicidal Detergent 16 oz spray bottle.
- Complete daily inventory and fill distribution trays with proper chemicals for night custodians.
- Monitor lunchroom, cleanup spills, and empty full trash cans, if applicable.
- Clean multipurpose room. Clean the tables, pick up trash, and empty and wash trash cans. Sweep and mop floor, including kitchen, daily using 1802, PortionPac Neutral Cleaner. Change water often.
- Complete teacher concerns, requests, and assist putting supplies in appropriate storage.
- Ensure the general appearance and upkeep of the facility is maintained.
 - Submit, file, and monitor work orders.
 - Work with the Maintenance Department to ensure items are repaired and serviced.
 - Monitor all workmen on campus. Monitor progress of work.
- Assume responsibility for quality and quantity of work of custodial staff.
- Monitor and evaluate performance of custodial staff and provide assistance where needed.
- Provide continuous training for all custodial staff.
- Conduct written inspections of all custodial work assignments.
- Order, maintain, and control supplies. Maintain an accurate inventory.
- Keep the site administrator informed of concerns and potential problems.
- Ensure special functions are set up and cleaned up.
- Post and maintain complete records and charts:
 - Location of fire protection items, alarms, extinguishers, etc.
 - Location of electrical panels and master switches.
 - Location of fire sprinkler and water shut-off valves.
- Maintain proper and correct time of all custodial staff for payroll purposes.
- Maintain and file proper and correct employee information sheets and records.
- Complete a written inspection of the work of each custodian, with appropriate discussions and signatures and make them available to the assigned operations manager and custodial supervisor.

Early Childhood Sanitation

Instructions are provided to schools for daily cleaning and sanitizing tables, toys, eating surfaces, and desks:

Please remember to “WASH, RINSE, and SANITIZE!”

- Use a clean towel and spray and wipe the surface with the PortionPac All Purpose Degreaser Cleaner (32 oz spray bottle - #102).
- Use a separate clean towel with WATER ONLY to rinse the washed surface.
- Use another clean towel and spray and wipe the surface with the ClearPac Sanitizer 32 oz spray bottle (#CP1617) and allow to dry.

Instructions for daily disinfecting door handles, touch surfaces, chairs, restroom floors, sinks, toilets, and urinals:

- Use a clean towel and spray and wipe the surface with the Germicidal Detergent 16 oz spray bottle.

In order to properly disinfect surfaces, each product must be applied following the label instructions and the surface must remain wet for the appropriate contact time specified in the instructions prior to wiping down the surface.

Providing for Social Distancing

Guidelines for the layout of classroom space and non-classroom space (lobbies, hallways, school offices, restrooms, etc.).

In order to accommodate recommended social distancing guidelines, the number of students and staff in any one space at any given time will need to be reduced. Below are guidelines for the maximum number of occupants, as well as suggested room layout and strategies for using spaces.

Student Capacity Ratios

Room Type	Code Capacity Per 2015 International Building Code	Pre-COVID-19 Programmed Capacity	COVID-19 Reduced Capacity
Kindergarten	20 sq ft per Student	21:1 Pupil / Student Ratio or 57 sq ft per Student	50 sq ft per Student
1st-2nd	20 sq ft per Student	16:1 Pupil / Student Ratio 56 sq ft per Student	50 sq ft per Student
3rd	20 sq ft per Student	19:1 Pupil / Student Ratio 47 sq ft per Student	50 sq ft per Student
4th-5th	20 sq ft per Student	30:1 Pupil / Student Ratio 30 sq ft per Student	50 sq ft per Student
Library	50 sq ft Reading Areas 100 sq ft Book Stacks	ED Specs has no guidelines for capacity	50 sq ft per Student
Multipurpose Room	15 sq ft per Student	ED Specs has no guidelines for capacity	50 sq ft per Student or ½ of the code occupancy with a max of 250 Students whichever is less
Middle School Classrooms	20 sq ft per Student	30:1 Pupil / Student Ratio 30 sq ft per Student	50 sq ft per Student
Gymnasium	15 sq ft per Student	ED Specs has no guidelines for capacity	50 sq ft per Student or ½ of the code occupancy with a max of 250 Students whichever is less
Library	50 sq ft Reading Areas 100 sq ft Book Stacks	ED Specs has no guidelines for capacity	50 sq ft per Student
Labs	50 sq ft per Student	30:1 Pupil / Student Ratio 30 sq ft per Student	50 sq ft per Student
High Schools Classrooms	20 sq ft per Student	30:1 Pupil / Student Ratio 30 sq ft per Student	50 sq ft per Student
Library	50 sq ft Reading Areas 100 sq ft Book Stacks	ED Specs has no guidelines for capacity	50 sq ft per Student
Labs	50 sq ft per Student	30:1 Pupil / Student Ratio 30 sq ft per Student	50 sq ft per Student

Student Capacities per Classroom Type

Room Type and Square Footage	Code Capacity	Pre-COVID-19 Capacity	COVID-19 reduced capacity
Kindergarten 1,200 sq ft	60 Students	42 Students**	24 Students
1st-2nd 900 sq ft	45 Students	16 Students	18 Students*
3rd 900 sq ft	45 Students	19 Students	18 Students
4th-5th 900 sq ft	45 Students	30 Students	18 Students
Library 2,430 sq ft	48 Students	48 Students	24 Students
Multipurpose Room 5,000 sq ft	333 Students	333 Students	166 Students
Middle School 900 sq ft	45 Students	30 Students	18 Students
Middle School Gymnasium 12,380 sq ft	825 Students	825 Students	247 Students***
Middle School Library 6,520 sq ft	130 Students	130 Students	65 Students
Middle School Labs 900 sq ft	45 Students	30 Students	18 Students
High Schools 900 sq ft	45 Students	30 Students	18 Students
High School Gymnasium 24,653 sq ft	1,643 Students	1,643 Students	250 Students***
High School Library 8,100 sq ft	162 Students	162 Students	81 Students
Labs 900 sq ft	45 Students	30 Students	18 Students

*While the reduced capacity exceeds the programmed capacity, we recommend no more than 16 students in first- and second-grade classrooms.

**The 1,200 sq ft rooms are designed to be divided into two 600 sq ft classrooms in the future, if needed for capacity.

***According to recent guidance, groups are limited to 250 people.

1. Room square footage is based on education specifications used during the 2015 Capital Improvement Program.
2. Each school and each room may differ. Calculations need to be performed for each room by the school administration.

Example: Classroom measures 30'-0" x 30'-0" for a total of 900 sq ft. 900 sq ft divided by 50 sq ft per student equals an 18-student capacity and one instructor for this classroom.

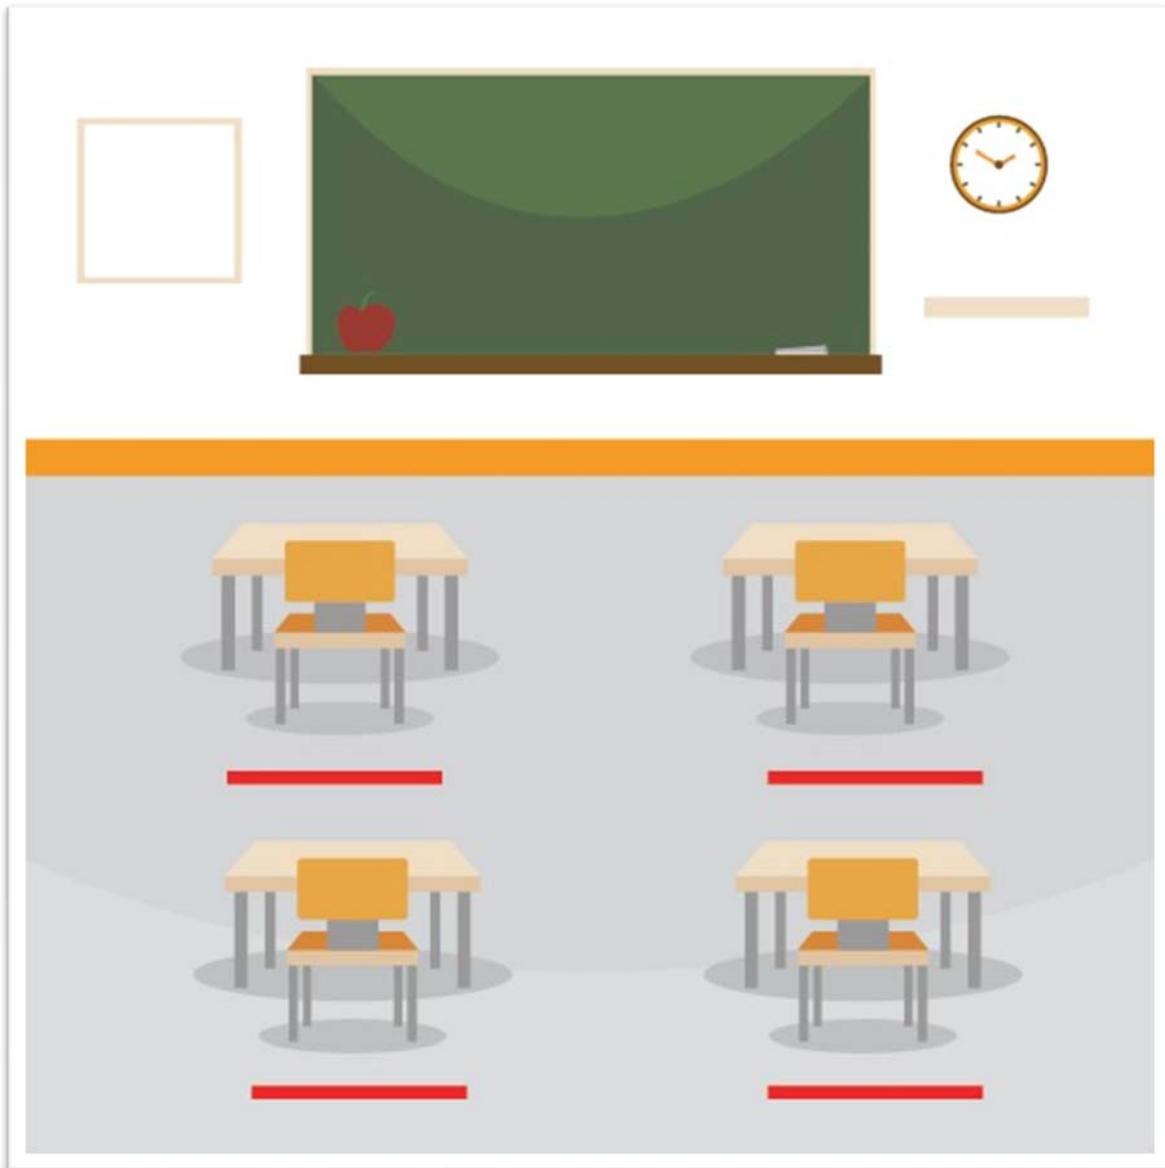

Example: Classroom measures 20'-0" x 30'-0" for a total of 600 sq ft. 600 sq ft divided by 50 sq ft per student equals a 12-student capacity and one instructor for this classroom.

3. Calculations assume one instructor per classroom, if more instructors or adult aides are required, students would need to be reduced on a 1:1 ratio.
4. Adding and removing classroom dividing walls changes the capacity of a room; this needs to be considered by school administration prior to requesting changes.

Layout of Classroom Spaces

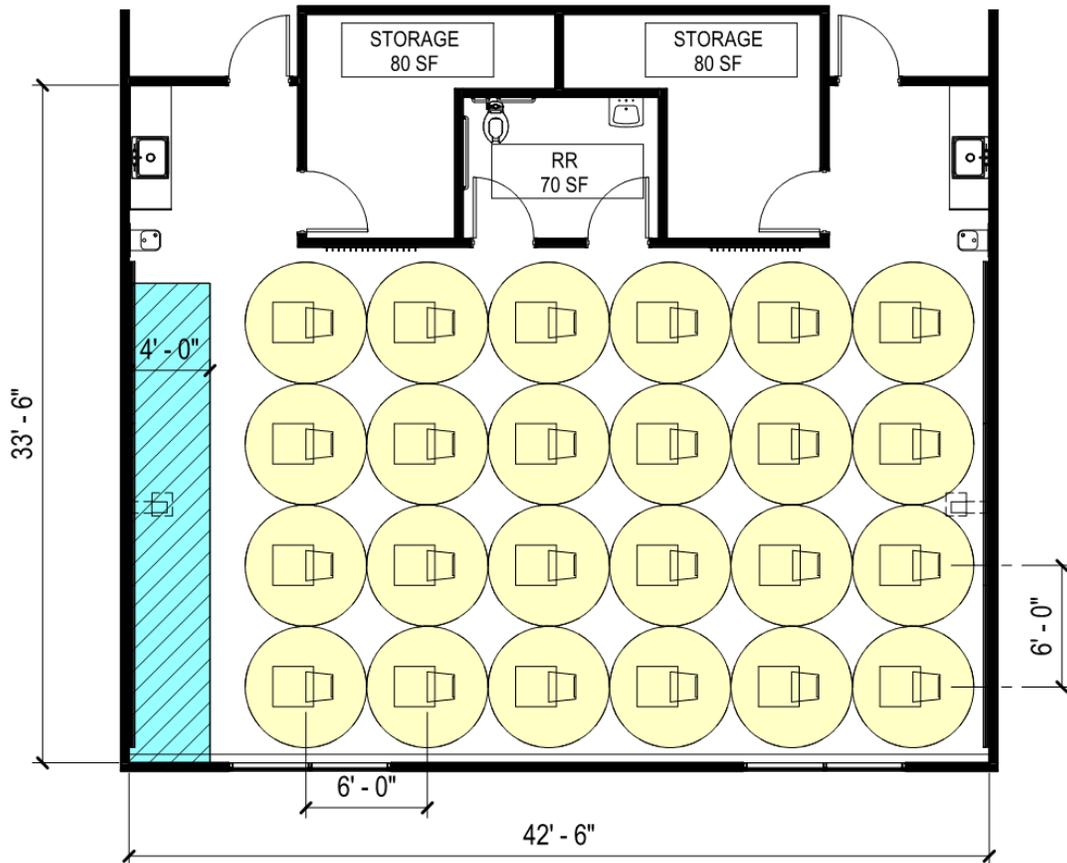

Floor plans for each school building prototype have been developed to determine occupancy. Schools may request floor plans from operations managers.

School administration should place tape on the floor as a visual cue to help maintain required distancing.

Below is an example layout of a 1,200 sq ft single Kindergarten classroom. Each of the circles are six feet in diameter with a single desk in the middle. The diagram shows a total of 24 desks in the space, it is not recommended that we exceed the 21:1 pre-COVID-19 student-to-teacher ratio.

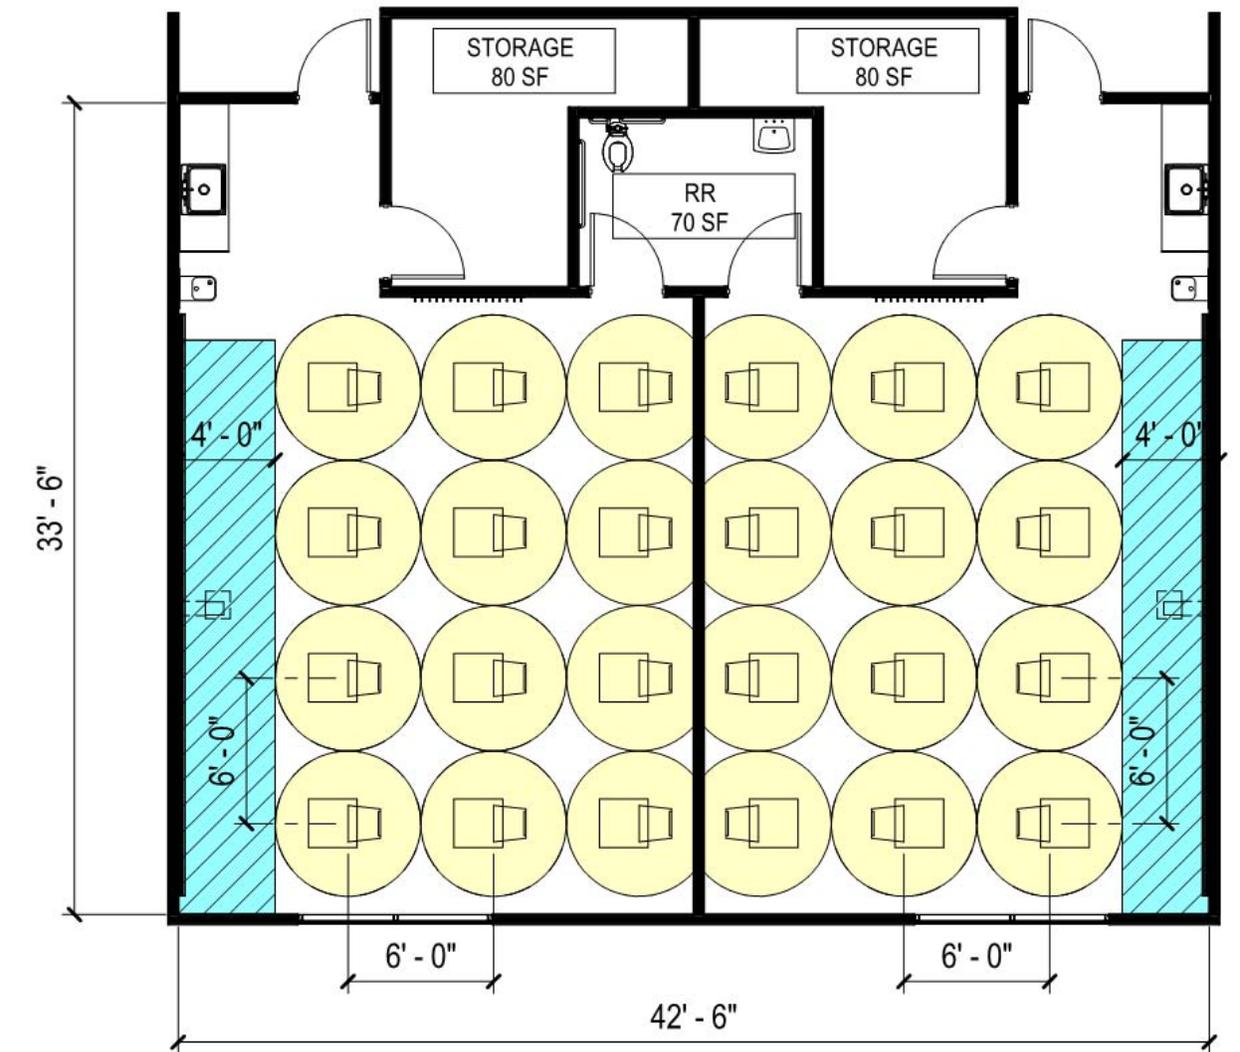

The layout below utilizes individual desks with the understanding that very often group tables are utilized at this grade level. The group tables will need to be utilized as individual desks in order to maintain social distancing, if smaller desks are not available. Face all desks/tables in the same direction. Have students sit on only one side of the table. Site administrators shall place tape on the floor as a visual cue to help maintain required distancing.

1,200 sq ft Kindergarten Classroom
24 Students and 1 Teacher

Below is an example layout of a 1,200 sq ft Kindergarten classroom split in half (600 sq ft on each side) each of the circles are six feet in diameter with a single desk in the middle. The diagram shows a total of 12 desks per side in the space.

The layout below utilizes individual desks with the understanding that very often group tables are utilized at this grade level. The group tables will need to be utilized as individual desks in order to maintain social distancing, if smaller desks are not available.

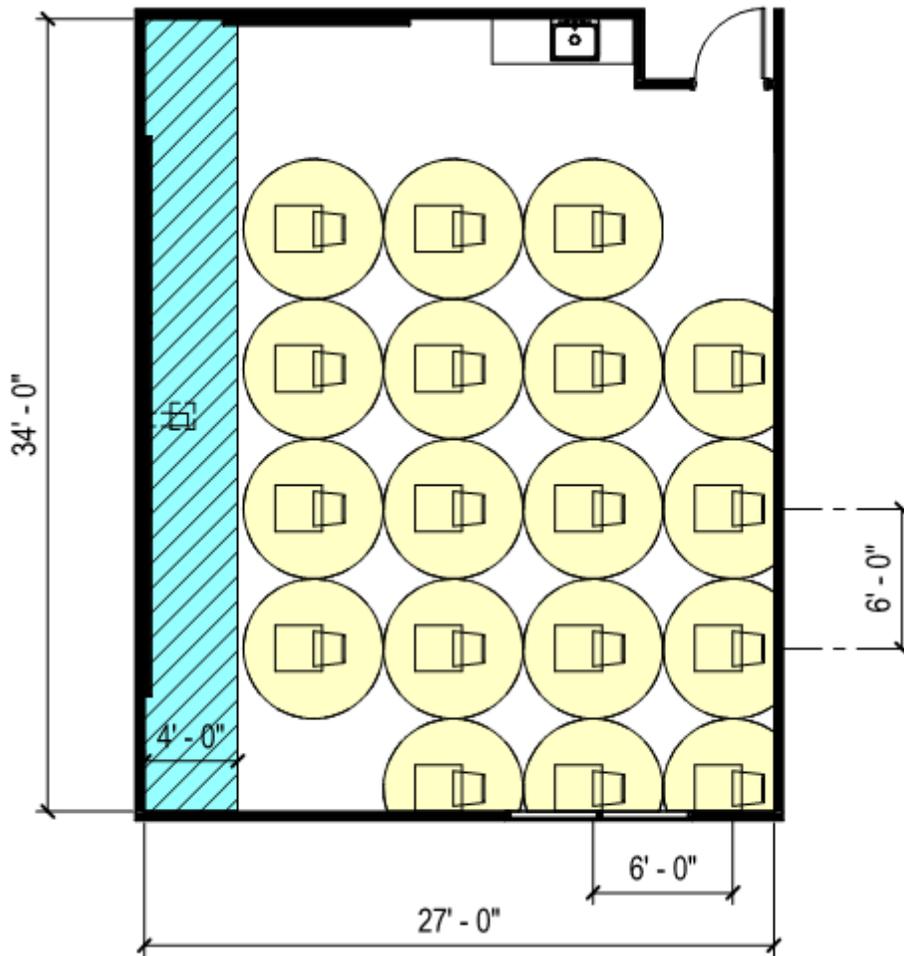

1,200 sq ft Split Kindergarten Classroom

12 Students and 1 Teacher per 600 sq ft Side

Below is an example layout of a 900 sq ft classroom. Each of the circles are six feet in diameter with a single desk in the middle.

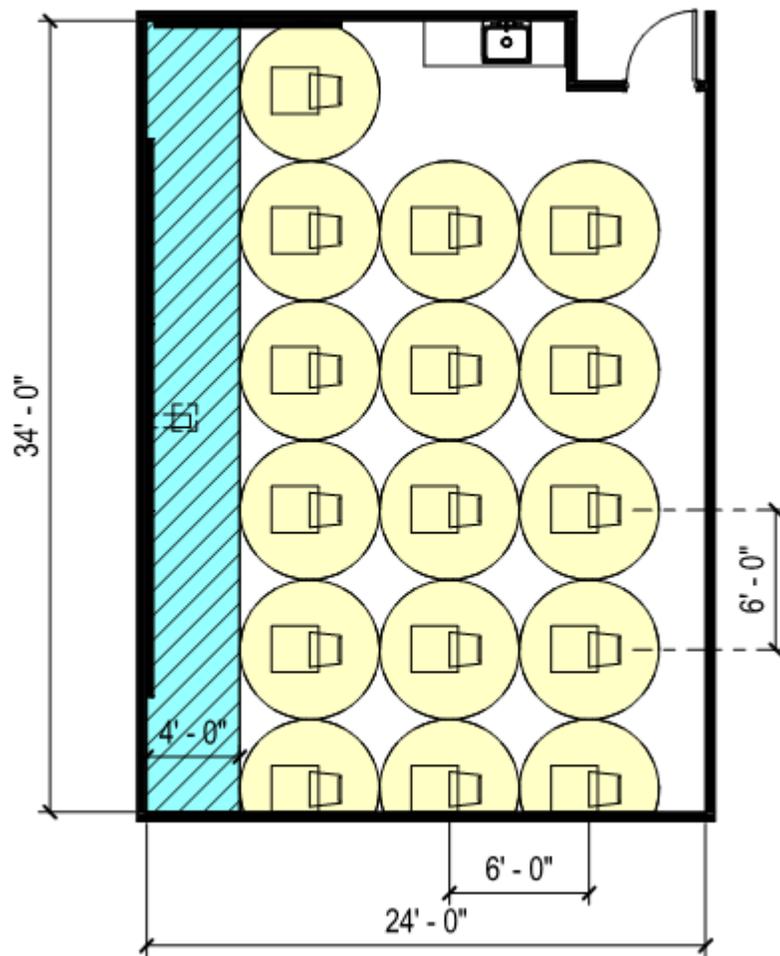

The layout below utilizes individual desks with the understanding that very often group tables are utilized in Grades 1-3. The group tables will need to be utilized as individual desks in order to maintain social distancing, if smaller desks are not available.

900 sq ft Classroom
18 Students and 1 Teacher

Below is an example layout of an 800 sq ft classroom. Each of the circles are six feet in diameter with a single desk in the middle.

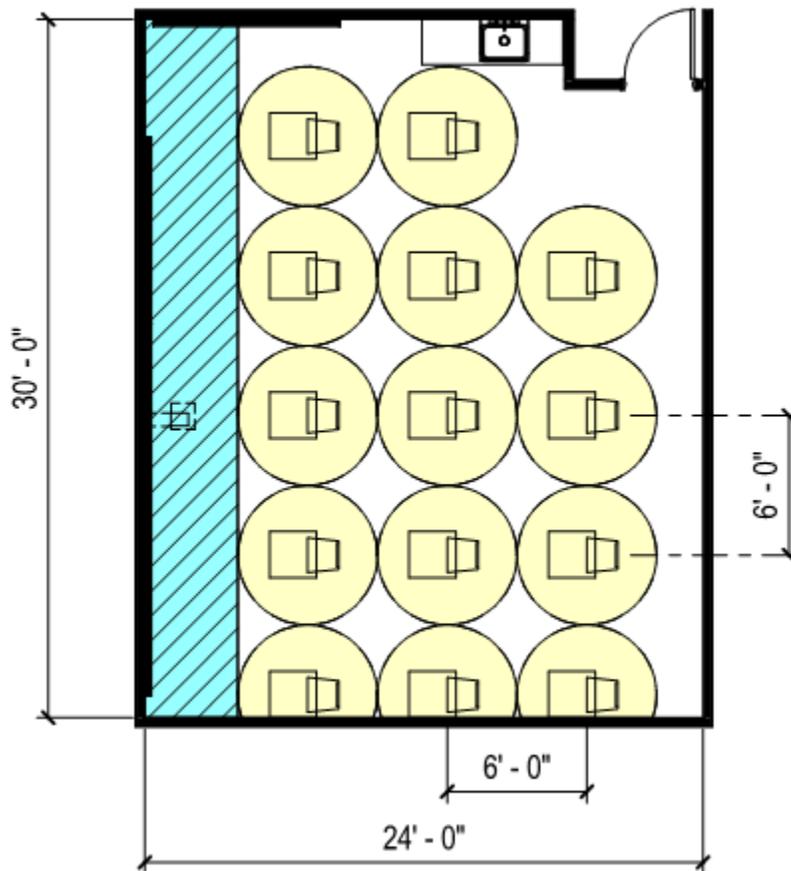

The layout below utilizes individual desks with the understanding that very often group tables are utilized in Grades 1-3. The group tables will need to be utilized as individual desks in order to maintain social distancing, if smaller desks are not available.

800 sq ft Classroom
16 Students and 1 Teacher

Below is an example layout of a 700 sq ft classroom. Each of the circles are six feet in diameter with a single desk in the middle.

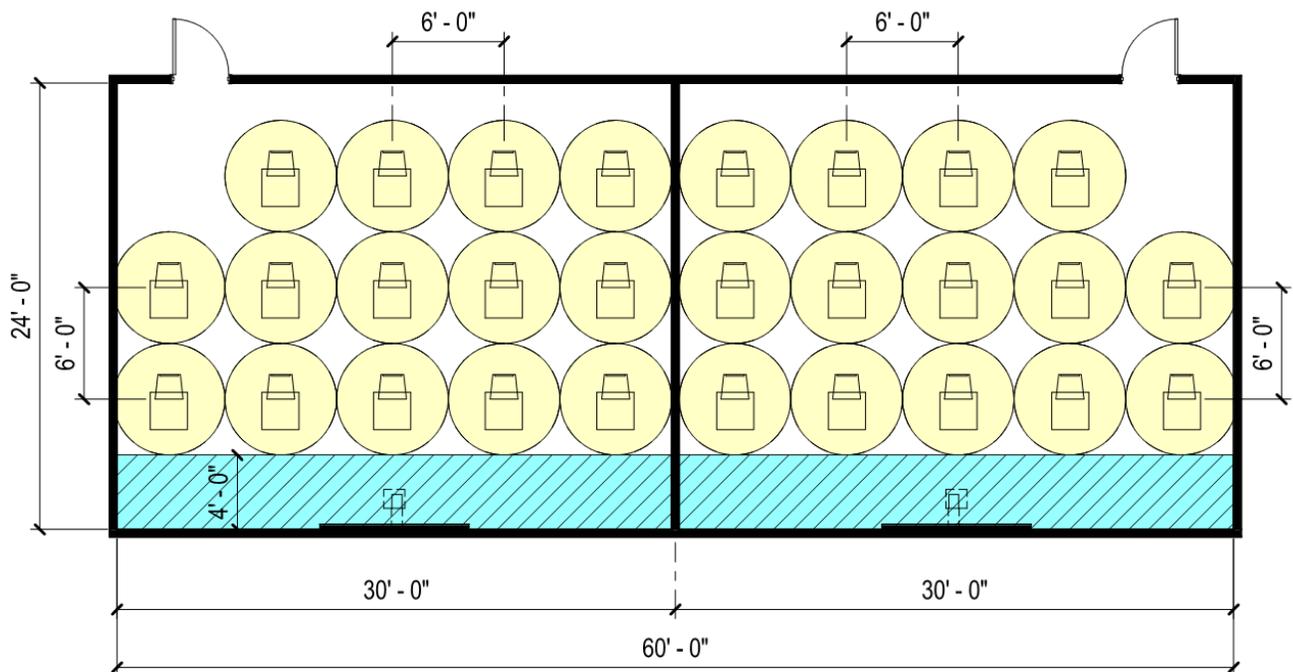

The layout below utilizes individual desks with the understanding that very often group tables are utilized in Grades 1-3. The group tables will need to be utilized as individual desks in order to maintain social distancing, if smaller desks are not available.

700 sq ft Classroom
14 Students and 1 Teacher

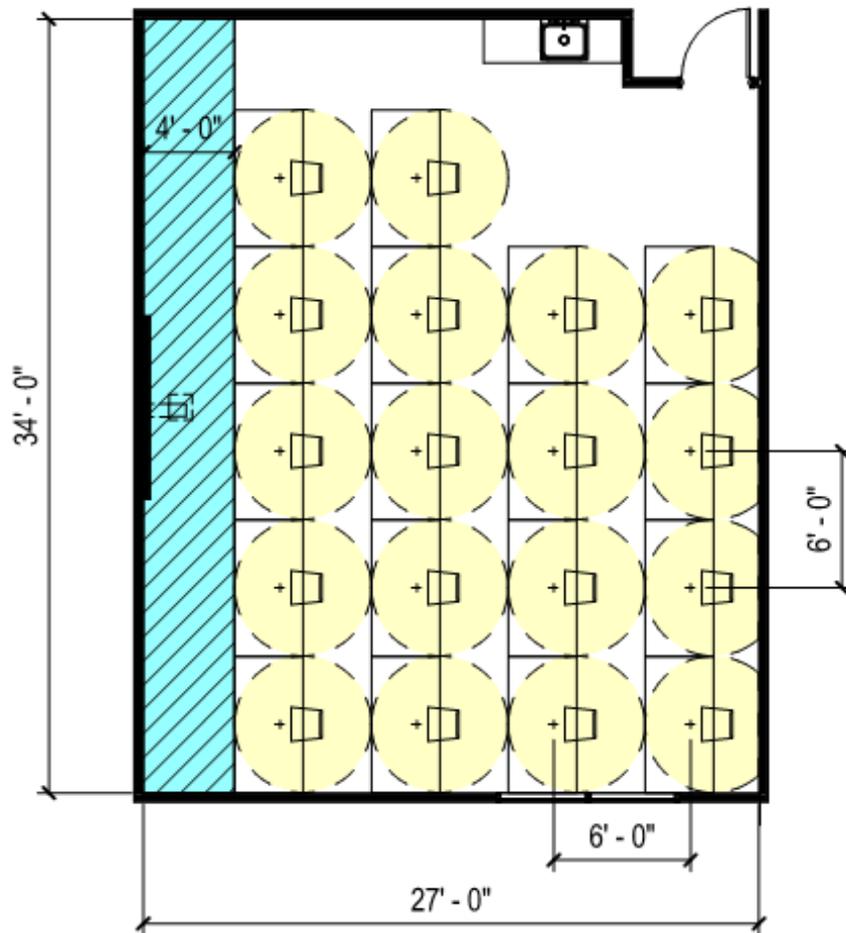

Below is an example layout of a typical two-classroom portable. Each of the circles are six feet in diameter with a single desk in the middle.

The layout below utilizes individual desks with the understanding that very often group tables are utilized in Grades 1-3. The group tables will need to be utilized as individual desks in order to maintain social distancing, if smaller desks are not available.

1,440 sq ft Portable Classroom
 14 Students and 1 Teacher per Side
 2 Classrooms per Portable

Below is an example layout of a 900 sq ft classroom utilizing a 3'x6' shared desk as an individual desk. This diagram is meant to help clarify how the rectangular desk can be used in place of an individual desk. Each of the circles are six feet in diameter with a single desk in the middle.

900 sq ft Classroom
 18 Students and 1 Teacher
 36"X72" Rectangular Desks

School Lobbies

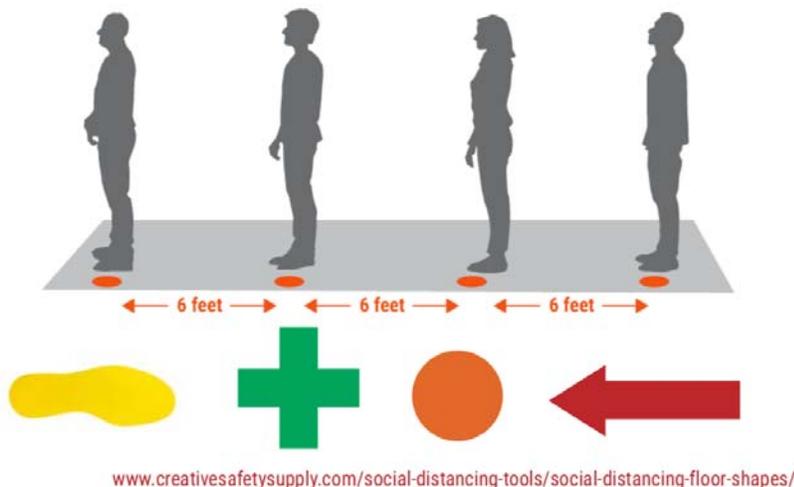

- School lobbies should not have guest seating and guests should wait in a single file line with six feet between each individual.
- The guests that cannot fit within the space should wait outside of the building following the same six feet separation between individuals.
- Schools should apply tape on the floor approximately three to four feet in front of the reception counter in order to identify a safe distance for the public to stand when approaching the front office staff.

Lockers and Locker Rooms

The use of all lockers is prohibited. In addition, PE locker room usage is prohibited. Teachers should ensure proper footwear on students for safety purposes; however, dressing out for PE will not be required.

School Offices

- School offices should be adjusted to allow for six feet of separation between desks in all areas.
- Individual offices should remove guest seating unless large enough to allow for social distancing.

Hallways/Corridors

- In corridors less than ten feet wide, students and staff should be in a single-file line with six feet between each individual, as indicated in the image to the left.
- In corridors greater than ten feet wide, a maximum of two single-file lines with a horizontal separation of six feet is allowable.
- Circulation in corridors shall be one way.

Restrooms

- The number of occupants in a restroom should be limited to the number of stalls in any restroom. For restrooms with multiple urinals, every other urinal should be used to allow for proper social distancing. Students waiting in the corridor should follow the guidelines above for the use of corridors.
- Signs should be hung in each restroom showing the proper method for washing hands.
- Waiting for restrooms should occur along the corridor adjacent to the restroom following the social distancing guides for corridors above.

Heating, Ventilation, and Air Conditioning Strategies Taken to Reduce Risk of COVID-19 Transmission

In addition to performing regular maintenance and repairs to heating, ventilation, and air conditioning (HVAC) equipment, the District has taken proactive actions to ensure HVAC systems are functioning properly to maintain a healthy educational environment. These actions and inspections have focused on filtration and ventilation, as recommended by the American Society of Heating, Refrigeration, and Air Conditioning Engineers' (ASHRAE)^{xviii}. Additional guidance from the Harvard Schools for Health Program^{xix} and the Council of the Great City Schools^{xx} has been used to enhance the scope of work performed and managed by the Facilities Services Unit.

The District has completed the following efforts throughout the summer and fall of 2020 and these tactics will continue on an ongoing basis:

- **Air Filter Replacement**
Over 50,000 air filters across the District's HVAC systems have been replaced and where feasible utilized high efficiency MERV 13 filters. Most filters in the District's systems have a MERV 8 rating, which is sufficient and appropriate for the equipment. Filters with a higher MERV rating are capable of removing smaller particles from the conditioned air; however, they can be incompatible with certain systems and/or restrictive to air flow and therefore can only be used on certain units. Additionally, a plan for replacing filters on a regular schedule according to manufacturers' recommendations has been developed.
- **HVAC Unit Cleaning**
HVAC unit coils have been cleaned at over 230 schools. HVAC unit coil cleaning at all schools will be complete by March 2021.
- **HVAC System Inspection**
HVAC systems have been inspected to verify the outside air intakes are functioning. As of October 2020, this work has resulted in 58 repairs to HVAC unit outdoor air intakes.
- **HVAC Operating Schedules**
Staff are communicating with principals and operations managers to ensure each building's HVAC operating schedules are programmed correctly to match school occupancy and any planned events.
- **Air Quality Monitoring**
Staff have evaluated several options for actively improving indoor air quality by

removing or attacking bacteria, viruses, and other pathogens. The current focus of these efforts has been on areas with medically fragile students and staff, such as nurses' offices, treatment rooms, and classrooms at schools with higher populations of students who require special behavioral or medical assistance. Approximately 850 rooms are currently identified in these categories.

The recommended technology to be installed in these rooms is one that actively enters the air and treats surfaces in the space. This is in contrast to portable air cleaners, which are very useful for improved air quality and pathogen removal, but do not deactivate the virus on a continuous basis.

The following video link describes the Global Plasma Solutions (GPS) product that has been selected for pilot testing and installed in six schools:

https://www.youtube.com/watch?v=CL3WN6u9_gA.

- Staff will continue to evaluate technologies that can help meet the Facilities Services Unit's goals of maintaining a healthy, reliable, and efficient learning environment.

Work Order Prioritization and Completion

Work orders for plumbing, HVAC, and fire/life/safety have been made priority to ensure that all schools are ready for opening when students return. This will be achieved by weekly follow ups with maintenance supervisors to address the progress in all zones. Supervisors will issue work packages to technicians every day to ensure that a certain number of work orders are accomplished. If sufficient progress is not made, building engineers and skilled trade assistants from other trades and zones will be included to help with smaller work orders. If one zone is ahead of schedule, staff from that zone will be assigned to help another zone.

<https://globalplasmasolutions.com/>

Guidelines for Interactions Between Maintenance Staff and School Communities

In an effort to better serve all sites and to ensure building safety for all staff, the Facilities Services Unit has implemented a login/logout procedure. All of the Facilities Services Unit staff have been trained on this procedure and when they arrive on a campus or a site, they will sign in and out with the login/logout book.

Upon arrival to a campus or site, the Facilities Services Unit staff member will stop at the school or site office and sign in. If arriving after hours, staff must sign the log book next to the security keypad.

At the conclusion of each shift, staff will also check out using the same login/logout book. In the event of a COVID-19 positive test result, this will assist with contract tracing.

5. SCHOOL OPERATIONS

The Hybrid Instructional Model

The District's primary structure of the hybrid instructional model requires that students be divided into three student cohorts. Students in Cohort A attend school face-to-face on Mondays and Tuesdays and engage in distance education on Wednesdays, Thursdays, and Fridays. Students in Cohort B attend school face-to-face on Thursdays and Fridays and engage in distance education on Mondays, Tuesdays, and Wednesdays. Therefore, students in Cohorts A and B receive learning opportunities that incorporate both face-to-face instruction at the school in the classroom and distance education at home through synchronous and asynchronous instruction. Students in Cohort C engage in full-time distance education all days and receive learning opportunities that include distance education at home through synchronous and asynchronous instruction.

Components of the Hybrid Instructional Model

Transitioning to the hybrid instructional model supports students, families, and educators through several delineated structures, resources, and tools. The hybrid instructional model includes the following components:

Asynchronous Instruction

- Learning does not occur at the same time for students. This includes recorded video content and other digital media and content for students to work through independently.

Audio Conferencing

- While online meeting platforms may be used during the hybrid instructional model, telephonic conference calls with multiple students may occur to optimize access and instruction. Online meeting platform attendance without the video function is audio conferencing.

Face-to-Face Instruction

- Students engage in instruction at the school in their designated classroom(s). Instruction may or may not include technology to support and enhance learning.

Learning Line

- The Learning Line is a service in which District personnel provide support for all students via telephone to maximize learning. This service may be reached at (702)799-6644. Educators are available Monday through Friday from 8:00 a.m. until 4:00 p.m. to assist students in both English and Spanish during scheduled school days.

Learning Management System (LMS)

- An LMS is an online platform that enables instructional delivery and resource housing and contains other tools to assist with learning. Students can access the LMS at anytime and anywhere. The District's LMS is Canvas. Students must access content and other tools, such as Google Classroom and Google Meet, from within Canvas.

Live Streaming

- Online streaming in which content is simultaneously broadcasted in real time promotes student learning during face-to-face instruction and synchronous sessions.

Synchronous Instruction

- Learning is happening in real time for students. This includes video conferencing lessons, live webinars, interactive live chat discussions, virtual instruction, and face-to-face instruction.

Video Conferencing

- Creating live audio and video connections between multiple students. Google Meet is used to conduct student-based, video conferencing experiences.

Virtual Office Hours

- Dedicated blocks of times when educators provide one-to-one interactions with students to support individualized instruction and clarification from students and families regarding course content and assignments. Virtual office hours may occur through video or audio conferencing methods.

Weekly Instructional Guide

- Weekly instructional guides illustrate the structure of student learning and communicate weekly schedules and learning expectations for students. Face-to-face, as well as synchronous and asynchronous sessions, are provided in the guides.

Wellness Checks

- Licensed professionals, coordinated and calendared by the Multidisciplinary Leadership Team, establish times for student and family check-in protocols. The wellness check-in process may occur virtually or in-person to determine student academic, social-emotional, and health needs. This process is intended to optimize the general wellbeing of students.

Roles in the Hybrid Instructional Model

Defining roles during the implementation of the hybrid instructional model is essential. While details related to the hybrid instructional model are provided for each stakeholder, this listing may not be all inclusive and may involve some modifications based on the context of each school and community.

Site administrators will:

- Provide initial and ongoing parent/guardian communication, support, and guidance.
- Lead master scheduling and content mitigation to support instructors, while considering the instructional needs of all students.
- Include schedules for face-to-face instruction and synchronous and asynchronous sessions, wellness checks, and virtual office hours.
- Facilitate and support the development and implementation of weekly instructional guides for every student.
- Monitor IEP/Section 504 Accommodation Plans/ELL supports to ensure compliance and differentiated learning.
- Facilitate and supervise the implementation and progress of the Multidisciplinary Leadership Team (MLT), which includes holding required weekly meetings, analyzing data to determine tiered supports, conducting wellness checks, and assigning students to wellness teams based on tiered indicators.
- Observe instruction and provide feedback to licensed educators.
- Monitor and support each teacher’s implementation of Canvas to ensure all requirements are met on a weekly basis.
- Identify teachers and staff who serve on a team of expert Canvas users to increase the “bandwidth” of support for teachers.
- Notify region leadership regarding any health concerns and/or implementation challenges.
- Ensure all safety and health guidelines are structured, implemented, and monitored.

Licensed educators will:

- Provide instruction for all students, facilitate virtual office hours, and conduct wellness checks for designated students who need extra academic and/or social-emotional support.
- Participate in collaborative lesson planning and professional learning.
- Ensure all students sign on through Clever to access Canvas and other instructional resources and tools.

- Monitor students' progress and proactively communicate with parents/guardians and students regarding any areas of concerns.
- Arrange for daily communication with students and parents/guardians and follow attendance processes.
- Work with support professionals assigned to students with disabilities to ensure accommodations are met.
- Ensure resources are provided for ELL students and students with IEPs and Section 504 Accommodation Plans.
- Contact and communicate with parents/guardians as needed.
- Attend and participate in all required parent/guardian meetings (i.e., IEP/504, ELL).
- Provide emergency substitute plans and instructions, as traditionally required.
- Ensure all safety and health guidelines are structured, implemented, and monitored in the classroom.
- Communicate with the administration regarding any health concerns or implementation challenges.

Students will:

- Maintain positive attendance and course progress.
- Complete assignments and tasks as assigned.
- Exhibit good study habits.
- Reach out to teachers when in need of assistance.
- Attend and participate in daily and weekly face-to-face instruction and/or synchronous and asynchronous sessions.
- Participate in all proctored assessments.
- Utilize virtual office hours as posted by teachers to obtain additional academic support and guidance as needed.
- Adhere to all safety and health guidelines.
- Follow all school rules, policies, and expectations.

Parents/guardians will:

- Provide support, guidance, and assistance to support their children's learning.
- Foster a conducive area for learning at home.
- Encourage and recognize positive gains and achievements.
- Actively monitor children's progress in assigned courses.
- Work collaboratively with the teacher(s) and other school staff to address any challenges or concerns.
- Support children in maintaining positive attendance and on-time arrival.

- Attend and participate in face-to-face and/or virtual meetings to support children’s academic progress.
- Check and monitor children’s health daily prior to attending school and/or riding the school bus. Keep children at home if any COVID-19 health symptoms are evident.

Canvas

Canvas Access

Canvas will continue to serve as the District’s learning management system for all teachers and students to promote consistency with the transition from face-to-face instruction and distance education within the hybrid instructional model. Students are required to access Canvas by signing on to Clever, the District’s single, sign-on platform. Google Meet and Google Classroom and other resources may be utilized only if they are accessed by students in Canvas. Site administrators are required to continually monitor Canvas to ensure that all teachers follow this requirement.

Content

Canvas learning management is the main system for all teachers and students (Pre-K-12/ungraded self-contained programs) for communication and will be used for content deployment. Instruction and digital content must be aligned to the Nevada Academic Content Standards (NVACS) to ensure students are instructed on all standards.

- Teachers in Grades 6-12 can use core content created by the Online and Blended Learning Department or content created by the Nevada Learning Academy.
- Teachers in Grades Pre-K-8 can use Nearpod content.

Teacher Assignments in the Hybrid Instructional Model

Based on the class size ratios and the number of students participating in each cohort, teachers may be assigned to multiple cohorts of students. Teachers will be assigned to cohorts in order to meet the needs of all students. At the elementary level only and depending on the number of the students participating in full-time distance education, teachers **may** be assigned to students in Cohorts A and B or students who participate in full-time distance education.

- If teachers are assigned to Cohorts A and B, they will provide face-to-face instruction to half of their students on Mondays and Tuesdays (Cohort A) and face-to-face instruction to half of their students on Thursdays and Fridays (Cohort B). Teachers are also responsible for providing synchronous and asynchronous sessions, for the Cohort A and B students participating in distance education.

- If teachers are assigned to students who participate in full-time distance education, they will provide synchronous and asynchronous instruction and virtual office hours to their students during the school day. The teachers assigned to students who participate in full-time distance education may also provide synchronous and asynchronous instruction and virtual office hours for students in Cohorts A and B on days designated as distance education.
- If teachers are assigned to students in Cohorts A and B and students who participate in full-time distance education, they will provide face-to-face instruction to half of their students on Mondays and Tuesdays (Cohort A) and face-to-face instruction to half of their students on Thursdays and Fridays (Cohort B). They will provide synchronous and asynchronous instruction and virtual office hours to their students in Cohorts A and B and students who participate in full-time distance education during the school day.
- The teacher contractual workday of seven hours and 11 minutes will be maintained. All teachers will be allocated a full preparation period every day, except for Pre-K teachers who receive their preparation period allocation on certain days.

Wednesdays in the Hybrid Instructional Model

On Wednesdays, all students will engage in distance education at home through synchronous and asynchronous sessions. As Wednesdays are instructional days for students, attendance must be taken in elementary schools and in each course scheduled on Wednesdays for secondary schools. Teachers will be available at designated times for virtual office hours. Wellness checks will also be conducted by teachers for designated students.

As implementing the hybrid instructional model involves strategic planning for instruction, teachers will have time on Wednesdays to participate in Professional Learning Communities (PLCs), including data analysis and lesson plan development. Professional learning will be provided to assist teachers with the implementation of the hybrid instructional model. Teachers will also be allocated their full preparation period on Wednesdays in addition to the time allocated for PLCs.

Learning Components of the Hybrid Instructional Model

As the hybrid instructional model is implemented, the goal is to provide continuous high-quality, standards-based instruction to accelerate students' learning. Learning structures, strategies, and methods are integrated to promote students' engagement, and educators must continually attend to students' social-emotional wellbeing. The essential components of an effective lesson and the standards and indicators within the Nevada Educator Performance Framework (NEPF) are implemented:

- New learning is connected to prior learning and experience.
- Learning tasks have high cognitive demand for diverse learners.
- Students engage in meaning-making through discourse and other strategies.
- Students engage in metacognitive activity to increase understanding of and responsibility for their own learning.
- Assessment is integrated into instruction.

As synchronous sessions may be incorporated throughout the week in shorter time frames, not all components of an effective lesson and the NEPF standards and indicators may be evident in every session.

Purposeful planning and strategic decisions guided and informed by student data are critical components for high-quality, standards-based instruction. Teachers must design and implement instruction, learning tasks, and assessments in alignment with the NVACS. As teachers engage in planning instruction for both face-to-face and distance education learning opportunities, learning structures, strategies, and methods must be evaluated to determine the most conducive learning environment.

Face-to-face instruction should be used to maximize students' interactions to guide and facilitate students with creating, evaluating, analyzing, and applying skills and concepts to master and generalize the content. Distance education provides opportunities for students to frontload concepts and information through videos, readings, and podcasts to establish a foundation for the learning process during face-to-face instruction. Teachers may cross learning structures, strategies, and methods between the two learning environments as needed to best support all students. Teachers may also utilize available technology tools, such as Google Meet and live streaming, to incorporate synchronous sessions for students participating in face-to-face instruction at school and distance education at home. Various learning structures, strategies, and methods are provided below^{xxi} with suggested learning environments.

Face-to-Face Instruction	Distance Education
<ul style="list-style-type: none"> • Provide direct instruction for concept skill and development • Engage in productive discourse, including Socratic Seminars, debates, and role playing • Teach and practice discourse and language routines to make thinking visible • Differentiate small-group instruction • Collaborative learning activities and hands-on learning • Simulations • Assess students' conceptual misunderstandings and provide immediate feedback • Small-group interventions 	<ul style="list-style-type: none"> • Preview/Review content • Videos • Engage in readings, including articles, books, and journals • Listen to podcasts • Conduct research • Preview an assignment/project • Independent learning and practice through digital content and programs • Independent exploration • Independent skills practice • Independent reflection and strategy monitoring • Independent projects • Online discussions • Content overview and building background knowledge

Instructional Materials and Equipment

All instructional materials, including textbooks and Chromebooks, must be provided for individual student use and assigned to students. If manipulatives or other instructional materials are needed for an instructional lesson, materials must be provided through individualized baggies or supply boxes. If specific equipment is necessary for very specified courses, the equipment must be cleaned by the teacher between student use.

Professional Learning Opportunities

The Academic Unit, including the Curriculum and Instruction Division, the English Language Learner Division (ELLD), the Leadership and Professional Learning Division, and the Student Services Division (SSD), will provide professional learning to assist educators with planning and preparing instruction for the hybrid instructional model. Suggested structures, strategies, and methods will also be provided by grade bands and core content areas. This information will assist with planning and preparing for the hybrid instructional model. In addition, open labs will be provided for educators to gain assistance and guidance to implement the hybrid instructional model.

School Bell Times and Student Instructional Day

All schools will adhere to the school bell schedules that were approved in August 2020. All schools will implement a student instructional day consisting of six hours and 11 minutes, which will include face-to-face instruction and synchronous and asynchronous sessions. Schools with extended days, including but not limited to, Prime 6 Schools, Zoom, Innovative

Eight Middle Schools, and some magnet schools, will continue to provide the extended days for students and teachers during the hybrid instructional model.

Distance Education Instructional Days

The components of distance education, such as synchronous and asynchronous sessions, audio conferencing, Canvas, video conferencing, virtual office hours, weekly instructional guides, and wellness checks, serve as structures to provide and promote students’ learning within whole-group instruction, small-group instruction, and one-on-one instruction. The following details will assist as student schedules are completed adhering to the minimum synchronous sessions. The other components of the instructional day for students are thoughtfully planned to include asynchronous instruction, including independent work, paper correspondence, use of online tools and resources for instruction, and group work.

Level	Minimum Synchronous (real-time learning) Minutes Learning Requirements
Primary (Grades Pre-K-2)	60-90 minutes per DAY
Intermediate (Grades 3-5)	90-120 minutes per DAY
Middle (Grades 6-8)	120 minutes per WEEK per COURSE, for each of the four courses
High (Grades 9-12)	60-90 minutes per WEEK per COURSE, for each of the six to eight courses

Master Schedules

As an implementation timeline is approved for the hybrid instructional model, staff will adhere to the guidelines and timeline for master scheduling revisions. This work includes period schedules, updating sections and day rotations, and the assignment of cohorts.

Elementary School Schedules

- During face-to-face instruction to the greatest extent possible, students will remain with the same group of students each day at school to promote the health and safety of all students and staff.
- During days of distance education, students may engage in synchronous sessions through Google Meet or live streaming. Students will also be engaged in synchronous and asynchronous sessions and independent work. Opportunities will also be provided for wellness checks and virtual office hours.
- Ensure all students with IEPs are scheduled first into the master schedule to ensure IEP implementation and compliance. Consider the need for planning time for co-teachers to deliver instruction virtually. In addition, ensure support professionals allocated to classrooms are scheduled to assist teachers with instruction.

- Review student achievement data prior to scheduling students to determine students needing time to accelerate their learning by building extra time for students into the master schedule.
- Students will be equally divided into Cohorts A and B to ensure all health and safety guidelines are followed. Class rosters may need to be adjusted to accommodate the differences of students who participate in full-time distance education and balance class sizes to ensure reduced capacity.
- Large classrooms may have to be reallocated to accommodate face-to-face instruction to ensure all safety and health guidelines are followed.
- Schools implementing departmentalization will have to implement the hybrid instructional model, as teachers and students will not be permitted to rotate between classes.
- Specialists will be assigned to specific classrooms per grade level to provide instruction to promote the health and safety of students and staff. Specialists will use Google Meet to instruct students in the classroom, students in other classrooms, and students in distance education. If instructional materials are needed for the lessons, the instructional materials will be provided a week ahead of time during face-to-face instruction.
- Refer to the Appendix for a sample elementary school schedule.

Middle School Schedules

As approved by the Board of School Trustees on Tuesday, July 21, 2020, middle school schedules will operate on a semester-based instructional schedule, offering students year-long courses in one semester.

- During face-to-face instruction, middle schools will only offer two courses each day at school to promote the health and safety of students and staff. In order to meet the required daily instructional minutes, students will also engage in distance education, which will include both synchronous and asynchronous sessions.
- During days of distance education, students may engage in synchronous sessions through Google Meet or live streaming. Students will also be engaged in synchronous and asynchronous sessions and independent work. Opportunities will also be provided for wellness checks and virtual office hours.
- Ensure all students with IEPs are scheduled first into the master schedule to ensure IEP implementation and compliance. Consider the need for planning time for co-teachers to deliver instruction virtually. In addition, ensure support professionals allocated to classrooms are scheduled to assist teachers with instruction.

- Review student achievement data prior to scheduling students to determine students needing time to accelerate their learning by building extra time for students into the master schedule.
- Students will be equally divided into Cohorts A and B to ensure all health and safety guidelines are followed. Class schedules may need to be adjusted to accommodate the differences of students who participate in full-time distance education and balance class sizes to ensure reduced capacity.
- Large classrooms may have to be reallocated to accommodate face-to-face instruction to ensure all safety and health guidelines are followed.
- Explore double-blocking courses to promote student engagement throughout the school year.
- High school courses offered at middle schools may be scheduled as year-long courses or as semester-based courses during the second semester. Principals interested in offering a traditional, year-long high school course as a semester-based course during the second semester must contact their region superintendent.
- Any early or late bird classes will be provided through distance education.
- Refer to the Appendix for the sample middle school schedule.

High School Schedules

As approved by the Board of School Trustees on Tuesday, July 21, 2020, high school schedules will operate on a traditional, year-long course schedule, with principals having the discretion to determine the number of six to eight courses.

- During face-to-face instruction, high schools will only offer two courses each day at school to promote the health and safety of students and staff. In order to meet the required daily instructional minutes, students will also engage in distance education, which will include both synchronous and asynchronous sessions.
- During days of distance education, students may engage in synchronous sessions through Google Meet or live streaming. Students will also be engaged in synchronous and asynchronous sessions and independent work. Opportunities will also be provided for wellness checks and virtual office hours.
- Ensure all students with IEPs are scheduled first into the master schedule to ensure IEP implementation and compliance. Consider the need for planning time for co-teachers to deliver instruction virtually. In addition, ensure support professionals allocated to classrooms are scheduled to assist teachers with instruction.

- Review student achievement data prior to scheduling students to determine students needing time to accelerate their learning by building extra time for students into the master schedule.
- Students will be equally divided into Cohorts A and B to ensure all health and safety guidelines are followed. Class schedules may need to be adjusted to accommodate the differences of students who participate in full-time distance education and balance class sizes to ensure reduced capacity.
- Large classrooms may have to be reallocated to accommodate face-to-face instruction to ensure all safety and health guidelines are followed.
- Any early or late bird classes will be provided through distance education.
- Refer to the Appendix for sample high school schedules.

Teacher Preparation Periods

As the District implements the hybrid instructional model, site administrators must adhere to Article 31 of the Negotiated Agreement between the Clark County School District and the Clark County Education Association in regard to providing daily preparation periods. Specifically, principals must schedule preparation periods during the student day and may not direct teachers to perform any type of work during more than four preparation periods per school year. In addition, any direct use of preparation periods must be infrequent with advance notice provided, and the use of the preparation period must not consume the entire period. If more than four preparation periods per school year are directed and no waiver is in place pursuant to Article 38, the affected teacher must be paid his/her contractual rate of pay for the preparation period. Teachers may sell their preparation period; however, this must be a completely voluntary decision and should be documented in writing. Preparation periods must be used appropriately by the teacher as established in Article 31.

Specific School Personnel Considerations

Site Administrator Supervision Practices

Teacher and site administrator NEPF evaluation expectations and timelines will remain the same for the 2020-2021 school year per Nevada Revised Statutes 391.685 and 391.705. The end dates for the three observation cycles are:

- Observation cycle one ends on October 19, 2020.
- Observation cycle two ends on January 5, 2021.
- Observation cycle three ends on March 9, 2021.

The due date of the final evaluation and the procedures for submitting final evaluations will be communicated in January 2021.

All efforts should be maintained to ensure the functionality of the cohorts. Site administrators will only observe face-to-face instruction for the teachers they directly supervise. All social distancing and safety protocols must be followed. Optimally, each classroom observation should not be longer than 20 minutes. Pre- and post-observation conferences may be conducted in person, while practicing all safety guidelines, or through Google Meet. Site administrators are required to weekly monitor each teacher's implementation of Canvas to ensure all requirements are met.

Site Administrators

In order to promote all safety and health guidelines, site administrators, including student success coordinators, will be assigned classrooms and minimize close contact with teachers and students by having conversations in the hallways and/or walking to the classrooms rather than requesting students to the main office to reduce the number of students in the hallways.

School Counselors and Social Workers

In order to promote all safety and health guidelines, school counselors and social workers will meet with students outside of the classroom. Counselors at the secondary level are required to review and monitor students' academic plans and complete credit checks. Most of these sessions will be conducted through Google Meet during the days that students are participating in distance education to ensure students on campus have access to personnel for their social-emotional wellbeing. All schools must develop a process for students to reach school counselors for their social and emotional wellbeing either through face-to-face or virtual opportunities.

Learning Strategists

Learning strategists will minimize close contacts by supporting students during distance education and collaborating with teachers through virtual methods.

Music Specialists, Choir, and Band Teachers

During face-to-face instruction, teachers must ensure students engage in instruction to expand and enhance their mastery of the skills and concepts, ensuring the following:

- Equipment, props, and instruments must not be shared.
- When not playing an instrument, students must wear a well-fitted mask that covers the nose and mouth.
- Wind instruments requiring removal of condensation and saliva must be spaced a minimum of six feet from other instruments. Students playing wind instruments should move masks off the mouth area when playing or have masks with slits at the mouth to fit mouthpieces for playing their instruments. Masks with mouth slits must only be used when playing an instrument. They cannot be used outside of the music classroom. Masks must not be shared between students.
- Dance activities will not include stunting, lifts, tosses, or baskets so mats are not required or used.
- Choral and singing activities will be conducted outside or in a well-ventilated large room, such as a gymnasium, with students separated a minimum of six feet apart.
- Choral students must wear well-fitted masks that allow for proper vowel formation while keeping the mouth and nose covered when singing.
- General music teachers should consider providing each student with a personal music kit that includes common classroom instruments (rhythm sticks, mallets, etc.). Provided instruments must not be shared between students unless the instruments are appropriately washed and disinfected between classes or uses.
- Choreography with physical contact between students and singing/playing in circles is prohibited.
- Do not use high-touch or shared materials, such as props, puppets, scarves, ribbon wands, manipulatives, visuals, etc.
- Avoid stretching or “warm-ups” that require contact or exaggerated exhalation.

GATE Specialists

GATE specialists will collaborate with site administrators to determine days and times for GATE instruction. Consideration will be given to cluster students within the same cohort. Students will not be removed from music, library, PE, art, and humanities for GATE instruction. GATE specialists will provide instruction for identified students through face-to-face and/or

distance education instruction. GATE program equipment, such as planetarium and robotics, will not be available for checkout during the implementation of the hybrid instructional model.

Site-based Technicians

Site-based technicians (SBTs) will minimize contact with teachers and students by addressing classroom technology concerns virtually or outside of the classroom, including using a cart in the hallway to address the technology concern prior to entering the classroom.

Assessment and Student Data

MAP Growth

As prescribed in the minimum requirements for distance education plans established by the Nevada Department of Education, school districts must determine students' academic needs as a result of the COVID-19 pandemic and provide support as necessary. Therefore, MAP Growth will be administered for Grades K-10. At the high school level, students in Grades 9 and 10 will be assessed in Algebra I and Geometry courses and in Grades 9 and 10 English courses.

Guidance on test administration protocols and resources can be found at <https://bit.ly/MAPremote>, a subset of the MAP Growth Implementation Manual (<http://bit.ly/CCSDMIM>).

Elementary Level

- Students in Grades K-5 will participate in the reading and mathematics assessments.
- MAP Growth will be administered at school on student's individual Chromebooks during assigned days of face-to-face instruction for all students in K-Grade 2.
- In order to optimize the utilization of face-to-face instruction on essential academic standards, MAP Growth will be administered remotely during assigned days of distance education for all students in Grades 3-5 with proctoring support from parents/guardians in collaboration with the classroom teacher. If the school administration in collaboration with the teacher(s) determines that some students may benefit from participating in the MAP Growth assessment in person at school, this is permissible.
- Students will participate in the fall, winter, and spring test administrations.

Secondary Level

- Students in Grades 6-10 will participate in the reading and mathematics assessments.
- In order to optimize the utilization of face-to-face instruction on essential academic standards, MAP Growth will be administered remotely during assigned days of distance

education for all students in Grades 6-10 with proctoring support from parents/guardians in collaboration with the classroom teacher. If the school administration in collaboration with the teacher(s) determines that some students may benefit from participating in the MAP Growth assessment in person at school, this is permissible.

- Students will participate in the corresponding assessment if they are actively enrolled in the course.
- Students will participate in the fall, winter, and spring test administrations.

Guidance on test administration protocols can be found at <https://bit.ly/MAPremote>.

WIDA Screener

Administration of the WIDA Screener ensures the provision of language supports for ELLs. Schools are required to assess the English proficiency of students within 30 calendar days of initial enrollment, or 14 calendar days if enrolled during the school year when parents/guardians identify a different primary language other than English in the home. The Nevada Department of Education is supporting flexibility with this timeline, recognizing the unique challenges with meeting the established deadline.

Due to the nature of these assessments, remote administration is not an option. Students must come to the school for a face-to-face administration of the WIDA Screener or W-APT, while following social distancing protocols. Guidance on test administration protocols can be found in the WIDA Screener Implementation Manual (<http://bit.ly/CCSDSIM>). The Nevada Department of Education has approved a provisional screening process in the event students are unable to participate in an in-person screening assessment.

WIDA Screener Plan for Distance Education and/or Hybrid Instruction

https://docs.google.com/document/d/1Q5Z42HESNuh0ij5vAe_WyV6FRszYMrCYnlHYtU3_TYw/edit?usp=sharing

Civics Exam

All high schools must administer the civics exam as required by law. The District's guidelines can be found at

https://drive.google.com/file/d/1luqdQ5h1J2NUsOTWcYLYdPBrm_by6rFP/view?usp=sharing.

Formative Assessments

Formative assessment is a deliberate process used by teachers and students during instruction to gather actionable feedback to help along the learning journey. Formative data is used to adjust ongoing teaching and learning strategies to improve students' self-assessment,

reflection, and attainment of curricular learning. Formative assessments allow the opportunity for growth and development toward mastery of student learning goals as educators and students are acting upon the evidence the assessments yield. High-quality corrective instruction must follow assessments to ensure growth and attainment of curricular goals.

Summative Assessments

Educators need to make strategic decisions about what students need to know and be able to do in alignment with the NVACS by targeting specific outcomes for students' mastery. Educators work collaboratively in PLC structures to prioritize the NVACS to ensure summative assessments focus on the essential standards at the rigor and depth the standards demand.

Assessments and learning tasks that require students to demonstrate their knowledge, proficiency, and understanding are essential in the hybrid instructional model. As any performance by a student may be considered a performance task if it elicits evidence of student learning, it is essential to distinguish a performance task of a discrete, single skill compared to a comprehensive performance task designed for a summative assessment for students to apply their knowledge of multiple learning targets to new, authentic, and novel situations.

Performance Tasks

Performance tasks create engaging multi-step opportunities for students to demonstrate what they know and what they can do in alignment with the NVACS. The following characteristics represent a performance task:

1. Performance tasks call for the application of knowledge and skills. *The learner must use their learning. The tangible product serves as evidence of understanding and proficiency.*
2. Performance tasks are open-ended and typically do not yield a single, correct answer. *Different responses meet the success criteria. There is no single way to accomplish the task.*
3. Performance tasks establish novel and authentic contexts for performance. *Realistic conditions and constraints that convey purpose and relevance are presented.*
4. Performance tasks provide evidence of understanding via transfer. *The learner reveals his/her understanding through purposeful application and the transfer of knowledge to new situations.*

5. Performance tasks are multi-faceted. *The learner is engaged in complex tasks requiring multiple steps. Several standards are assessed.*
6. Performance tasks integrate two or more subjects and 21st Century skills. *Meaningful learning is not isolated by subject. The student incorporates reading and writing skills.*
7. Performance tasks are evaluated with established criteria and rubrics. *Criteria are aligned to the goals being assessed and are used to profile varying levels of understanding and proficiency.*

McTighe, Jay. "What is a Performance Task." MAC McTighe and Associates Consulting. 15 April 2015. 11 April 2019.

In order to promote students' wellbeing, educators must be cognizant of students' social-emotional wellbeing during these uncertain, continually evolving circumstances. Educators need to collaborate with one another to develop and implement performance tasks that incorporate multiple discipline areas to reduce the need for students to complete several performance tasks in a single timeframe. Educators may also consider breaking down comprehensive performance tasks into shorter tasks or performance items to be completed over a longer period of time to monitor students' progress. Moreover, using conversations or presentations provide an effective opportunity for students to demonstrate their thinking and learning.

Performance Task Resources

Stanford University's Resource Bank of Performance Tasks (Free Site/Sign-In Required)

<https://edpolicy.stanford.edu/projects/parb>

<http://www.performanceassessmentresourcebank.org>

Grading

Methods of assessing students must meet the range of needs of students' needs. Educators must consider the unique experiences and challenges of students and families, including but not limited to, academic support in the home, stress due to illness, economic conditions, food and housing insecurity, ability to adapt to a new model of instructional delivery, and social-emotional stress due to limited face-to-face interactions with educators and peers.

Educators will follow the District's Regulation 5121 in regard to student grading. Grades will reflect student achievement on assignments and assessments aligned with the NVACS provided by the teacher. In alignment with District Regulation 5121, secondary schools will implement semester exams which may be worth up to, but not exceed, 20 percent of the

student’s final semester grade. Educators need to implement semester exams that provide opportunities for students to apply their knowledge to new, authentic, and novel situations through performance tasks or project-based learning opportunities.

Quarter Grade Quarter Final* Semester Exam Semester Grade Citizenship MYP Grade**	05/24 12:00 AM-05/26 11:59 PM	05/27/2021-05/29/2021
*Quarter Final is the grading task for quarter-based courses. **MYP Grade is the grading task for International Baccalaureate Schools (IB).		

Opening the Grading Window

Please use the instructions available below to open/close the grading window at the school site for online courses, such as Apex*, or if there are extenuating circumstances that require opening/closing the grading window.

Instructions are located at training.ccsd.net > Grade Book > Grade Book Guide Administrators (<http://training.ccsd.net/gradebook/>).

* Ensure student athlete schedules include only authorized courses for NCAA requirements.

Progress Reports and Report Cards

During the hybrid instructional model, parents/guardians will access student progress reports and report cards through *Campus Parent* by clicking on the *Documents Tab* on the *Index Menu*. This method allows immediate access for parents/guardians to review students' progress and grades. As parents/guardians have immediate access to grades through *Campus Parent*, schools will no longer print and distribute progress reports and the District will no longer print and mail report cards home. Parents/guardians who require a printed report may contact their student's school to request a copy. The District will communicate centrally through *ParentLink* with parents/guardians regarding progress reports and grade postings in alignment with the reporting calendar.

- If a parent/guardian does not have *Campus Parent*, refer to the instructions at <https://sites.google.com/nv.ccsd.net/student-record-services/resources/parent-portal>.
- Instructions to access *Campus Parent* can be found at <https://www.ccsd.net/parents/resources/pdf/infinite-campus/CampusParentHowtoAccess2020v2.pdf>.

Infinite Campus is the official grade reporting system for the District; therefore, Infinite Campus must reflect accurate grades.

Instructional Considerations

Recording and Live Streaming Lessons

Though student engagement in synchronous learning opportunities is highly valued, there are times when circumstances outside of a student's control may prevent him or her from participating in synchronous sessions. Educators are encouraged to record synchronous sessions, especially if students are absent during the synchronous sessions. The following guidance is provided to help educators facilitate the recording and live streaming of synchronous sessions while protecting student information privacy in alignment with the Federal Education Rights and Privacy Act (FERPA).

All educators must attempt to obtain an *Authorization for Release of Education Records* for every student. Parents/guardians may submit the authorization via Infinite Campus or through the paper authorization (<https://drive.google.com/file/d/1oCW-dxaSL6TIkjU7BzCfHPS2ar8V4RZE/view?usp=sharing>).

FERPA prohibits showing or releasing personally identifiable information of students publicly, unless the parent/guardian has authorized such release of information. *“Personally Identifiable Information” means student faces, student likenesses, student names, or any other information about the student that would allow the student to be identified, including without limitation, school, grade, IEP, health information, student discipline, or anything else that would tend to identify the student or lead to identification of the student.*

- Educators may record and share synchronous sessions with students in the class who attended or missed the sessions.
- Educators may live stream synchronous sessions in real time which are being offered to students who are physically attending class for viewing by students in the class who are not physically present.
- Educators must explain to students that the sessions will be recorded for students who missed the sessions and live streamed for students who are not physically present.
- Students cannot share or post the recordings or make the live stream available to other students or the general public, and may not independently record the sessions.
- Access to the recorded sessions should be granted only to students who are enrolled in the class and should be password protected. Access through Google Classroom or another secured, shared folder that requires the student to log in is appropriate.
- There is no expectation of privacy in a classroom that would trigger protection of oral communications under the Wiretapping and Electronic Surveillance Control Act;

however, the precautions in this section should nevertheless be taken to prevent a possible violation of FERPA.

- Precautions must be taken to avoid recording or showing during any live stream personally identifiable information if the parent/guardian has not authorized release. Strategies include:
 - Instead of recording the synchronous session, record a video without students that recaptures the main ideas of the lesson.
 - Instead of recording the synchronous session, create a single mini-lesson without students on the instructional concept. Work with the grade-level/department teams to record the mini-lessons. Consider adding mini-lessons to Canvas Commons for other educators to use.
 - Utilize two Google Meet sessions simultaneously during a single class session. In this scenario, the teacher attends both sessions simultaneously, students attend one session, and the teacher records the other.
 - Utilize a second device, such as a phone, tablet, or other recording device, aimed solely at the instructor during the direct instruction, allowing the content of the synchronous sessions to be recorded without showing the Google Meet screen.
 - Shift the focus of synchronous sessions from lecture/direct instruction to a collaborative learning opportunity, such as problem solving, case studies, debates, student presentations, model making, and concept mapping. Provide the direct instruction in videos for use during the asynchronous learning for students.
 - Limit the live streaming or recording to classroom instruction so that students and their conversations are not captured while they are entering or leaving the classroom.
 - Determine the appropriate placement of cameras so that they do not capture student work product or personally identifiable information but primarily the educator and any white boards or other needed visuals.
 - Ensure that the educator is able to easily pause the live streaming or recording for any unforeseen classroom event.

Alternatives to Recording or Live Streaming Synchronous Sessions

Alternative strategies to ensure instruction for students who cannot attend the synchronous sessions include:

- Provide instructional videos that were previously created and can help students understand the concepts taught during the synchronous sessions.
- Create an instructional video (five to ten minutes using Google Meet with no audience) alone or with grade-level/department teams.
- Assign students to work collaboratively with other students who missed the synchronous sessions to complete the instructional task(s) that were done collaboratively during the sessions.
- Utilize small-group synchronous sessions and support students during virtual office hours.
- Share the PowerPoint, slide show, or other instructional materials utilized during the synchronous sessions.

Non-Instructional Considerations

Academic Parent/Guardian Meetings

If possible, academic parent/guardian meetings, including Section 504 Accommodation Plans and IEP meetings, should be done virtually but may be conducted in person depending on the circumstances. Parents/guardians visiting schools for academic meetings must make an appointment and follow all visitor protocols.

After-School Activities

After-school activities may be provided at the school and must be equally offered between the cohorts, including virtual opportunities for students participating in full-time distance education. Students may remain on campus for after-school activities only on the days they are participating in face-to-face instruction to maintain the safety benefits of the student cohorts. Staff must ensure that all health and safety protocols are followed during after-school activities. Late buses may not be available for after-school activities.

Before- and After-School Programs

The parks and recreation departments and other providers in each jurisdiction are committed to providing Safekey for students in the hybrid instructional model starting in January 2021. Providers will work with personnel in the College, Career, Equity, and School Choice Unit and school principals to determine the number of students that can be accommodated, while following all health and safety guidelines. In addition, After-School All-Stars Las Vegas and Communities in Schools may also begin operations in January 2021 at school sites. These organizations will work directly with designated personnel and school principals to initiate planning.

Drinking Fountains

Drinking fountains located in the classrooms, outside, and in other areas of the school will not be utilized.

Field Trips

Field trips are not permitted.

Parent/Guardian and Volunteer Engagement

Parents/guardians and volunteers will not be permitted on campus to volunteer and/or assist in classrooms.

Parental Advisory Committee Meetings

Parental advisory committee meetings should be held virtually.

Playground Equipment

Playground equipment will not be utilized.

School Organizational Team Meetings

School Organizational Team (SOT) meetings should be held virtually. Requirements for SOT meetings under Nevada law are listed below; these still apply. Additional guidance for holding SOT meetings remotely are included in *italics*.

Requirements for All SOT Meetings

- The SOT must meet monthly while school is in session.
Use online tools, such as Google Meet or other tools that allow for members to participate in the meeting.
- Meetings must occur outside of the licensed and support professional contract time.
- The date, time, location, and meeting agenda must be posted on the school website at least three working days in advance.
- Extra communication efforts and more advance notice may assist school community members prepare for the meeting.
- All meetings must be open to the public and include time for public comment.
- Virtual meetings should also be open to the public. Ensure to facilitate time for public comment through the tool, the tool's chat feature, or by email in advance or after the meeting.
- In accordance with FERPA, confidential student information should never be shared publicly.
- A quorum is required in order to vote to act on an item.
- A quorum means that the majority of SOT members are present.
- An action is any recommendation the SOT makes to the school principal regarding the Plan of Operation.
- The SOT should consider how to meet the needs of non-English speaking parents/guardians and community members during the meeting.

As always, training and resources for SOTs can be located at reorg.ccsd.net.

Student Aides

Schools are not permitted to utilize student aides in the health office. Student aides are permissible in other assignments within the school; however, student aides are not permitted to circulate through the school delivering items, messages, etc. Student aides must remain within their assigned location.

Vendors and District Support Providers

Vendors will only be permitted on schools and sites if the specific task and/or service cannot be completed virtually. Vendors permitted on schools and sites will be required to make an appointment and follow all District safety protocols.

Student Chromebook Use Between Home and School

As students will be participating in face-to-face instruction and distance education with the utilization of Canvas and other technology tools; therefore, all students will transport Chromebooks between home and school. There may be situations in alignment with health and safety protocols that require a cohort and/or school to transition to full-time distance education; therefore, students must have their Chromebooks to seamlessly transition from the hybrid instructional model to full-time distance education, as necessary.

Supporting Students with Individual Education Programs

IEP Guidance

Students with disabilities must be provided equitable access to instruction. The following practical guidance is provided for school personnel regarding the District's obligation to provide a free and appropriate public education (FAPE) to students with disabilities.

Additional support and guidance may be accessed through the special education personnel serving in the Region Support Teams.

Services for Students with Disabilities During the 2020-2021 School Year

The District must provide special education and related services to students with disabilities in accordance with the student's IEP and provide reasonable accommodations in Section 504 Accommodation Plans. Based on the instructional model, all services may not be able to be provided in the same manner as typically provided. School teams and parents/guardians are encouraged to work collaboratively and creatively to support the components of a student's IEP or Section 504 Accommodation Plan.^{xxii}

Delivery of Equitable Access to Educational Opportunities

- School staff should consider alternative ways to provide equitable access and appropriate educational opportunities for students with disabilities, including exploring all available supplementary aids and services and related services to include online or virtual platforms, and/or other activities, such as paper/pencil activities.

Documentation of all efforts to provide equitable access to educational opportunities is required.

- Special education teachers must document that the student is receiving his/her specially designed instruction through the approved instructional model on the status record.
- Related service providers must continue to follow current procedures to document services provided.

Pivoting Service Delivery Based on the Instructional Model

A complete revision of the student's IEP is not immediately necessary. In order to facilitate an efficient change to the approved instructional model, case managers must develop a prior written notice instead of a full IEP meeting to inform parents/guardians of the change regarding

the instructional model. The priority of face-to-face classes should be based upon the student’s individual needs and the parent’s/guardian’s priorities when possible.

Case managers must contact the parent/guardian by telephone or email to discuss:

- The approved instructional model.
- The anticipated five-day schedule.
- The determination of the face-to-face classes are at the discretion of school.
- The priority of face-to-face classes.

Upon assignment to a face-to-face cohort, parents/guardians will be provided with prior written notice indicating:

- When and how IEP services will be provided, and that an IEP meeting will be held before the conclusion of the 2020-2021 school year to discuss options for specially designed instruction, based on the approved instructional model.
- CCF-563 prior written notice indicating under:
 - Proposed Action(s): A description of the services and how they will be delivered based on the approved instructional model to include the class schedule, including the subject, day, time, synchronous instruction, asynchronous instruction, and location.
 - The CCF-563 may reference an attached document due to the lack of writing space in the form.
 - If the parent’s/guardian’s choice of the hybrid instructional model or full-time distance education cannot be accommodated, then include a statement of why that option could not be provided.

By the end of the 2020-2021 school year, case managers will hold an IEP meeting to develop placement and specially designed instruction for each phase of reopening. IEPs will be written to include specially designed instruction language for all instructional models.

All annual IEPs must be held according to schedule.

Pivoting Between Models

In the hybrid instructional model, a student’s ability to transition between classes and rooms is determined by applicable safety protocols.

- Students can transfer between the hybrid instructional model and the full-time distance education models only within Board approved timeframes.

- For students who remain in full-distance education, service should be implemented as written in the IEP. The IEP team can consider, through an IEP meeting, if the data supports changes to the services.

IEP Procedures and Components to be Completed by the End of the 2020-2021 School Year

In order to document the change to the hybrid instructional model, schools must develop a revision or annual IEP to account for potential changes to the delivery model. For many students, a revision will only affect the specially designed instruction section of the IEP. To eliminate the need for additional IEP development and to develop an IEP which would contain a complete picture of the student’s ability to access educational services both face-to-face and distance education, IEP revisions will need to be completed by the end of the school year, unless the student’s annual IEP is due sooner. The guidance below provides further guidance to standard operating procedures.

- All IEP meetings shall be conducted virtually.
- If the school cannot contact the parent/guardian to schedule an IEP meeting, the school will follow standard procedures.
- Nothing in this section precludes the ability to hold an IEP meeting for any other reason.
- ***Present Levels of Academic Achievement and Functional Performance***
IEP teams must include any data collected, including any deficit areas, behavioral data, the effectiveness of accommodations, etc.
- A case manager or related service provider must provide how instruction is scaffolded or the background knowledge needed for the student to complete the assignments aligned to the Nevada Pre-K Standards or the NVACS/Connectors and goals and benchmarks/objectives. A case manager or related service provider must also review and address student work and/or finished assignments, checking for understanding and accuracy, adapting content, methodology, and/or instruction to the needs of the student.
- The IEP should also include input from parents/guardians regarding difficulties with the student’s compliance with rules related to social distancing, wearing face coverings, washing hands, and other safety protocols.

Goals and Benchmarks/Short-Term Objectives

- Should be based on the current present levels of academic achievement and functional performance.

- Based on prior goals and benchmarks/objectives, the team should consider the student’s anticipated progress for the remainder of the annual IEP.
- Annual goals should include developing and/or maintaining skills needed in the instructional models, such as:
 - Wearing face coverings.
 - Maintaining social distances.
 - Washing hands and other safety protocols.
 - Accessing and participating in distance education.

Specially Designed Instruction

- Indicate all three models available:
 - Full-time distance education (current placement)
 - Hybrid instructional model
 - Full-time face-to-face
- Annual IEP dates should be used for each option.
- The specially designed instruction page should reflect direct instruction per area of need by a special education teacher, related services staff, and/or a support professional. IEP teams must continue to indicate for distance education, both synchronous and asynchronous time.
- Transition Community-Based Programs Specially Designed Instruction Guidance^{xxiii}.

Supplementary Aids and Services

- The IEP should include a statement that the District will implement the approved instructional model.
- Teams need to identify supplementary aids, accommodations, and accessibility features of online programs utilized in distance education.
- Teams should consider developing a behavioral intervention plan to assist students in accessing classes in each stage of the reopening process.
- Teams should consider supplementary aids/accommodations for the following:
 - Wearing face coverings.
 - Maintaining social distances.
 - Washing hands and other safety protocols.
 - Accessing and participating in distance education.

Related Service

- The number of related service minutes includes the amount provided through face-to-face therapy or teletherapy.
- Indicate all three models available:

- Full-time distance education (current placement)
- Hybrid instructional model
- Full-time face-to-face
- Annual IEP dates should be used for each option.
- If the student has difficulty accessing services virtually, teams should develop a plan to provide the student’s related services face-to-face.

Placement

- In addition to all other necessary statements in the justification statement, the IEP team should state the student’s placement was made due to the ongoing COVID-19 pandemic, and the IEP will be implemented through the approved instructional model. A student’s placement is based upon whether the class is a general education class, self-contained, or a resource classroom, not whether the class is in school or online.
- The percentage of time in the general education environment includes both classes in school and online classes.

Data Collection

Teachers must complete progress reports, as indicated in the students' IEPs. Additionally, staff must collect ongoing progress monitoring data and document time spent addressing students' goals as is standard practice based on the approved instructional models. Example tools for progress monitoring and documenting time spent are provided to teachers.^{xxiv}

Multi-Disciplinary Teams and Reports

All evaluations, reevaluations, and assessments must proceed without unnecessary delay. Evaluation preparation work and indirect assessments will be maximized wherever possible, including reliance on existing evaluation data, notices and scheduling, completion of parent/guardian and staff interviews and rating scales, and reliance on student observations by school staff. In order to maintain social distancing standards, related service personnel are restricted from entering classrooms for observational purposes. Consequently, other options need to be explored and utilized (e.g., observations by teachers and related service providers delivering push-in services, observations during online classroom activities). Direct assessments administered to students will be completed as needed by appointment to limit the amount of time students are away from instruction.

All multi-disciplinary team (MDT) meetings shall be conducted virtually or by phone. Staff are encouraged to virtually share drafted MDT reports and eligibility forms during these virtual meetings. Verbal agreement to eligibility determinations made by each member of the team is

acceptable. Finalized MDT documents may be provided to the parent/guardian via email or U.S. Mail as soon as possible after the conclusion of the meeting.

Transitioning from the initial eligibility meeting, school personnel should review the CCF-556, Initial Provision of Services, with the parents/guardians and ask for permission to implement the services if they are unable to obtain a signature. School personnel should document in the status record that permission was obtained orally due to instructional model restrictions related to COVID-19. Finally, school personnel should obtain signatures for the CCF-556 as soon as possible upon the reopening of schools.

Section 504 Accommodation Plans and Meetings

Section 504 of the Rehabilitation Act of 1973 prohibits discrimination based on disability in any program or activity operated by school districts. Requests for disability-based accommodations, including medical-based accommodations, should be addressed as soon as practicable, to ensure Section 504 eligible students are provided equitable access to all portions of the approved instructional models. All staff should be aware of the accessibility features of online programs utilized in distance education. Section 504 teams should also use due diligence to determine eligibility based upon the information presented by the parent/guardian and the school personnel. Teams should determine the appropriate accommodations available to include distance education resources. All Section 504 meetings must be held virtually or via telephone.

- Students who need a Section 504 plan must be identified without unnecessary delay.
- The Section 504 liaison must:
 - Review all Section 504 plans.
 - Where appropriate, convene a Section 504 team meeting to discuss any additional accommodations related to approved instructional models:
 - Wearing face coverings.
 - Maintaining social distances.
 - Washing hands and other safety protocols.
 - Accessing and participating in distance education.
 - Ensure that all Section 504 plans are entered into the Infinite Campus system.

Homebound Information

In-person services for students who must be educated in the home must be conducted in compliance with all applicable health and safety protocols.

- When appropriate, convene, and review homebound IEPs.

- All students should be included in the homeroom teacher contact procedures even if they are on homebound status.
- It is the home school's responsibility to provide a technology device for students to access instruction.

All requests for homebound services should follow previously established procedures. If a parent/guardian requests homebound, please consider the following options:

- Follow the homebound application process.
- Place in full-time distance education.
- Consider developing a 504 plan.
- Consider supplemental health services for a student on an IEP or 504 plan.

Physical Restraint

All District staff must continue to comply with all legal requirements related to physical restraint and aversive interventions. The failure to wear a face covering, to maintain social distancing, or to comply with any other safety protocols is not a justification to restrain a student.

Discipline for Students with Disabilities

All legal requirements related to the discipline of students with disabilities apply. Schools must hold a manifestation determination review meeting prior to the tenth day of removal from school. Placing a student in full-time distance education or removal from the class virtually or face-to-face for any disciplinary reason is a removal. Failure to maintain social distancing, wear a face covering, or comply with safety requirements does not constitute serious bodily injury, which would justify a removal from school for 45 days.

Delivering Inclusion Time in the Classroom

Adapted PE

- Students with disabilities are scheduled to attend PE classes the same as typical peers.
- Adapted PE supports access to the general PE curriculum for students with disabilities. Students with disabilities access PE with same-aged typical peers in an inclusive general PE class.
- Students receiving Adapted PE services are supported in a general PE setting with typically developing peers.

Academics

A student’s IEP will determine the amount of inclusion time- and pull-out time. IEPs must be followed.

- Special education teachers will collaborate with general education teachers to establish times for implementing IEPs in the general education setting, as well as coordinate any pull-out time.
- Support professionals may be used to deliver the inclusion time during general education face-to-face or synchronous time.
- It is recommended that students be grouped for common resource time in specific subjects to increase efficiency.
- Best practices include placing resource and inclusion time for each grade level on the master calendar. This will allow consistency and certainty that all IEP specially designed instruction minutes are being met.

Itinerant and Related Services

Service provision of mandated IEP services by itinerants, support professionals, and related service providers

Related Service

- Related service personnel (speech-language pathologists, occupational therapists, physical therapists, psychologists, audiologists, and nurses) will provide services to students in non-self-contained classrooms during distance instruction (asynchronous time) or face-to-face instruction as requested/indicated.
- Related service personnel can provide in-class services to students in self-contained classrooms during face-to-face instruction and during distance education.
- SSD personnel will document dates and times of school buildings and classrooms being utilized to serve students to support contact tracing.
- Related service personnel will limit travel between school sites to one school site per day.
- Related service will adhere to approved procedures for handling equipment, equipment storage, and protocols for sanitizing equipment.

Related Service Space and Procedures

- Ensure a space large enough for personnel that are sharing a space, request individual spaces for each related service member, or continue the use of an ‘assessment area’ where personnel go to assess students considering the health and safety of staff.

- School is to provide/replenish appropriate PPE to related service personnel. If additional PPE is needed, schools may contact SSD and specify what additional PPE is needed. Only designated related service staff are required to wear N95 masks (Fit Testing is required and facilitated by the Risk Management Department).
- In addition to wearing a face covering, evaluators, students, and parents/guardians will be required to maintain six feet social distancing space.

Assistive Technology

- To the greatest extent possible, assistive technology (AT) services, including assessments, will be conducted virtually. Parents/guardians will be invited to participate virtually.
- When virtual support is not practical or appropriate, a face-to-face model will be utilized. Face-to-face support will comply with COVID-19 protocols and the practices of the school.
- All teachers should be aware of the AT devices and services that are documented in IEPs. Devices will be provided in compliance with IEPs. For devices that will be placed in the student’s home, parents/guardians will be required to sign the *Assistive Technology Services Equipment Sign-Out Sheet / Parent Loan Agreement* form.
- AT personnel can attend virtual classes to mentor and coach teachers and parents/guardians in the implementation of devices.
- Itinerant Instructors are assigned to serve as a liaison for any matters pertaining to AT.
- Professional learning and parent/guardian support/training will be accessible in a variety of formats/timeframes including “live” virtual sessions, pre-recorded sessions, and after contract hours “live” virtual sessions.
- Case managers and parents/guardians should consult with their assigned AT liaison to access appropriate virtual supports to implement accommodations and modifications as recorded in the IEP.
- To the greatest extent possible, technical issues will be resolved remotely.
- The AT website contains guidelines for acquiring AT, implementation strategies, professional learning opportunities, and virtual resources.

Adapted PE

- Itinerant adapted PE teachers will provide direct instruction in a general PE setting with typically developing peers.
- Itinerant adapted PE teachers will follow the SNHD and District safety protocols when accessing school campuses and District offices.

- Itinerant adapted PE teachers will adhere to approved procedures for handling equipment, equipment storage, and protocols for sanitizing equipment. Itinerant staff will maintain and disinfect personal automobiles daily.
- Adapted PE assessments will be conducted, as much as possible, in the PE setting. Parents/guardians will be invited to assist virtually, if needed. All SNHD and District safety protocols will be followed during assessment and will change/update as guidelines change.

Vision Services

- Vision services teachers, specialists, and assistants will follow the SNHD and District safety protocols when accessing schools and District offices.
- The Vision Services Department will adhere to approved procedures for handling equipment, equipment storage, and protocols for sanitizing equipment.
- All assistive technology will be accessible to students per their IEP.
- Teachers of the visually impaired and orientation and mobility specialists will provide direct and consult services as indicated in the student’s IEP using face-to-face and/or virtual asynchronous and synchronous instructional methods.
- Vision services assessments will be conducted, as much as possible, on the school campus. All COVID-19 protocols will be in place during assessments and will change/update as guidelines change.

School-Based Individual Intervention Services

- During distance education and the hybrid instructional model, school based-individual Intervention Service continues to be a short-term, supplementary service to increase learning to learn behaviors.
 - Services will include both direct and consultative services.
 - Services address the goals and benchmarks identified in the IEP relating to behavior, communication, and social skill areas.
- Face-to-face instruction includes:
 - Direct, in-person instruction when students are present at school.
- Synchronous session support for distance education includes:
 - Assistance with data collection.
 - Assistance with prompting strategies to increase engagement.
 - Provision of reinforcement as needed at the direction of the classroom teacher.
- Consultation support includes:

- Weekly consultation with classroom teachers via email, phone or video conference.
- Staff will discuss concerns and make recommendations for student improvement.
- Parent/guardian school communication:
 - Progress reports issued by the Linking Instructional Needs and Key Supports (LINKS) Team in alignment with IEP progress reporting.
 - Progress reports sent via email to the classroom teacher to place in the student’s confidential file and a copy to be provided to parents/guardians.
 - Parents/guardians can contact the LINKS Team to discuss school based-individual intervention service questions or concerns.

Deaf and Hard of Hearing Itinerant Teachers

- Deaf and Hard of Hearing (DHH) itinerants will follow the SNHD and District safety protocols when accessing schools and District offices.
- DHH itinerant teachers will provide direct and consult services as indicated in the student’s IEP using in-person and/or virtual asynchronous and synchronous instructional methods.
- DHH assessments will be conducted, as much as possible, on the school campus. All COVID-19 protocols will be in place during assessment and will change/update as guidelines change.

Self-Contained Teacher Absence

If a substitute does not select a job when a teacher is absent, classes cannot be combined; therefore, some possible solutions include:

- Preparation period buy for teachers, which must be completely voluntary by the teacher. Schools must ensure that detailed emergency plans and information are available.
- Create an emergency team that involves multiple people to provide coverage.
- Coverage by the special education instructional facilitator.

Student Equipment

- Assistive technology devices will require cleaning in compliance with COVID-19 protocols.
- Related service personnel will deliver and retrieve devices/equipment directly to the teacher, student, and parent/guardian if indicated. Personnel will refer to individual departments for specific procedures regarding device delivery, handling, training, and will follow cleaning guidelines to clean the equipment.

- If a student needs occupational and/or physical therapy equipment at the school and at their home, the special education instructional facilitator or case manager will contact the occupational and/or the physical therapist assigned to their school.

Community-Based Instruction

Students will work on their community and prevocational social skills virtually and alternatively within the hybrid instructional model.

Social and Emotional Learning and Wellness

Schools are in a unique position to create a safe and supportive learning environment for all students. Students have had inconsistent academic and behavioral expectations for several months. It is important to remind staff that a constant focus on relationship building with students must occur.

This framework requires that all schools utilize site-based teams and mental health professionals (i.e., school counselors, school social workers, safe school professionals, school psychologists, and school nurses) in the planning, development, and implementation of support during the hybrid instructional model.

Multidisciplinary Leadership Teams

The purpose of the MLT is to utilize the Multi-Tiered System of Supports (MTSS) framework, including teaming, collaborative problem solving, high-quality standards-based instruction, balanced assessment system, evidence-based interventions, tiered continuum of supports, and systemic implementation, to promote the social and emotional wellbeing of all students.

Required Components

The required components provided below are essential for an effective MLT to promote the social and emotional wellbeing of all students.

Team

The MLT includes school administrator(s), school counselor(s), school social worker(s) or safe school professional(s), and educator(s). Additionally, the team may include the special education instructional facilitator, school psychologist, school nurse, and other designated staff as members and consultants based on availability and the unique needs of each student. Schools may have teams already established, such as School-Based Intervention Teams and Response to Intervention Teams that may fulfill the functions of the MLT.

- Identify a lead to coordinate members.
- Identify team members.
- Establish the roles and expectations of each team member.
- Schedule and conduct weekly meetings.

Systematic Implementation

Establish a systematic implementation for identifying students' needs using the components of a balanced assessment system, including multiple academic and social-emotional-behavioral

data points, and collaborative problem solving to make evidence-based intervention decisions aligned to a tiered continuum of supports.

- Create a centralized tracking system to document student referrals and action steps (e.g., Google Sheets, SISP Module).
- Collect and analyze multiple academic and social-emotional-behavioral data points to make evidence-based intervention decisions relative to the needs of each student.
- Evaluate academic and social-emotional-behavioral supports to further build a tiered continuum of supports in Tier I, Tier II, and Tier III.
- Ensure timely documentation of actions using the centralized tracking system.

Communication

Consistent communication among members of the MLT and parents/guardians is essential to closely monitor students’ progress and consider potential changes for interventions and support to increase students’ success.

- Obtain staff feedback on a regular basis to inform the responsiveness of meeting the needs of students.
- Promote open communication between core members of the MLT, as well as with consultant members and staff, as needed.
- Establish timely and ongoing communication with parents/guardians.

Multidisciplinary Leadership Team Academic and Social-Emotional Behavior Data Points

The balanced assessment system includes formative, summative, and benchmark assessments that occur throughout the school year. The MLT uses multiple assessments and data sources to promote the social-emotional wellbeing of all students. Multiple data points and tiered supports representing academics, attendance, and behavior are provided below and teams may expand these data points and tiered supports, as appropriate, depending on individual student needs.

Academic and Social-Emotional Planning Process

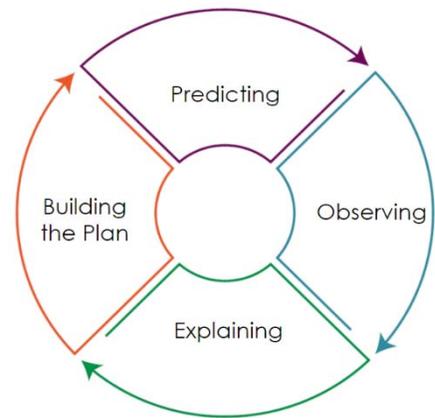

A systematic method to analyze the multiple data points to promote the academic and social-emotional wellbeing of all students includes collaborative problem solving.

PREDICT: What do you think you will see in the data?

OBSERVE: What do you see in the data? What is the data telling us about students?

EXPLAIN: What are some possible explanations for what you see? What is happening in the environment that may influence student behavior or performance?

ACTION: What will you act on? What actions will you take? How can the school environment change to meet the needs of students?

Academics		
Data Points	Guiding Questions	Supports
<ul style="list-style-type: none"> • MAP Growth • Universal Screener(s) • Diagnostic Assessment(s) • Summative and Formative Assessments • Cumulative Grades • Significant Changes in Academic Performance • Assignment Completion • Engagement in Synchronous/Asynchronous Instruction • Student Schedule • Student Interest Surveys/Interview 	<ul style="list-style-type: none"> • How has the student’s assignment submission/quality of the work changed? • Has there been a change in student workload/assignments, assessment type, and/or teachers? • Does it appear there are certain courses in which the student is performing well? • Are there certain assignments the student is completing? • Have there been opportunities for the student to re-take any assessments or re-do any assignments to demonstrate mastery? • What are the parent’s/guardian’s ideas/suggestions/thoughts about the student’s current performance? Was it a positive or negative contact/interaction with the parent/guardian? • Has there been a change in the student’s academic status/ranking? • Does the student actively participate in synchronous instruction? • Is the student satisfied with their current learning/grades? • What is the disconnect between interim test results and grades? • Is the student receiving the appropriate ELL, 504, or IEP supports and accommodations? • What is the grading scale used at your school? Is it consistent across the school? If it were different, would the student be failing? 	<ul style="list-style-type: none"> • Contact the parent/guardian. • Implement differentiated instruction in Tier I to meet the needs of students. • Provide interventions in Tier II or Tier III targeting specific areas of skill deficit. • Provide opportunities for students to re-take exams and quizzes to demonstrate mastery. • Provide opportunities for students to complete and submit missing assignments. • Provide students an opportunity to re-do without consequences. • Provide small group/one-to-one support during office hours. • Encourage the use of study partners/peers. • Assign the student an adult or student mentor. • Provide extra academic support during virtual office hours. • Enact language development supports.

Behavior		
Data Points	Guiding Questions	Supports
<ul style="list-style-type: none"> Engagement in Synchronous/Asynchronous Instruction Camera Usage during Synchronous Instruction Video Replay Usage during Asynchronous Instruction Submittal of Classwork: On Time, Late, or No Work Submitted Atypical Changes Associated with Student Appearance/Behavior Concerns from Teachers, Parent/Guardian, or Peers Beacon/Go Guardian Alert or Safe Voice Tip Social-Emotional-Behavioral Universal Screener Self-assessment Survey Student Satisfaction through Surveys/Interviews 	<ul style="list-style-type: none"> Have you noticed a lack of motivation to log in and complete assignments? What motivates the student? Has the student decreased their engagement in the classroom (decrease of completing assignments/quality)? Has the student made any concerning comment(s) during a lesson(s)? Does the student feel pressured to turn their camera on for lessons? Does the student struggle understanding the content that is being covered in the lesson(s)? Does the student state his/her participation is important? Does the student feel they have support at home/school? Are there outside factors as to why the student cannot concentrate on his/her schoolwork? Who on your staff has a relationship with the student/family who could assist? Where has the student felt successful in the past? How is the student reacting differently with his/her peers? When was the last time you met with the student? With the parent/guardian? How is the student being challenged academically? Has access/connectivity changed for the student? Are there any concerns of alcohol or drug involvement? What life changes with friendships may have happened (i.e., relationships)? 	<ul style="list-style-type: none"> Contact the parent/guardian. Conduct wellness checks and screenings. Conduct social emotional learning group assignments. Utilize the Virtual Group Guidance. Use the School Counseling Planning Guide. Refer to community-based assistance. Consult with Crisis Response, if needed. Call the Mobile Crisis Team at (702) 486-7865, if needed. Review the Community Provider Resource Guide. Utilize the Behavior Improvement Plan. Provide a referral to The Harbor.

Attendance		
Data Points	Guiding Questions	Supports
<ul style="list-style-type: none"> Attendance Patterns^{xxv} Chronic Absenteeism Significant Changes in Attendance Sporadic Attendance Attendance Patterns: Certain Courses and/or Time of the School Day Grades Noticeable Change in Work Production/Submission 	<ul style="list-style-type: none"> How has the student's attendance recently changed? How has the student's attendance changed since the implementation of distance education? Do you notice any trends in attendance? Is the student absent on specific days? Has information been shared from other teachers, parents/guardians, or peers focusing on a root cause for the change in the student's attendance? Does it appear that there are certain courses the student is absent for during the day? Has there been some type of change/circumstance in the student's household that may have led to a change in attendance? Are there particular students or staff members who serve as a mentor or positive anchor point for the student? Does the student participate in any clubs or activities that would connect them to the school? Has there been any connectivity access challenges? 	<ul style="list-style-type: none"> Contact the parent/guardian. Collect resources for chronic or sporadic attendance. Conduct wellness checks. Conduct home visits. Contact teacher(s) or other educator(s). Consult with the Office of Attendance Enforcement. Assign a staff/student mentor. Provide a referral to The Harbor. Provide attendance incentives. Implement attendance accountability check-ins.

Supporting Social and Emotional Wellness with Community Partners

The MLT will be supported by nonprofit partners, coordinated by the Elaine P. Wynn & Family Foundation, in the *Lifeline* pilot program. *Lifeline* is being initially implemented at approximately 11 schools with the goal of protecting, fortifying, and strengthening students' social and emotional wellbeing by identifying and seeing them in-person, assessing their needs, and tailoring tiered interventions, responsively and proactively.

The program assumes:

- Virtual connection is important but not sufficient to assess and address mental health needs. We need to 'lay eyes on children' to properly

assess and intervene and, when necessary, case manage students and families experiencing challenges which often manifest as mental health emergencies.

- Beyond responsiveness to children in crisis Lifeline will strive to proactively identify children before crisis occurs, relying upon daily student observation checklist and a universal screener.
- Safety of staff and students is an uncompromisable priority.
- The centerpiece of Lifeline is each school's MLT. As essential workers, they will report to work at school as soon as possible.
- Lifeline will create protocols to ensure uniformity and consistency in processes implemented by schools.
- Piloting Lifeline at 11 schools will allow revision and refinement of protocols and practices in real time before scaling.
- Children in crisis belong to families in crisis, therefore, Lifeline will offer wraparound services to children and their families, in partnership with nonprofit organizations and government agencies.
- Lifeline will conscientiously track data and use it to improve and evolve the initiative.
- With Lifeline in place, a campaign to inform students, families, and the community that help is available at school will be essential to proactively address ongoing social-emotional needs of students.

Relationship Building and Recognizing Trauma

The following recommendations may assist with relationship building and recognizing mental health concerns and trauma with students.

- Focus on positive and effective interactions within MTSS.
- Follow the MTSS framework when assessing students' social-emotional wellbeing and identify needs for additional support.
 - Implement Tier I – Evidence-based, high-quality social and emotional teaching and prevention.
 - Implement Tier II – Interventions to provide supports for students who show signs of mental health concerns, including trauma.
 - Implement Tier III – Supports and interventions to provide targeted intervention for identified students.
- View behaviors through a trauma-informed lens and as potential signs of deficits in regulatory skills potentially emerge; provide a prolonged adjustment period.
- Implement culturally responsive practices using an asset-based lens.

- Adults working with students should develop ways to empower students and provide unconditional positive support to build trust. Take the extra time necessary for building relationships.
- Continue, develop, and/or expand restorative practices.
- Recognize the potential for higher rates of adverse childhood experiences^{xxvi} and/or stressors during school closures, and underreporting of those stressors, that may put students at higher risk of trauma.

Wellness Check Teams

Many families and students may remain overwhelmed with the intense emotions they have experienced. Some may be unable to manage these emotions effectively, and students' attendance and course progression may potentially be affected. Schools will provide the necessary supports for families and students with the implementation of wellness checks.

- Schools will identify a Wellness Check Team consisting of a site administrator, licensed educator, and registrar/clerk. Other members of the team may consist of an administrative assistant, office manager, school-based counselor(s), school social worker(s), and/or safe school professional.
- Licensed educators will make student contact on a daily basis, but a wellness team intervention may be required when gaps in attendance occur.
- Educators can offer families community resources and assist families with problem-solving regarding why students have not been attending or progressing in school. The educator can use the information gathered to identify students who might need additional assistance from a site administrator, school counselor(s), school social worker(s), or safe school professional and communicate this information to their supervisor or by submitting a referral using the Specialized Instructional Support Personnel (SISP) referral in Infinite Campus.

Wellness Check Guidelines

During COVID-19, the continued use of wellness checks is extremely important. Staff should use a structured interview format during a check-in session. The format should begin with general questions and then additional, more specific questions can be phased in. As students and families may be struggling during these times, it is vital staff build relationships with the students and continue to make contact to provide resources and support.

Wellness check-ins may be done virtually or in-person. For in-person visits, staff must follow all health and safety guidelines.

Some schools may choose to conduct wellness checks using home visits for students they are unable to contact via the telephone or through distance education protocols. Schools may contact District attendance officers to conduct wellness check home visits or they can also create a small school team to conduct the visits.

Wellness Check Home Visit Procedures (Recommended)

- Always go, at a minimum, in pairs.
- Take separate cars. It is important to not drive together and adhere to safety guidelines.
- Appropriate PPE should be worn at all times (gloves, masks, etc.).
- Long-sleeve shirts should be worn at all times.
- Communicate with the family and student regarding the nature of the visit.

Phase One Questions (The questions may be asked to the parent(s)/guardian(s) or to the student.):

- How are you and your family doing today?
- How have you been feeling?
- Have you been connecting with your friends?
- What questions do you have about school?
- Do you have any questions about the pandemic and how it is affecting your school day?
- Are you able to access the Internet?
- Is your Chromebook working properly?
- Have you had any concerns with technology that has limited your ability to get your work done?
- Have you been able to keep up with your coursework and assignments?

Phase Two Questions (The questions may be asked to the parent(s)/guardian(s) or to the student.):

- What concerns do you have that might limit your child’s ability to engage in learning activities?
- What kind of hobbies/interests have you been participating in?
- Is there anything that concerns you or your child regarding your daily lessons?
- Is anyone in your family ill or have been diagnosed with COVID-19? Is anyone suffering medically?
- Are you in need of any supplies or groceries?

- Is your family doing okay during these times?
- Do you feel comfortable in your home environment?
- Is there anything specific that is causing you stress during these times?
- What can I do to better support you and your child today?

Once finished with the screening, reaffirm the District’s two-way communication guidelines and emphasize to the parent/guardian that the student actively participates in school. It is important to remain in contact with the student’s instructors on a regular basis.

Mental Health – Full-Time Face-to-Face

- Reestablish the Mental Health Leadership Team. This should also include the Crisis Response Team.
- Review the responsibilities with the team.
- Find common days where team members are on campus or establish a backup plan when coverage is needed.
- Focus on positive and effective interactions within MTSS.
- Follow the MTSS framework when assessing students’ social-emotional wellbeing and identify needs for additional support.
- Implement Tier I – Evidence-based, high-quality, social-emotional learning teaching and prevention.
- Implement Tier II – Interventions to provide supports for students who show signs of mental health concerns, including trauma.
- Implement Tier III – Supports and interventions to provide targeted intervention for identified students.
- View behaviors through a trauma-informed lens and as potential signs of deficits in regulatory skills potentially emerge; provide a prolonged adjustment period.
- Implement culturally responsive practices using an asset-based lens.
- Adults working with students should develop ways to empower students and provide unconditional positive support to build trust. Reestablish or build rapport.
- Continue, develop, and/or expand restorative practices.
- Recognize the potential for higher rates of adverse childhood experiences (<https://www.cdc.gov/violenceprevention/childabuseandneglect/acestudy/index.html>) and/or stressors during school closures, and underreporting of those stressors, that may put students at higher risk of trauma.

Supporting English Language Learners

Guidance for English Language Learners

As prescribed by federal and state law, schools have a responsibility and accountability to address the academic needs of ELLs. Schools must:

- Provide services for ELLs.
- Consider and deliver services for ELLs to meet their English language development and academic achievement needs.
- Communicate proactively with the parents/guardians of ELLs.

Instructional Supports and Resources for Educators

Language development can be supported through both face-to-face instruction and distance education by integrating learning activities connected to the four language domains. Educational opportunities should focus on the four language domains, including reading, writing, listening, and speaking to support ELLs with continued language development. Each domain targets specific skills in developing students' language proficiency. WIDA established language development standards that represent the language students need to be successful in early childhood programs and Grades K-12. School personnel may reference the WIDA development standards at K-12 English Language Development Standards^{xxvii}.

ELLD has created an ELL Teacher Canvas course^{xxviii} to provide the following:

- Pre-recorded videos with tips and tricks for supporting ELLs.
- Access information to the interactive ELL Google Classrooms: Instruction for Educators that provide:
 - Ideas for daily activities to engage in reading, writing, speaking, and listening.
 - Interactive coaching opportunities for educators for supporting ELLs.
 - Resources and instructional recommendations to promote language development and differentiating support.
- Access to ELLD professional learning opportunities focused on differentiated supports for ELLs.^{xxix}

ELLD provides services and support for the educational achievement of ELL students. In addition to providing districtwide professional learning, ELLD provides school-based targeted support to meet the needs of all educators to improve student outcomes and close the achievement gap. Schools can contact their Region Support Teams for direct educational and technical assistance.

- Region Support Team members will conduct virtual observations and meetings in response to service requests, as much as possible.
- Team members will follow all CDC guidelines when reporting to schools and District offices.
- If in-person service is required, Region Support Team members will report to no more than one school per day.

As an extension to daily instruction, ELLD will partner with schools to facilitate virtual language acceleration programs that focus on building students’ social and academic language in the four language domains. Enrichment opportunities in each language domain are offered for ELLs to:

- Hear, process, and interpret spoken text (listening domain).
- Communicate ideas verbally (speaking domain).
- Interpret and understand written text (reading domain).
- Express thoughts and opinions through written communication for a variety of reasons and audiences (writing domain).

Instructional Supports and Resources for Families

ELL Parent/Guardian Canvas Course

ELLD supports and provides assistance for all ELLs and families to maximize language development.

- Access information to interactive Google Classrooms.
- Pre-recorded parent/guardian workshops to support learning in the hybrid instructional model.
- Communication is provided in multiple languages.

ELL parent/guardian workshops are available to support learning upon school request.

Newcomer Message Line

Newcomer students and families can call the Newcomer Message Line at (702) 799-0800 and leave a message regarding guidance and support opportunities for continued student learning. Calls will be returned in 24 hours. Support is available in the following languages: Amharic, Arabic, Bengali, Dari, Farsi, French, Hindi, Kinyarwanda, Lingali, Pashto, Spanish, Swahili, Tigrinya, and Urdu.

Compliance

Title III provides funding for supplemental services and instructional supports for ELLs. ELLD will continue to work collaboratively with schools to guide how Title III funding can be leveraged to support the hybrid instructional model. Supports include, but are not limited to:

- Language enrichment and acceleration programs for students.
- Professional learning and coaching.
- Instructional rounds.

Senate Bill 467 requires Zoom schools to provide Pre-K programs, reading skills centers, professional learning, parent/guardian engagement, and extended instructional day for students.

During the hybrid instructional model, schools must continue to meet the requirements of Senate Bill 467.

Assembly Bill 219 requires the principals of public schools that demonstrate low achievement of ELLs to establish corrective action plans. Specifically, the law states that based on the most recent annual report of the statewide system of accountability for public schools, schools rated in the lowest 30 percent of achievement for ELLs are to fulfill the corrective action plan requirement. During the hybrid instructional model, schools must continue to meet the requirements of Assembly Bill 219.

Attendance

Overall Procedures and Definitions

The Nevada Department of Education provided guidance regarding student attendance in Guidance Memo 20-05 and Guidance Memo 20-07. Using the information contained in the guidance, the procedures on the following pages have been established.

Teachers are expected to take attendance daily:

- Traditional attendance coding of P: Present, A: Absent, or T: Tardy will be utilized and enabled for face-to-face instruction at the school.
- For face-to-face instruction, determinations of student absent, present, and tardy status are made in accordance with CCSD Regulation 5113, Sections I and II.
- During distance education, teachers will utilize the new Virtual Attendance, indicating student participation. This tool resides in the same area of Infinite Campus, within the Teacher Instruction Tools (PATH: Campus Instruction > Control Center).

A student is considered present/participating for an attendance day and course based on the following definitions:

1. The student makes progress in their classwork leading toward mastery of the NVACS and/or a course's completion that can be verified through a learning management system or other means; and/or
2. The student participates in a real-time class session (e.g., attends the live Google Meet); and/or
3. The student meets with or otherwise communicates with a licensed teacher or licensed substitute teacher who is able to discuss the student's progress in the particular course.

Important Notes about Virtual Attendance Configuration

The Virtual Attendance settings allow for additional flexibility, not offered when implementing traditional attendance. These changes are outlined below.

Configuration Item	Traditional Attendance	Virtual Attendance
Number of previous days for a teacher to adjust student attendance.	Zero days - Teachers cannot make changes to attendance beyond the active day.	Seven days - Teachers can edit up to seven previous days of virtual attendance. This allows for a teacher to correct student attendance when an assignment may be completed later in the evening.
Attendance code ^{xxx} auto-populated nightly when a student is marked as absent or not checked for participation.	UNV - Unverified absence, reason unknown. This code is later updated following routine attendance procedures, collecting absence excuse notes.	DNP - Distance education non-participation. This code can be removed when a teacher verifies and indicates student participation. The code can also be updated later following routine attendance procedures and collecting absence excuse notes.

Taking Attendance

PATH: Campus Instruction > Control Center

On a designated attendance day, teachers will navigate to the path above in Infinite Campus. The teacher will review the sections scheduled to meet on the date and indicate the student attendance. Elementary teachers will continue taking attendance in AM and PM sections. Secondary teachers will take attendance in the sections scheduled to meet on that date.

Depending on cohorts, students in a section are divided into “Physical” and “Virtual” sections, as shown in the sample picture to the right.

1. The area labeled “Physical” is used for the days students are participating face-to-face instruction at the school site. For face-to-face instruction, determinations of student absent, present, and tardy status are made in accordance with District Regulation 5113, Sections I and II.
2. The area labeled “Virtual” is used for the days students are participating in distance education. Teachers will check the “Participation” box if a student meets any one of the present/participating criteria as defined by the Nevada Department of Education.

Teachers may continue to utilize the comment fields when taking attendance and may wish to do so to indicate “Contact Attempted” for students not marked as participants for the date and course.

By utilizing the new functionality, teachers can return to using the Teacher Contact Log as designed, prior to the school closures in March 2020.

Additional Attendance Resources

Additional resources are available for staff and parents/guardians related to procedures, expectations, and frequently asked questions.^{xxxi}

Student and Staff Movement within School Buildings

Arrival and Dismissal

School teams will develop and implement an entry and exit plan by assigning school staff duty stations to maintain student safety and supervision during arrival and dismissal.

Elementary Level

- School staff will be assigned gates and doors closest to their classrooms to supervise students and to eliminate congestion during arrival and dismissal. Staff conducting duty stations during arrival and dismissal will:
 - Supervise the hallways to ensure students are not congregating and that they are walking directly to their classroom.
 - Supervise the entry points (i.e., gates and doors) to ensure students are staggering their entry and exit.
- Students will be assigned specific gates and doors for arrival and dismissal, based on arrival and dismissal options (i.e., bus riders, walkers).
- It is important for school-wide hallway procedures for social distancing to be clearly defined and implemented.
- Bus lanes and pick-up and drop-off sites must be clearly marked with appropriate signage and reminders to socially distance and to ensure everyone is wearing a cloth face covering.
- Dismissal
 - During dismissal, students who ride the school bus will be dismissed last (i.e., after walkers) to ensure buses arrive after the bell.
 - School teams will develop assigned seating in the multipurpose room, with appropriate social distancing for students who are not picked up at dismissal.
 - Parents/guardians are not permitted on to the school campus (i.e., fields, blacktop) to wait for their children after school to eliminate crowds.

Secondary Level

Students will be assigned specific gates and doors for arrival and dismissal, based on arrival and dismissal options (i.e., bus riders, walkers, drivers). During dismissal, students who ride the bus will be dismissed last (i.e., after walkers) to ensure buses arrived after the bell.

Student-athletes will be dismissed to the cafeteria, socially distanced, to continue asynchronous instruction until the end of the teacher contractual day.

Considerations

Clearly indicate specific times for students who walk and/or drive to arrive on campus to ensure they do not interfere with the arrival of buses.

Ensure the parent/guardian pick-up and drop-off is not in the same area as the buses.

Secondary students cannot go to other schools and wait for their siblings to be dismissed. Arrangements will need to be made with families to mitigate this issue.

Passing Periods

Elementary Level

Teachers will escort students during transitions. Students will walk in a line, maintaining appropriate social distancing while walking forward. School-wide hallway procedures will be clearly defined and implemented.

Secondary Level

One-way hallway routes for passing will be developed with organized release times, utilizing outside passing to the fullest extent possible.

Breakfast

Elementary Level

Teachers will supervise their own students in the classroom for breakfast. Breakfast will be delivered to classrooms either by students picking up their breakfast coolers or staff delivering the breakfasts to the classrooms in baskets. Students will eat their breakfast at their desks.

Secondary Level

Food carts will be located at various entrance locations to allow students to grab their breakfast and report immediately to their first period classroom to eat.

Lunch

Elementary Level

During lunch and recess/brain break blocks, teachers will be matched to supervise students and to relieve each other for a 30-minute, duty-free lunch.

- Teachers will be assigned a partner (i.e., Teacher 1 and Teacher 2) based on proximity to a neighboring classroom, rather than a similar grade level.
- Teacher 1 will supervise the two classrooms for lunch, relieving Teacher 2 for their 30-minute, duty-free lunch.

- Students will remain in their classroom, eating lunch at their desks.
- Teacher 1 will monitor both classes from the doorway, limiting any close contact while masks are removed for students to eat their lunch.
- Support professionals will also be assigned areas to support with supervision.
- After 30-minutes, Teacher 2 will supervise both classes in the same manner for recess/brain break, relieving Teacher 1 for their 30-minute, duty-free lunch.
- Teacher 2 may supervise students during structured outdoor activities and/or indoor activities.
- Support professionals will also be assigned to support teachers with supervision during lunch and recess/brain breaks.
- Student lunches may be delivered to classrooms in coolers/bins or students may be escorted to the multipurpose room to grab their lunch, ensuring minimal contact of lunchroom services by pre-bagging meals.

Secondary Level

Food carts will be located at various exit locations to allow for students to grab their lunch as they depart campus. The cafeteria will only serve lunch for students who must remain on campus for sports and/or activities. All health and safety guidelines will be followed for students remaining on campus for sports and/or activities.

Restroom Protocols

Elementary Level

Students will use the restroom independently (i.e., no full-class restroom breaks will be permitted). Each classroom and/or grade will be assigned a designated restroom and appropriate signage will be displayed. Appropriate markers will be placed outside of the restrooms for students to socially distance until the restroom is available. Hall passes must be disposable (not shared by students) or not utilized at all.

Secondary Level

Students will use the restroom independently and teachers will only issue one restroom pass at a time. Each hallway and/or grade will be assigned a designated restroom and appropriate signage will be displayed. Appropriate markers will be placed outside of the restrooms for students to socially distance until the restroom is available. Hall passes must be disposable (not shared by students) or not utilized at all.

Logistics – Building Utilization

Elementary Level

Students will be assigned a personal workspace with personal instructional supplies (i.e., manipulative bags, individual sets). Desktop computers and computer labs will not be used. Students will use their District assigned device.

Secondary Level

Seating assignments will be required in each classroom and desks/tables cannot be utilized by another student until properly sanitized. Desks/tables will be properly distanced and clearly marked to indicate which desk should be used each period. Desktop computers and computer labs will not be used.

6. FOOD SERVICE

Food Service During Face-to-Face Instruction Days

The District received updated waivers from the USDA and CCSD will now be able to provide free school meals to all children 2-18 years of age through June 30, 2021. Meals will continue to be distributed under the Summer Food Service Program (SFSP) guidelines outlined by the United States Department of Agriculture (USDA).

School Breakfast Service

The Universal Free Breakfast Program will continue for the 2020-2021 school year. In adherence of the state's Phase 2 social distancing policy, meal consumption will occur in student classrooms. This will require desks and/or tables to be cleaned and sanitized before and after each meal. Breakfast service options for elementary and secondary schools are outlined below:

Elementary School Breakfast Service Option One (Student Pick-Up/Classroom Dining)

- Hot and cold menu options will be available.
- When the bell rings, students will line up on the playground by the classroom, maintaining six feet of distance.
- Teachers will lead classes into the multipurpose room one class at a time, maintaining six feet of distance.
- Students will use floor markings to maintain distancing while proceeding through the serving line.
- Trash bags will be provided to each teacher as they bring their class through the serving line.
- Once all students in each class have gone through the serving line and picked up their meal, teachers will lead them to the classroom to consume their breakfast.
- Students are not required to take a breakfast.
- Students will place all trash in the provided trash bag.
- Teachers will close and tie the trash bag and place it outside their classroom door for pickup.
- Custodian and/or food service will pick up the trash from outside classroom doors.

Elementary School Breakfast Service Option Two (Classroom Delivery/Classroom Dining)

- This option is dependent on Food Service staffing levels.
- Food service staff will fill breakfast bags with menu items including chocolate milk and will place bags in ice chest(s) or serving tray(s).
- Five individual white milks will be placed in each chest/serving tray to provide students an option.
- Each ice chest/serving tray will be marked with teacher's name and room number.
- Each ice chest/serving tray will have a trash bag.
- Each teacher designates two students or staff to walk from the classroom to the multipurpose room to pick up their ice chest/serving tray at the start of the school day.
- Each ice chest/serving tray will have a classroom roster sheet provided by food service in a sheet protector.
- Each teacher will place a check mark on the roster as the students receive their breakfast bags.
- Students are not required to take a breakfast bag, but if they do, they must take a *complete* breakfast bag; individual items may not be taken out of a bag.
- Once serving time is over, any breakfast bags that are left are placed back into the ice chest/serving tray.
- Items may not be removed from leftover breakfast bags.
- The completed roster is placed back into the sheet protector connected to the ice chest/serving tray.
- Ice chests/serving trays are returned to the multipurpose room by designated staff or students.
- Students will place all trash in the provided trash bag.
- Teachers will close and tie the trash bag and place outside their classroom door for pickup.
- Custodian and/or food service will pick up trash from outside classroom doors.

Secondary Breakfast Service

- Students will pick up breakfast as they enter the school building on their way to the classroom.
- A variety of hot and cold main items will be available.
- Kiosks will be set up near entrance/exit doors.
- Service locations will consist of kiosks and cafeteria windows.
- Students will have their student ID card scanned.
- Students will proceed to classroom to eat.
- Students receiving special diets will need to pick up those meals in the cafeteria.

School Lunch Service

Elementary School Lunch Service

- Classes will be released to go to the multipurpose room one at a time.
- Students will use floor markings while going through the serving line, maintaining six feet of distance.
- Students are not required to take a lunch.
- Teachers will be provided a trash bag.
- Students return to the classroom to eat their meals.
- Trash will be picked up from classroom by custodian.
- Clickers will be used at Community Eligible Provision (CEP) schools.
- All options that include eating in the classroom will require desks and/or tables to be cleaned and sanitized after each meal.

Secondary School Lunch Service

- Kiosks will be set up near entrance and exit doors.
- Cafeteria windows will also be a service location for classrooms in nearby vicinity.
- Classrooms will be released on a schedule to allow students to pick up lunch at the end of the day. Students are not allowed to stay on campus to each lunch.
- All students must have student ID card.

Supper Service and Weekend Meals

The Food Service Department will assess service levels as the year progresses and make a determination if it is operationally feasible to transition to a supper service program and the continuation of weekend meals.

Access to Meals for Distance Education Days

To provide meal access for all students while adhering and respecting the integrity of the cohort model, the Food Service Department will employ the following distribution plan.

In an effort to continue providing students access to meals, the distribution of meals in the school parking lots will continue at designated school sites from Monday through Friday for those students not attending school face-to-face.

- Mondays and Tuesdays: Students attending Cohort A will receive meals in person according to the school meal service protocols above. Distributions sites will be maintained in the parking lot for students attending Cohort B and students who participate in full-time distance education to pick up their meals for the day.
- Wednesdays: Distributions sites will be maintained in the parking lot for students attending Cohort A and B and students who participate in full-time distance education to pick up their meals for the day.
- Thursdays and Fridays: Students attending Cohort B will receive meals in person according to the school meal service protocols above. Distributions sites will be maintained in the parking lot for students attending Cohort A and students who participate in full-time distance education to pick up their meals for the day.

	Mondays	Tuesdays	Wednesdays	Thursdays	Fridays
Cohort A	<i>Receive meals in person</i>	<i>Receive meals in person</i>	<i>Parking lot meal distribution</i>	<i>Parking lot meal distribution</i>	<i>Parking lot meal distribution</i>
Cohort B	<i>Parking lot meal distribution</i>	<i>Parking lot meal distribution</i>	<i>Parking lot meal distribution</i>	<i>Receive meals in person</i>	<i>Receive meals in person</i>
Students Who Participate in Full-Time Distance Education	<i>Parking lot meal distribution</i>				

Service Times

Meal service times will be aligned with the bell schedules and service times at the meal distribution sites (parking lot pickup) will be adjusted as necessary to accommodate student drop off and pickup.

Food Service/Kitchen Considerations

Kitchen Safety/Distancing Protocols

- Kitchen staff will wear and be trained on proper PPE.
- Kitchen staff will be trained on increased hand washing frequency.
- Hand washing signs will be posted.
- Kitchen staff will adhere to school protocols.
- Kitchen staff will be trained on the Employee Illness Policy.
- Kitchen staff will answer daily screening questions.
- Kitchen manager will complete Employee Absence of Illness log for all absences.
- Floor markings will be used for maintaining distance between staff members where applicable.
- Barriers and/or PPE will be utilized when distancing cannot be maintained.
- Staff will be trained on proper cleaning and disinfecting procedures.
- Cleaning and disinfecting of high touch areas will be conducted throughout the day.

Revised Breakfast Menu Options

- Condensed breakfast menus into one containing hot entrees and one containing only cold items that are appropriate for Grades K-12.
- Adjusted Pre-K menus into one containing hot entrees and one containing only cold items to use as many of the same items as the above menus to better forecast inventory needs.
- All items are individually wrapped.

Revised Lunch Menu Options

- Limited to one entree choice for Grades Pre-K-12.
- Elementary sites will receive individually wrapped items - both commercially prepared individually wrapped items and central-kitchen produced sealed tray items.
- Secondary sites will minimize employee contact in secondary kitchens as menu choices will use limited food ingredients to prevent congregation around the food preparation and service areas of the kitchen.
- No self-serve salad bars until further notification from the SNHD.
- No shared tables until further notification from the SNHD.

Special Diets

Students will continue to receive individual serving meal trays prepared and sealed in the central kitchen and delivered to the school sites weekly, if requested.

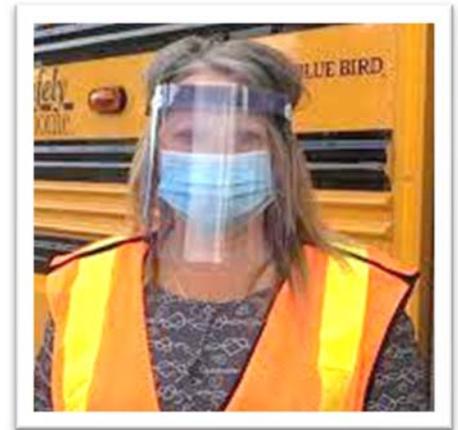

7. TRANSPORTATION

Transportation Preparation and Planning

To ensure a safe service experience for both our students and staff, the Transportation Department consulted with the SNHD in development of its Phase 2 Transportation Plan. The approved protocols and required behaviors are outlined below.

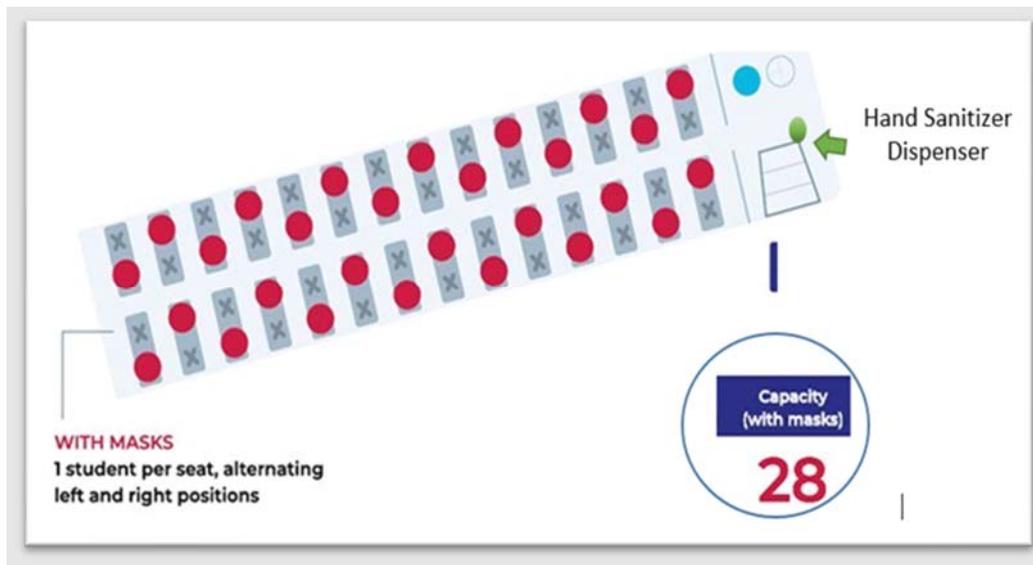

Bus Drivers

Bus drivers will be required to wear face shield and mask during loading and unloading of students. The face shield will be removed during driving. Bus aides, if applicable, will wear face shields and masks during student transport.

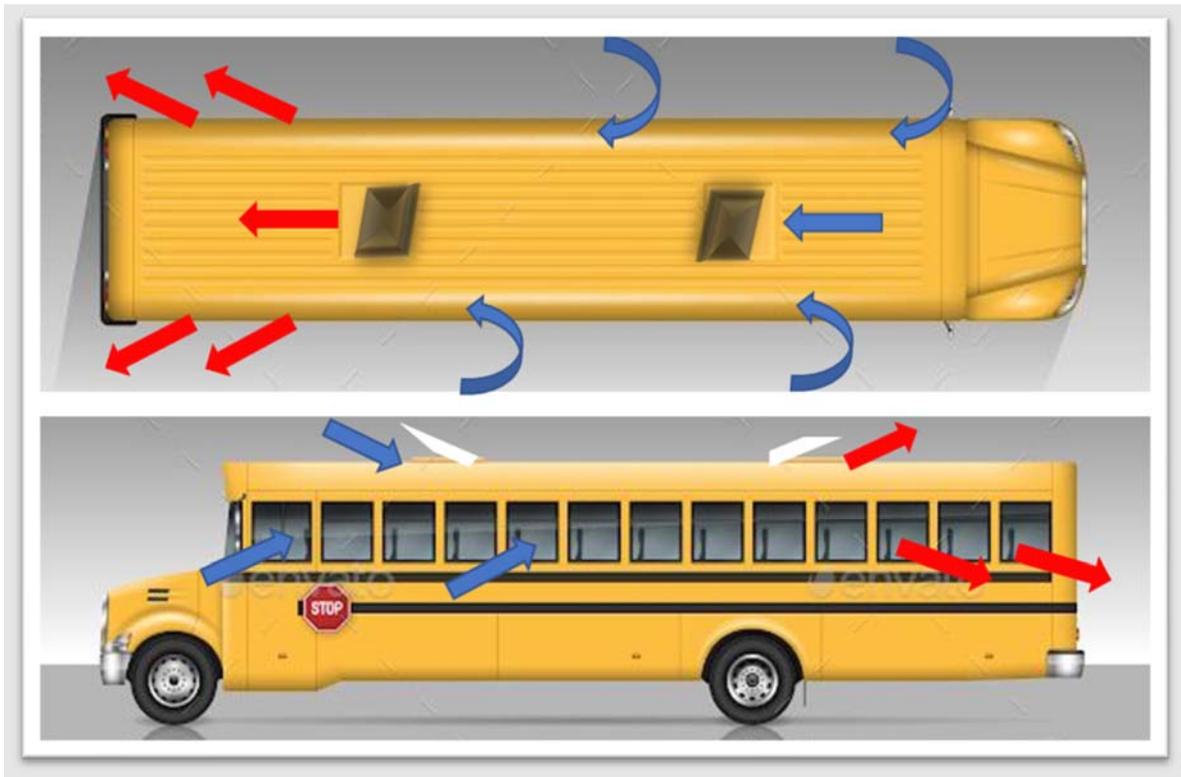

Bus Capacity

In adherence with Phase 2 requirements, the Transportation Department is limiting bus capacity to 50 percent. This equates to approximately 28 students per general education bus and approximately four to six students per special needs bus, depending on the bus configuration.

Bus Air Flow

Transportation staff will ensure the increase of external air flow in addition to the current air conditioning air flow from rear main intake to overhead vents above each seat. Blue arrows represent outside air entering and red arrows represent inside air exiting the passenger area.

Bus Cleaning

- Between school routes, bus drivers and aides will utilize District approved disinfecting wipes on handrails, door frames, and tops of seats.
- Nightly disinfecting will occur. A thorough disinfecting process will take place each night to cover all interior surfaces of the bus.

Student and Parent/Guardian Expectations

- Parents/guardians will conduct a wellness check of their child prior to reporting to the bus stop.
- Parents/guardians of eligible bus riders will be required to register for bus services so accurate bus rider counts can be calculated.
- Students will be required to wear a face mask/covering while loading/unloading and riding on the bus.
- Students are required to utilize the hand sanitizer when entering and/or exiting the bus.

Bus Loading/Unloading and Seating

- Students will be assigned seats based on the stop/loading order. Window seats will be filled first and then aisle seats.
- Students will unload the bus starting from the front to the back seats.
- Drivers will create and post seating charts to ensure distancing between students.

Transportation Protocols and Behaviors for General Education Transportation

General Education Protocols

- Limit bus capacity to one student per seat, approximately 28 students per bus.
- Appropriate COVID-19 signage, including social distancing aisle and seat markings, will be placed on each bus.
- Seating charts will be created based on loading/unloading order to avoid students walking past each other and to ensure social distancing.
- Extend morning bus drop-off/arrival period to 35-40 minutes to stagger bus drop off of students for schools in which a projected 30 percent bus ridership is exceeded.
- Extend afternoon bus pick-up/arrival period to 35-40 minutes to stagger bus pick up of students for schools in which a projected 30 percent bus ridership is exceeded.
- Schools with more than 20 assigned buses may require larger staggered periods.
- Transportation staff directly or indirectly responsible for pupil transportation services will receive training prior to school opening that is within CDC guidance.
- Training will consist of bus cleanliness practices, proper use of PPE, and daily self-health checks.

General Education Behaviors

- Drivers will wear a face shield and mask during student loading and unloading.
- Drivers will ensure seats are marked for non-use prior to loading passengers.
- Hand sanitizer will be made available to students.
- Students are expected to maintain social distancing while loading, unloading, and during transport.
- Students will board the bus from back to front and depart the bus from front to back.
- Increased air flow through the bus is recommended to mitigate exposure.
- Driver will open the roof hatches and lower two rear windows by approximately two inches to increase air flow through the bus.
- Drivers will be required to disinfect handrails, seat tops, and entrance doors between runs with District approved supplies.
- Nightly disinfecting of buses will be performed by a private contractor.
- School staff to monitor bus loading/unloading areas during extended time frames to assist with social distancing and signs of illness.
- Students will be required to wear face coverings while on the bus.

Transportation Protocols and Behaviors to Support Students With Special Needs Transportation To/From School/Home

Protocols for Transportation of Students with Special Needs

- Limit bus capacity to one student per seat (approximately four to six students per bus).
- Appropriate COVID-19 signage, including social distancing aisle and seat markings, will be placed on each bus.
- Seating charts will be created based on loading/unloading order to avoid students walking past each other and ensure social distancing.
- Extend morning bus drop-off/arrival period to 35-40 minutes to stagger bus drop off of students for schools in which a projected 40 percent bus ridership is exceeded.
- Extend afternoon bus pick-up/arrival period to 35-40 minutes to stagger bus pick up of students for schools in which a projected 40 percent bus ridership is exceeded.
- Schools with more than 20 assigned buses may require larger staggered periods.
- Students transported in wheelchairs enter/exit the bus via the lift.
- Transportation staff directly or indirectly responsible for pupil transportation services will receive training prior to school opening that is within CDC guidance.
- Training will consist of bus cleanliness practices, proper use of PPE, and daily self-health checks.
- Parents/guardians will conduct temperature and wellness checks of their child(ren) at home prior to the bus arrival.

Bus Driver Behavior During Transportation of Students with Special Needs

- Drivers will wear a face shield and mask during student loading and unloading.
- Drivers will ensure seats and/or wheelchair spaces are marked for non-use prior to loading passengers.
- Drivers/Bus aides will be responsible for distributing hand sanitizer, as applicable to students who understand their proper use.
- Drivers/Bus aides will monitor students for signs of illness and ensure students remain socially distanced during transport.
- Bus aide will be seated at a location in which all students are visible while maintaining social distancing.
- Drivers and bus aides will be required to comply with all IEP requirements and medical need, and conflicts to social distancing and/or wearing of PPE will be reviewed and discussed on a case-by-case basis.

- The lift door will remain open during the wheelchair securement process to increase air flow within the passenger compartment.
- Social distancing is not possible during wheelchair securement and other securement actions (car seat, seat belt, safety vest, etc.) required for students with disabilities.
- Students able to utilize the front entrance door will load the bus from back to front and depart the bus from front to back.
- Increased air flow through the bus is recommended to mitigate exposure.
- Driver will open the roof hatches and lower two rear windows by approximately two inches to increase air flow through the bus.
- Driver and bus aide will be required to disinfect handrails, seat tops, and entrance doors between runs with District approved supplies.
- Nightly disinfecting of buses will be performed by a private contractor.
- School staff to monitor bus loading/unloading areas during extended time frames to assist with social distancing and signs of illness.
- Students will be required to wear face coverings while on the bus when applicable.
- A face covering may be a trigger for some students resulting in aggressive or unsafe behavior; In these instances (case-by-case) an alternative solution will be determined.

Transportation Protocols and Behaviors for Athletics and After-School Activities

Protocols for Transportation for Activities

- Athletics and after-school services will only be accommodated if available resources remain after to/from school services are completed.
- Limit bus capacity to one student per seat (approximately 28 students per bus).
- Coach/assistant coach or other designated school staff members will be required to ride each bus with the team/players.
- The Athletics Department will be required to fund additional buses (up to 3 buses per team/group) to accommodate the capacity limits of the Phase 2 criteria.
- Transportation staff will be directly or indirectly responsible for pupil transportation services and will receive training prior to school opening that is within CDC guidance and bus cleanliness practices to include self-health checks.
- Trip requestors will be required to provide specific accommodations required for any student, chaperone and/or school staff considered at risk and including details regarding special equipment and/or needs. The required accommodations must be described in the notes section of the trip request in SAP.

Behavior During Transportation for Activities

- Driver will wear a face shield and mask during loading and unloading.
- Drivers will ensure seats are marked for non-use prior to loading passengers.
- Loading will not begin until a coach, assistant coach or other designated school staff member is aboard the bus. He/she will be responsible for distributing hand sanitizer/hand wipes and monitoring students for signs of illness. Students or staff members presenting with symptoms should not board the bus.
- Driver and school staff members will ensure social distancing between students.
- Students and school staff should self-monitor for fever or other signs of illness.
- Students will load the bus back to front and depart the bus from front to back.
- Increased air flow through the bus is recommended to mitigate exposure. Driver will open the roof hatches and lower two rear windows by approximately 2 inches to increase air flow through the bus.
- Driver will disinfect handrails, seat tops, and entrance doors between runs with District approved supplies.
- Nightly disinfecting of buses will be conducted by a private contractor.
- Require students and school staff to wear face coverings while on the bus.

8. TECHNOLOGY

School Preparation of Technology Resources

Schools need to establish their instructional plan and verify the technology at their site can support that plan. They will be asked to prepare as if it is the start of the school year for desktop computers, software updates, etc.

- SBTs will follow standard start of school readiness procedures to prioritize the activities required to ensure the school's technology is ready for return of teachers, staff, and students, including preparation of computer labs.
- Schools may refer to a *Distance Education Classroom Equipment Guide^{xxxii}*, which defines examples of possible classroom equipment configurations to allow teachers to conduct distance education. With this guidance, schools will:
 - Procure, install, and setup equipment necessary for teacher workstations, as needed.
 - Adjust furniture and equipment locations, including computers, spare desks, power needs, etc., considering appropriate classroom configurations to support social distancing.
 - Identify areas where excess furniture and/or equipment may be stored.
 - Maintain cleaning protocols for devices and equipment that are shared.

Critical Staff Coverage for Technology Support and Expectations

The User Support Services (USS) Department will continue to provide vacancy support for sites without an SBT and will work with school administration to ensure that priorities are handled and the building is ready for when students/staff return.

Wi-Fi and Network Infrastructure Capacity

Many District schools have networks which will be able to support every teacher in every classroom to simultaneously stream their class instructions to distance learners; however, there are schools with older, less robust networks which may not.

- Fifteen percent of our schools lack a one-to-one capable Wi-Fi infrastructure, and another five percent have an older, less capable one-to-one infrastructure. These schools may have challenges with on-premises one-to-one computer usage.
- Use of personal Wi-Fi hotspots on school premises is discouraged, particularly for use by students. Personal hotspots may interfere with and likely adversely affect the performance of the in-building Wi-Fi.
- District personnel are presently conducting a school-by-school review of network capability and will soon be able to advise principals whether their school network is capable of supporting such streaming. Schools should have alternative plans at the ready should an interruption due to capacity or intermittent network outage occur. Some suggestions are:
 - Conduct fewer simultaneous streaming sessions.
 - Use Standard Definition (SD) instead of High Definition (HD) (SD video streams require half the bandwidth of an HD video stream).
 - When possible, use a hardwired connection (instead of Wi-Fi) for the device being used for broadcasting in the classroom.

Telephones

Schools are advised to submit help desk tickets at least two work days in advance for any telephone modifications, including assistance removing any call-forwarding to staff cell phones that was established at the start of the stay-at-home period.

Deployment of Devices

The District has purchased additional Chromebooks in order to supplement existing school inventory and provide a District device to every student. Due to limitations in the supply chain, devices will be arriving in batches through December 2020. Schools will be provided with the number of devices required, based on:

- Student enrollment data
- The number of Chromebooks currently enrolled in the CCSD G Suite domain per site
- Inclusion of a five percent “spare” pool to accommodate breakage, loss, minor fluctuations in enrollment, etc.

Delivered devices will be enrolled in G Suite for each school, barcoded, and added to Destiny, ready to be checked out to students.

Rollout Plan

- District staff will coordinate with schools at all levels.
 - Schools with a high number of devices needed to be 1:1 may receive deliveries in multiple allotments as inventory becomes available.
 - Active devices that have reached their Auto-Update Expiration (AUE) date and can no longer run the current supported Chrome OS will be replaced. <https://support.google.com/chrome/a/answer/6220366?hl=en>
- Extra devices that were provided by schools at the start of the school year will be replaced after 1:1 deployments are complete (anticipated December 2020).
- Schools that do not have sufficient inventory to distribute devices to students in need during the districtwide distribution may request additional inventory.
- A limited number of devices will be kept on hand centrally for enrollment increases, replacements, and emergency needs as inventory is available.

Devices Needing Repair

For damaged devices and parts requests, schools can submit tickets, either through the USS Help Desk or directly into the CA Service Desk ticket tracking system with the make, model, serial number, location, and description of the issues. Once submitted, the devices will be evaluated for warranty coverage.

- To ensure devices can be fixed and returned to school inventory as soon as possible, schools should not “stockpile” broken devices.
- For devices that are out of warranty, the USS Department will provide a quote for parts, parts will be procured by the school, and the device will be repaired by the USS Department, as is economically feasible and as resources permit.

School-Level Deployment

When deploying devices to students, schools follow an existing Checklist for Deployment to assign devices to students who do not have a device:

Prior to Deployment

- Identify students at your school who will be eligible to receive a Chromebook.
- Apply Destiny asset tags and inventory Chromebooks available for distribution.
- Pre-stage Chromebooks in Destiny so that they will be available for checkout (optional).
- Identify a small team (no more than five) to assist with deployment.
- Identify an area or areas in your school for deployment that is secured, accessible to the public but with limited contact with staff and have access to power and data for Infinite Campus checkout stations.
- Check with the SBT and ensure the Chromebook is enrolled in the Google Domain and can connect to the Internet and has an associated power adapter.
- Print all necessary information and place, as appropriate, with Chromebook.
- Disconnect Chromebooks from the cart, if necessary.
*Schools may color code power adapters/Chromebooks for easy replacement upon return.
- Clean the outside of each device.
- Send out the schedule to students and parents/guardians (no more than ten scheduled pick-ups at one time).
- Notify via all modes of communication (email students directly, website, social media, phone call, etc.) to encourage timely/scheduled pick up reminding them of the following:
 - Scheduled day and time for pick up.
 - Directions upon arrival.
 - All technology MUST be returned to the school.
- Prior to deployment, please assign a Chromebook to each student with a label indicating the student’s name and an attached Agreement for Use of Mobile Device form.
- Post clear signage.

Deployment

- Set-up in an area that will not require entry to school and eliminate personal contact.

- Place hand sanitizer at each distribution table.
- Organize deployment with no physical contact.
- Approach the car or front door of the school to have the student write their name and student ID on provided forms and sign the CCSD Mobile Device Agreement 2020.
- Provide a pen the students keep when signing their contract.
- Verify that student does not already have a device assigned; check out new device in Destiny and print receipt (optional).
- Set the device down for pick-up by the student or place in the trunk, if drive-thru.
- Maintain all health and safety guidelines and ensure workers wear protective gloves.
- Establish a check-out table with laptops verifying student is currently enrolled at the school.
- A hardcopy of the Mobile Device Guidelines and Expectations and Getting Started with your Chromebook documents would be given with the device and a charger while the student remains in the car. Students must be present to receive any device and/or resource.
- All items that are exchanged between student and staff should be placed in a box and not handled.

After Deployment

- Spray all areas of contact with a disinfectant.
- Place contracts in a box (do not organize).

Damaged, Lost, or Stolen Devices

Damaged Devices^{xxxiii}

Fees or fines may be assessed for a damaged device, and assigned in the student's Destiny record in accordance with the Mobile Device Agreement and Mobile Device Cost Table (see below).

If a device is returned damaged:

1. Fines should be assessed for damages and paid to the school. NOTE: School administration has the autonomy to waive fees/fines as deemed necessary.
 - a. It is recommended that the fine is collected prior to distributing another device; however, this is a school decision. The school will be required to pay for damages or parts replacement out of their budget to ensure adequate inventory.
 - b. Once the student leaves the current school, the next school will be responsible for collecting the fine and transferring the funds back to the prior school.
2. If a fine is paid to cover expenses, the school should issue a new device to the student to ensure that distance education can continue.
3. For intentional damage or recurring incidents, schools may choose to pursue progressive discipline.
4. If a school determines that a new device should not be issued, the school will need to determine alternative methods for delivering instruction.

Steps for repairing a damaged device:

1. The school SBT should submit a repair ticket to the USS Department via the Service Desk and mark the device as "Out for repairs" in Destiny.
2. If the damage is not covered under warranty (either because the warranty has expired, the warranty purchased does not cover accidental damage, or because the damage is intentional and therefore not covered), schools will be responsible for the cost of parts to repair the device, or for replacing the device if it is deemed to be Beyond Economic Repair (BER), as well as the cost to replace any accessories.
3. The USS Department will provide a cost estimate to schools for these scenarios.

Lost/Stolen Devices

The Technology and Information Systems Services (TISS) and Police Services have developed protocols for the identification and tracking of District mobile devices. Schools determine whether devices are lost or stolen and identify the serial numbers associated with the assigned student numbers. If the device is deemed to be stolen, a police report should be filed by the school. Depending on the situation, a device can be placed into theft/recovery mode or disabled for use. Destiny should be updated to reflect that the device is lost and no longer available for checkout.

Fees or fines may be assessed for a lost or stolen device and assigned in the student's Destiny record in accordance with the Mobile Device Agreement and Mobile Device Cost Table.

- Fees/fines will be consistent across the District.
- Students who report a lost device should be charged the full replacement cost of the device.
- Schools may charge a replacement fee for stolen devices as per the Mobile Device Cost Table. This fee is equivalent to what the cost would be for parents/guardians to acquire an insurance policy and pay a deductible. A police report is required in the case of a stolen device. These procedures help to discourage fraudulent claims.

School administration has the autonomy to waive fees/fines for loss/damage as deemed necessary.

Schools are responsible for the cost of replacing the device.

Lost/Stolen Accessories

A fine should be assessed for replacement of accessories, such as power adapters and covers if damaged or lost.

Mobile Device Guidelines and Expectations

MOBILE DEVICE GUIDELINES AND EXPECTATIONS

In an effort to ensure the best possible experience for your participation in this program, you are responsible for following these directions and expectations listed below, in addition to any specific usage and care guidelines distributed by your school.

Receiving a Mobile Device

- Mobile devices will be distributed during the mobile device orientation scheduled by your school.
- **Parents and students must sign and return the Mobile Device Agreement before the mobile device can be issued to the student.**
- **Mobile devices will only be issued to students during designated deployment times and when accompanied by a legal parent/guardian listed in CCSD's student information system.**

Returning a Mobile Device

- Individual school mobile devices and accessories (charger, cover, etc.) must be returned to the school at the end of each school year.
- Students who graduate early, withdraw, are suspended or expelled, or terminate enrollment for any other reason must return their school mobile devices on the date of termination.
- Depending on the circumstances, a student who fails to return the mobile device may be subject to **criminal prosecution and/or required to pay the replacement cost of the mobile device.** Failure to return the mobile device will result in a report being filed with the Clark County School District Police Department.
- Furthermore, the student who returns a damaged mobile device may be charged a fee for any needed repairs or missing accessories, not to exceed the replacement cost of the mobile device and accessories.

Mobile Device Use

- Use of the mobile device is subject to the CCSD Acceptable Use Policy related to technology resources (Policy 3990).
- The care of your District mobile device is your responsibility. Do not lend your mobile device to another person. Each mobile device is assigned to an individual student and the responsibility for the care of the mobile device solely rests with that student.
- **Do not alter or remove the District mobile device management software or any pre-installed apps or tools.**
- Never leave the mobile device unattended. When not in your possession, the mobile device should be in a secure, locked environment.
- The mobile device is an electronic device and you must handle it carefully. Never throw or slide the mobile device or a book bag that contains the mobile device. Never place the mobile device in a book bag that contains food, liquids or heavy/sharp objects. Avoid placing weight on the mobile device. Do not shut the cover if anything is lying on the mobile device screen.
- You are responsible for bringing the mobile device fully charged to school every day unless otherwise directed by your teacher. Failure to bring your mobile device or other class materials does not release you from your responsibility for class work. If you repeatedly fail to bring materials to class, including your mobile device, progressive discipline procedures will be followed.
- Personal headphones are not allowed in school. If ear buds are needed, it is your responsibility to provide them.
- The mobile device is the property of Clark County School District and may be collected and inspected at any time. You have no right to privacy for any material on a District mobile device.
- Each mobile device has a unique serial number and asset tag. Do not modify or remove the tag. Do not write on, draw on, or add stickers or labels to the mobile device or its cover. No form of tampering will be tolerated.
- The mobile device has limited electronic storage space. It is your responsibility to regularly archive or backup content.
- If your mobile device is not working or is damaged, report the problem immediately to your teacher or designated site personnel. A limited number of mobile devices will be available for temporary use.
- If your mobile device is lost or stolen at school, report the loss immediately to your teacher and school police. If your mobile device is lost or stolen outside of school, report the loss immediately to the police and obtain a police report.
- You are responsible for using the mobile device according to school and District policies and procedures.
- Do not download copyrighted software, material, or content without permission of the copyright owner.

Care and Maintenance Use

- Keep liquids away from the mobile device. Do not use cleaners, sprays, alcohol, ammonia, or abrasives on the mobile device. Clean the mobile device with a soft, lint-free cloth.
- While the mobile device is scratch resistant, it will scratch. Do not use any sharp objects on the mobile device or use the mobile device as a flat surface to write on with a pen or pencil.
- Do not expose the mobile device to extremes of hot or cold. Keep your mobile device at room temperature.
- Charge the mobile device battery by connecting to an electrical outlet. Take care in plugging in mobile device accessories and the power cord.
- Always keep the mobile device in the protective cover if applicable.

MOBILE DEVICE GUIDELINES AND EXPECTATIONS

Mobile Device Parent Guide

To help your student gain the most from this opportunity to use a mobile device, please follow these guidelines:

- Monitor your student's home use of the Internet with the mobile device. While the Internet will be filtered for inappropriate material when used at school, it will not be filtered while connected to a home or public network.
- Provide a place in an open area of your home, such as the kitchen or family room, where the mobile device will be used.
- Use the Internet with your student to help develop safe surfing habits.
- Frequently ask to see your student's mobile device, and ask how it is being used.
- Look through the apps (programs) installed on the mobile device. Ask your student what each app does.
- Do not hesitate to contact your student's teacher if you have any questions or concerns about the mobile device use.

Apple iPads Only:

- Do NOT ever connect your iPad to a computer or laptop to sync or charge it. Doing so will cause problems with the iPad management software and may result in data loss and the confiscation of the iPad by District personnel to remedy any issues this may cause.

Account Information

The information below is provided make you aware of the accounts your student will need in order to operate their mobile device. This information may be subject to change without notice as product enhancements arise.

Google Account Information for Parents and Guardians:

Students will be provided with a G Suite for Education account (user@nv.ccsd.net). This account is required in order to use a Chromebook; however, it may be used on other computing devices, such as laptops and iPads, as well.

Below are suggested guides to assist parents:

For information regarding Google's G Suite for Education visit:

<https://edu.google.com/trust/#what-are-google-apps-for-edu>

For more information regarding Google's privacy practices specific to G Suite for Education visit:

https://gsuite.google.com/terms/education_privacy.html

Guide to Google Account Privacy Settings for Students

<https://www.fff.org/deeplinks/2015/11/guide-google-account-privacy-settings-students>

Guide to Chromebook Privacy Settings for Students

<https://www.fff.org/deeplinks/2015/11/guide-chromebook-privacy-settings-students>

A G Suite for Education account may be configured to connect to Google's Chrome Web Store. The Chrome Web Store allows the download of apps, movies, TV shows, music, books, and newsstand media. Some of this is free, and some must be purchased. Teachers will only request that students download free music, apps, or other resources as part of classroom activities and homework. **Students will never be asked to pay for music, apps, or other resources to be used in class.**

We suggest:

1. Parents/Student **not provide** credit card information for the Chrome Web Store.
2. Parents monitor what your student downloads from the Chrome Web Store, and ask your student how he or she is using the different apps.

Apple ID Information for Parents and Guardians

In order to use the iPad, use Find My iPhone, and connect to the iTunes Store and the App Store, a student must create a login, called an Apple ID. The student must be at least 13 years old or use an account set up at the request of a school. This is the information from Apple:

"You must be age 13 (or equivalent minimum age in your Home Country, as set forth in the registration process) to create an Apple ID and use our Services. Apple IDs for persons under this age can be created by a parent or legal guardian using Family Sharing or by an approved educational institution."

More information can be found at <https://www.apple.com/legal/internet-services/itunes/us/terms.html>.

An Apple iPad can connect to Apple's iTunes Store and App Store. The iTunes Store allows the download of music and lesson podcasts. The App Store allows the download of applications that run on the iPad. Some music, podcasts, and apps are free, and some must be purchased. Teachers will only request that students download free music, podcasts, apps, or other resources as part of classroom activities and homework. **Students will never be asked to pay for music, podcasts, apps, or other resources to be used in class.**

Personal apps and music that are purchased by students belong to your student and do not become the property of the District when the iPad is returned. The District is not responsible for and cannot archive or replace personal apps or music downloaded onto the iPad.

We suggest:

1. Parents/Student **not provide** credit card for the Apple ID. Instructions will be provided on how to set up an Apple ID without a credit card.
2. Parents monitor what your student downloads from iTunes and the App Store, and ask your student how he or she is using the different apps.

9. ATHLETICS

CCSD Return to Play Guidelines

Current Phase: Non-Contact and Minimal-Contact Sports Only

The Nevada Interscholastic Activities Association (NIAA), the governing body of high school athletics and activities in Nevada as recognized by the Nevada state legislature, provides guidance for school athletics during the COVID-19 pandemic. With the Governor’s October 2, 2020, directive^{xxxiv} allowing for some youth sporting activities to resume, the NIAA released additional guidance in their *Nevada Guidance for Adult & Youth Sports*^{xxxv}:

- The guidance allows for competition to take place in NIAA sports in both the “Non-contact” and “Minimal-contact” categories by CCSD schools.
- Competition in sports in the “Full/Close-Contact” category is not allowed under the provisions of the directive.
- Practice in full-contact sports is limited to conditioning, drills, practices in which dummy players, sleds, punching bags, and similar equipment are used, but athletes may not come in contact with other players. Training and conditioning, such as weightlifting, running drills, and intra-squad scrimmaging, cannot include full contact of any kind.

CCSD schools and health authorities will also have requirements in place beyond what is outlined in NIAA guidance. The table below shows the category for each of the NIAA sanctioned sports.

Season	Non-Contact Sports	Minimal-Contact Sports	Full/Close-Contact Sports
Winter Season 1	Boys/Girls Bowling	Girls Flag Football	Boys/Girls Basketball Wrestling
Fall Season 2	Boys/Girls Cross Country Girls Golf Boys/Girls Tennis	Boys/Girls Soccer Girls Volleyball	Football
Spring Season 3	Boys Golf Boys/Girls Swimming and Diving Boys/Girls Track and Field	Baseball Softball Boys Volleyball	n/a

*Please note that cheerleading is not recognized as an NIAA sanctioned sport; however, it will be treated as such for the purposes of CCSD Return to Play.

All sports, regardless of the category, must adhere to all restrictions and requirements of the phase in which practice or competition takes place, as well as all state, local, and District directives. These include, but are not limited to, restrictions, requirements, and directives regarding social distancing, face coverings, pre-practice/competition, gathering size, workout pods, cleaning, and sanitization.

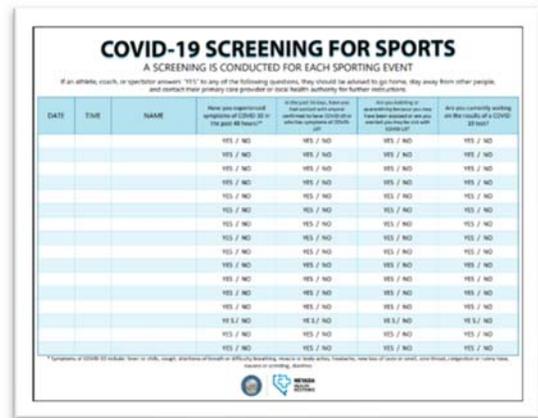

NIAA will continue to publish sport specific restrictions and requirements that incorporate these general restrictions and requirements.

Testing

- Coaches, managers, referees/officials, and team staff are required to take a COVID-19 test before the start of the season or resumption of athletic activity.
- Tests will be completed within 72 hours of the beginning of the start of the pre-season, currently projected for Monday, December 7, 2020.

Screenings

- Contactless temperature screenings must be provided for all players/athletes, coaches, referees/officials, league officials, staff, and managers before each practice, game, or other team events.
- Thermometers must be touchless or thoroughly cleaned in between each check.
- All participants (players/athletes, coaches, referees/officials, league officials, staff, and managers) must respond to COVID-19 screening survey questions upon arrival and check-in at each practice, game, or other team event.
- A record should be kept of all individuals present.
- Conduct regular symptom and exposure assessments for all participants including players/athletes, coaches, referees/officials, league officials, staff, and managers.
- Daily symptom assessments should include monitoring for fever, cough, trouble breathing, and exposure through household members or others.
- Parents/guardians are encouraged to be on the alert for signs of illness in their children and make sure they stay home when sick.

<https://nvhealthresponse.nv.gov/wp-content/uploads/2020/10/COVID-Screening-Check-In-SPORTS.pdf>

Observed Symptoms

- If a player/athlete, coach, referee/official, league official, staff, or manager display symptoms of COVID-19 (confirmed temperature of 100.4°F or higher or if they say “yes” to any of the COVID-19 screening-survey questions) or if there is any suspicion that they are sick or symptomatic, they must be declined admittance and will not be allowed to participate.
- If they arrived with other people (i.e., teammates), everyone in the group must also be declined admittance and they are to leave immediately, advised to go home, stay away from other people, and contact their primary care provider or local health authority for further instructions, including where and when to access a test.
- Assigned staff or volunteers should provide the individual with a face covering if they do not have one, help the individual minimize their contact with others before leaving the facility, and immediately disinfect all areas used by the individual.

Positive Test Protocols

- If a player/athlete, coach, referee/official, league official, staff, and manager of the same team tests positive for COVID-19, the entire team (if they had been in close contact with the positive individual) must quarantine for 14 days.
- Schools will establish sick rooms for students who need to wait for transportation home.
- All team activities and practices must be canceled for 14 days during the quarantine period.
- If a household member of a player/athlete, coach, referee/official, league official, staff, and/or manager of the same team tests positive for COVID-19, the individual must notify the school administration and/or NIAA and must cease all activities with the team for 14 days from the most recent exposure even if she/he tested negative.
- School officials are to immediately notify local health authorities and the NIAA in addition to those mentioned above in the case of an individual with COVID-19. A person’s confidentiality is to be maintained in accordance with ADA.
- Schools are to assure that anyone within their authority who previously tested positive for COVID-19 receives medical clearance before returning to play or activity.

Intramurals

- Intramurals may be conducted for winter season (season one) sports only.
- Tentative start date is Monday, December 7, 2020.
- All activities will begin after the instructional day.
- No Sunday activities may be held.

Practice

- Currently, practices may only be held for winter season (season one) sports.

- Official NIAA start date is January 2, 2021.
- All activities will begin after the instructional day.
- No Sunday activities may be held.

Game/Contest Operations

- There will be NO SPECTATORS on any District property for practices, games, or contests.
- Schedules will be established by the Student Athletics Department and conveyed to schools.
- Scrimmages with other schools are not permitted.
- Locker rooms will not be available except for restrooms to assigned groups.
- Meeting rooms are not permitted for dressing or half times.
- Schools are responsible to monitor and make sure opponents from different schools keep six feet of physical distance, including at entrances, exits, restrooms, and any other area where people may gather. Strategies include:
 - Increasing the size of the field or court, particularly the area outside the playing area.
 - Increasing spacing during warm-ups and grouping athletes in small groups with limited comingling.
 - Staggered scheduling and arrival.
 - Increasing space between all players/athletes, coaches, referees/officials, league officials, staff, and managers on the sideline, dugout, or bench.
 - Designating facility restrooms for certain groups. (For example, at a boys' basketball game, designate the restrooms in one locker room for the home team, the restrooms in a different locker room for the visiting team, and the restrooms in the foyer for the officials.)

10. HUMAN RESOURCES

COVID-19 Work Rules and Procedures for All Employees

Pursuant to guidance and directives from Governor Sisolak, the Nevada Medical Advisory Team, and the CDC, all employees are required to adhere to the following rules and procedures:

Face Coverings Must be Worn at all Times at Work, Including:

- When interacting in-person with members of the public.
- When in any space visited by the general public, even if no one else is present. (Example: Employees who work in the lobby or entrance area of all District buildings, schools, etc., must always wear a face covering.)
- When in any space where food is prepared or packaged for sale or generally distributed to others. (Example: Employees must wear a face covering while in break rooms, lunchrooms, etc.)
- When walking through common areas, such as hallways, stairways, elevators, and parking facilities.
- In any room or enclosed area where other people are present. (Example: Employees must wear a face covering when using an elevator, restroom, etc.)

Social/Physical Distancing Must be Practiced at Work:

- Social/Physical distancing means avoiding “close contact” with people. Close contact is being within six feet of another person for 15 cumulative minutes of exposure over a 24-hour period. All employees must practice social/physical distancing while at work by:
 - Maintaining at least six feet of distance between yourself and other people.
 - Not gathering in groups of 250 people or more (must always practice social/physical distancing regardless of how many other people are around).
 - Due to the nature of the work, some positions may be unable to practice social distancing at all times. In those situations employees are required to use appropriate PPE and practice appropriate health and safety protocols (e.g., hand sanitizing) to protect themselves.

Employees May not Work if Infected with or Exposed* to COVID-19.

Employees are not allowed to work if they:

- Have been diagnosed with COVID-19.
 - Have a temperature 100.4°F or higher.
 - Exhibit any sign or symptom of COVID-19.
 - Have been exposed* to COVID-19.
- OR
- Are caring for a household member who is isolated at home with COVID-19.

Employees are required to report any of the above conditions to their supervisor as soon as possible.

*Exposure is defined as being in close contact with a person who has confirmed positive for COVID-19 for 15 cumulative minutes of exposure over a 24-hour period with less than six feet of distance.

Employees with any of these conditions should also contact their Licensed Health Care Provider concerning their health and possible COVID-19 testing.

Employees Must Utilize Appropriate Hand Hygiene:

Handwashing and the use of alcohol-based hand sanitizers help to reduce the spread of COVID-19.

- Hand hygiene is performed by washing hands with soap and water for at least 20 seconds, ensuring that you have washed the front and back of your hands, between fingers, and around and under fingernails. An easy way to remember the 20-second washing rule is to sing the Happy Birthday song twice while washing hands.
- When handwashing stations are not readily available, hand sanitizer with 60-95 percent alcohol content should be used by rubbing it thoroughly over and around hands until the product dries.
- If hands are visibly soiled, use soap and water.
- Avoid touching your face, especially your eyes, mouth, and nose, when you have not recently washed your hands or used sanitizer.

Information on COVID-19 is continually evolving and best practices are continually changing. This information is provided not only to protect employees but also to protect the people at work, students and their families, and the community.

Once again, all District employees must adhere to and follow the rules and procedures. All supervisors are required to enforce these rules and procedures. If employees have any questions, contact their immediate supervisor.

COVID-19 Safety Protocols Compliance

If there is a violation of COVID-19 safety protocols, and an administrator is not enforcing the protocols, the employee may report the violation to the administrator's supervisor. Alternatively, the employee may file a safety concern (CCF-305) and allow the Safety Office of the Risk Management Department to investigate. If there are repeated violations by an administrator, the process is to report the concern to the administrator's supervisor. A third alternative is to report the concern through Ethicspoint via the online portal at ccsd.net/employee/employeeresources/ethicspoint.

Equal Employment Opportunity Commission Technical Assistance Questions and Answers

Information from the Equal Employment Opportunity Commission is available for staff regarding COVID-19 and the ADA, the Rehabilitation Act, and other EEO Laws:

https://www.eeoc.gov/wysk/what-you-should-know-about-covid-19-and-ada-rehabilitation-act-and-other-eeo-laws?utm_content=&utm_medium=email&utm_name=&utm_source=govdelivery&utm_term=

The Life Connection Employee Assistance Program

The District recognizes the challenges of balancing work and the demands of everyday life. That's why you and your family have access to support through The Life Connection Employee Assistance, Work-Life Resource and Referral program. When you call the toll-free number, you will be assisted by a qualified EAP/work-life consultant who will respond to your request thoroughly and promptly. And when you log on to the work-life website, you'll find an abundance of useful resources, articles, links and interactive tools.

The Life Connection program is available to CCSD support staff and police enrolled in the medical insurance plan and is free of charge to those employees and their households.

See the appendix for additional information.

Staff and Student Calendars

Staff and student calendars currently approved and published for 2020-2021 will remain intact. are located at <https://www.ccsd.net/district/calendar/>.

Employees with Children Ages Four-18

District employees may voluntarily exercise an option to bring their children who are of the ages of four-18 to the workplace during their contracted work hours from December 1, 2020, through December 18, 2020, under the following conditions:

1. The employee is the parent/guardian of that child.
2. The employee maintains direct supervision of the child while on District property and is responsible for the personal safety of the child and ensuring that no disruptions occur to the daily tasks of the employee.
3. The child is enrolled in any school, public or charter, to participate.
4. The employee requests and receives permission in writing from the site administrator prior to bringing their child to work.
5. All children participating in this opportunity follow all District rules, regulations, guidelines, and expectations while on campus.
6. All children participating in this opportunity follow all health and safety procedures.

Permission may be revoked by the site administrator or District at any time during this designated time period for failure to comply with District rules, regulations, guidelines, and expectations while on campus.

Substitute Procedures

School sites are responsible for providing lesson plans for substitutes. Any procedures and expectations, required as part of the school's hybrid instructional plan, are clearly articulated by the school. Substitutes are expected to report to work sites and contact the main office for any additional details regarding assigned jobs.

Long-term and vacancy substitutes will continue to receive the appropriate provisions to Infinite Campus of all assignments (distance education or face-to-face). In the event a school returns to full-time distance education, substitutes may still need to accept distance education assignments.

As the District transitions to a hybrid instructional model, it is anticipated that there may be a need to transition back to distance education should an outbreak of COVID-19 occur at a school that requires the school to close temporarily. Guidance for substitute guest teachers is provided for both scenarios.

Guidelines for Accepting Hybrid Education Substitute Assignments

- All substitutes are expected to comply with the safety protocols and guidelines established by the District and the school. Substitutes are required to contact the school prior to accepting an assignment to ensure they can adhere to the requirements.
- The substitute's Google account must be activated, as it will be the primary means of communication utilized by schools.
- Substitutes accepting face-to-face assignments may be required to conduct distance education from the school site. Substitutes will provide instruction through distance education in alignment with the provided guidance.

Guidelines for Accepting Distance Education Substitute Assignments

The following guidance regarding distance education expectations was provided to all substitute teachers on September 16, 2020.

Substitute Guest Teacher Access and Responsibilities

Background

The Clark County School District will continue to rely on substitute guest teachers during distance education to provide quality instruction to students. Substitute guest teacher responsibilities will be based upon the assignment. The following outlines the focus of three categories of substitutes:

- *Day-to-day: A substitute teacher accepts a substitute teaching position for a short period of time, such as a single day. The focus for each substitute on a day-to-day assignment is on student contact and instruction based on the directions the substitute guest teacher receives from the classroom teacher. The substitute guest teacher is responsible for contacting students and offering assistance on assignments if necessary. The school/teacher is responsible for providing lesson plans and guidance to the substitute guest teacher.*
- *Long-term substitute: A substitute guest teacher accepts an assignment that is more than 10 days. The focus for each substitute guest teacher in a long-term assignment is on instruction. Substitute guest teachers in these assignments should team up with licensed staff for assistance on providing high quality synchronous and asynchronous instruction.*
- *Vacancy substitute: A substitute guest teacher accepts an assignment when a licensed teacher has not been hired. The focus for each substitute guest teacher in a vacancy assignment is on instruction. Substitute guest teachers in these assignments should team up with licensed staff for assistance on providing high-quality synchronous and asynchronous instruction.*

Professional Learning for Substitutes

Substitute guest teachers were required to complete the following professional learning prior to accepting an assignment:

- *Quality Teaching from a Distance*
This session takes educators through the key terms and foundational knowledge for digital learning. Distance education practices for both teachers and students will be discussed. Suggested tips for guiding students in their learning and actionable strategies for remote instruction is embedded.
- *Setting Sail with*
- *Learning Management System*
Simplifying the steps in creating a new Canvas Classroom using modules to share content and collect work with students.
- *Setting Sail with Google Classroom*
Steps in deploying a new Google Classroom; including navigation, pushing out assignments, completing assignments, giving student feedback, making the most of the stream, grading, and creating groups.
- *Throw Your Live Sessions a Lifeline*
Best practices for hosting interactive live sessions with students. Help your

students see that their online synchronous and asynchronous session experiences can be positive and engaging.

- *Navigating the Seas of Digital Content: Identifying and Designing Quality Content*

This session will share content repositories and cover the basics of creative commons, copyright considerations, and American Disabilities Act design elements, while keeping in mind student engagement is the goal for all digital content.

To access Canvas: go to www.canvas.ccsd.net and use your AD and login information. To access a teacher’s Canvas course, the teacher will need to provide you with the access.

To access Google Classroom: go to www.classroom.google.com and log in with your CCSD Gmail account information. To access a teacher’s classroom, the teacher will need to provide you with access.

Provisioning in Canvas

As of Sunday, August 23, 2020, more than 4,000 substitute guest teachers have been provisioned in Canvas. These substitute guest teachers can manually be enrolled in a Canvas course by the site controllers. Schools are responsible for deciding whether daily substitute guest teachers will be added to their courses or if an alternate lesson plan will be provided.

Long-Term and Vacancy Substitute Guest Teachers

Identity Management (IDM) provision substitute guest teachers if they are in the same position in SmartFind for 10 or more consecutive days.

For example, if Substitute Services assigns a substitute guest teacher to a position at Green Valley High School from September 1- September 30, 2020, the substitute guest teacher’s Active Directory (AD), Gmail and Infinite Campus (IC) will auto-provision for September 1 - September 30, 2020, for Green Valley High School.

This will provide the long-term substitute guest teacher with the same access as a licensed teacher; therefore, they will have the ability to conduct both synchronous and asynchronous instruction, grade assignments, and communicate with students and their families through Canvas.

It is expected that schools encourage long-term and vacancy substitute guest teachers to attend the planning sessions and/or Professional Learning Communities aligned with the assignment for assistance, guidance, and support.

Clark County School District Substitute Guest Teacher Requirements

- *The CCSD Reopening Our Schools Implementation Guide outlines the following requirements in alignment with substitute guest teachers:*
 - *The licensed teacher will provide emergency plans and instructions as traditionally required;*
 - *The school-based administrator is responsible for developing and implementing substitute guest teacher procedures, process, and schedules.*
- *Establish substitute guest teacher calls and absence reporting procedures.*
- *Consider developing a structure for substitute guest teachers to safely obtain the necessary information and materials needed to cover the class, including Emergency Substitute Plans.*
- *Based on the NDE Guidance Memo 20-05 and CCSD’s Reopening Implementation Guide, a substitute guest teacher must adhere to and follow the below expectations:*
 - *Have access to a phone to make contact with students throughout the school day*
 - *Block the phone number when calling students, or work from the school site*
 - *Contact the school directly to obtain a class schedule, class roster and contact information*
 - *Communicate with students to discuss progress in the particular course and provide assistance*
 - *Be welcoming, upbeat, friendly, and encouraging*
 - *Review and adhere to Regulation 4100: Relationships, Interactions, and Communications Between District Employees or Representatives/Volunteers and Students: https://www.ccsd.net/district/policies-regulations/pdf/4100_P.pdf*
 - *If the student asks about an assignment from their teacher, try to assist the student. If you are unable to provide assistance, refer them to their teacher for support.*
- *If the student wants to discuss topics other than educational related topics, gently remind them that the purpose of the call is for assistance with school work.*
- *If the student exhibits or expresses any personal mental health concern, e.g., suicidal ideation, you must:*
 - *Take the concern seriously;*
 - *Ask to speak to the parent/guardian to pass on the concern;*

- *Contact School Police at (702) 799-5411; and*
- *Document all communication regarding the concern.*
- *Options available for mobilizing support to support the student and family include:*
- *SafeVoice: 1-833-216-SAFE (7233) for anonymous reporting*
- *CCSD Police: (702) 799-5411*
- *Mobile Crisis Response Team: (702) 486-7865*
- *At the end of the school day:*
 - *Email or call the office manager to check out.*
 - *Provide the list, via phone or email, of students reached and any questions that arose when virtually connecting with them or calling the home.*
- *When substituting from home:*
- *The substitute guest teacher will call in the morning to check-in*
- *The substitute guest teacher will call in the afternoon to check-out.*

Substitute Requests

As we transition to the hybrid instructional model, be advised that substitute requests for vacancy, long-term, and day-to-day assignments will continue to be permitted. Additionally, substitute support professionals for qualifying positions may also be requested as needed (i.e., specialized programs teacher assistant, PE aide).

All vacancy requests should be submitted to the Substitute Services Help Desk by completing and forwarding the *Substitute Services Vacancy Request Form* to 0031-substitutehelpdesk@nv.ccsd.net. **This is a reminder that any changes made to vacancy requests after they have been submitted must be updated by the Substitute Help Desk.**

Long-term and day-to-day substitute requests will continue to be submitted through SmartFind Express. Remind staff they are to request an absence in PeopleSoft for approval at the school, as well as enter substitute requests in SmartFind Express.

Vacancy and long-term substitutes will continue to receive the appropriate provisions to Infinite Campus, when applicable.

School sites are responsible for providing lesson plans. Substitutes have been directed to report to the main office when reporting to schools to receive information regarding job requirements, student rosters, and any other information needed to complete the job assignment.

Requesting a Substitute on Special Assignment

To support the transition to the hybrid instructional model, the Human Resources Division is offering sites the opportunity to request a substitute on special assignment. Substitutes on special assignment are intended to provide immediate access to day-to-day substitutes for sites and will be assigned to the building for the second semester for up to 92 school days. The substitute on special assignment will be expected to work daily and may provide additional classroom support, help monitor students, and/or assist office personnel when not assigned to teach classes in place of an absent teacher. Should a substitute guest teacher's assigned work location return to distance education, the assignment may end.

Requesting one or more substitutes on special assignments may not eliminate a school's need for day-to-day substitutes, long-term substitutes, or vacancy substitutes and does not preclude requesting additional substitutes, as needed.

To maintain a pool of available substitutes for day-to-day assignments, the number of substitutes on special assignment will be limited by grade level. Elementary schools may request up to two substitutes, middle schools may request up to three substitutes, and high schools may request up to four substitutes. If a principal believes additional support is needed due to larger than average numbers of students, the principal may request an additional substitute with approval from the region superintendent.

SmartFind Records

Schools will notify the Human Resources Division of any staffing changes from the previous school year. The Substitute Help Desk will need to manually update locations and teacher schedules in SmartFind to ensure that employees are assigned to the proper location with the appropriate job description. This is crucial to ensuring that substitutes who accept positions are reporting to the correct sites. If assistance is needed with this process, please contact the personnel assistant assigned to the school.

Substitute Compensation

Effective January 2020, substitute pay is being processed through the Paydata Services Department. Any inquiries regarding pay for substitutes, substitute support professionals, and/or coaches should be directed to Substitute Compensation at (702) 799-2812 option #3, or may be emailed to paydata@nv.ccsd.net.

Substitute Badge Renewals

The Edward A. Greer Education Center building is currently closed to the public. A substitute, substitute support professional, or coach may request a badge renewal only by appointment.

Student Teacher, Practicum Student, Observation Student, and Intern Placements

Student teachers, practicum students, observation students, and interns will be required to report to their assigned location or school to conduct their program while the District is in a hybrid instructional model. In the event a school is required to return to a distance education model, the student teachers, practicum students, observation students, or interns assigned to that school will return to operating under the guidelines of the full-time distance education.

In all instances where a student teacher, practicum student, observation student, or intern is working on campus, they must follow all social distancing and safety protocols.

Student Teachers

As student teachers will be providing instruction through face-to-face and distance education, they will need access to Canvas and/or Google Classroom. Once a student teacher has been cleared to begin, they may report to their school to provide face-to-face instruction. The Human Resources Division will continue hiring student teachers as contingent workers and will notify them when they may claim their AD account and have access to the District email system and Google Suite, as well as Canvas.

As student teachers are provisioned with an AD account, they will be added to the District's distance education professional learning courses in Canvas to prepare them for providing distance education.

Practicum and Observation Students

Practicum and observation students will be able to observe classes and lead small-group instruction, whole class instruction, and answering questions and providing assistance during synchronous sessions. Practicum and observation students will need to coordinate with their cooperating teacher to complete their required hours during face-to-face instruction.

Cooperating teachers may need to provide access to synchronous sessions and virtual office hours by inviting the practicum or observation student to the Google Meet session. Teachers will invite students via their email address. Teachers will not send students the URL.

Counselors, Social Workers, Related Services, and Interns

Interns will be able to schedule meetings and interact with students reporting to school for face-to-face instruction and may continue to work with their mentor to schedule synchronous sessions as necessary for students on days they are not assigned at school for face-to-face instruction.

Interns that require physical access to students, such as physical therapists will continue to follow all safety protocols and collaborate with their assigned mentor to provide service for students when they are at schools.

Best Practices

Student teachers, practicum students, observation students, and interns must follow all safety protocols at the school when working with students. This includes wearing a mask properly, washing hands, maintaining social distance, and staying home when they feel ill.

Supervisors and site administrators should ensure that the employee or university student share contact information, including email addresses. The employee will add student teachers to Canvas or Google Classroom or to invite the university student to the synchronous sessions conducted in Google Meet.

Employees should be aware of the level of students they are hosting. Practicum and observation students and interns will not have access to Canvas; however, student teachers will have access to Canvas. Employees may need to share resources and lesson plans with practicum teachers to assist them in preparing to teach lessons in synchronous sessions and to develop asynchronous sessions for students.

Requests to Telecommute or Continue Telecommuting

Employees who wish to request an ADA accommodation to telecommute due to the employee's own medical condition may do so by communicating the request to their supervisor. Decisions about telecommuting will be made in consultation with the Office of Diversity and Affirmative Action/ ADA and Title IX Programs.

Requests for telecommuting may be considered and/or approved if **all** the following are true:

- The employee requests to telecommute due to the employee's **own** medical condition (*see note below*) such as:
 - Pregnancy and related medical conditions.
 - Medical condition that makes the employee more susceptible to COVID-19 complications, including but not limited to, asthma, chronic kidney disease being treated with dialysis, chronic lung disease, diabetes, hemoglobin disorder, immunocompromised, liver disease, serious heart condition, and severe obesity.
- Staffing levels at the site are adequate (enough to sustain operations).
- The essential job functions can be performed from a satellite/offsite work location.
- The employee has provided or can provide medical documentation that supports the need for telecommuting to the Office of Diversity & Affirmative Action/ADA & Title IX Programs.

Note: Supervisors may not ask employees for medical information or medical history. Supervisors should direct employees who have requested to telecommute due to their own medical condition to submit any medical information they may have to support their request, to the Office of Diversity & Affirmative Action/ADA & Title IX Programs. If the employee does not have medical documentation necessary to support their request to telecommute or if the documentation is insufficient to determine if the employee has a qualifying medical condition under the ADA, then the employee may request an ADA packet from the Office of Diversity & Affirmative Action/ADA & Title IX Programs to be completed by their medical provider.

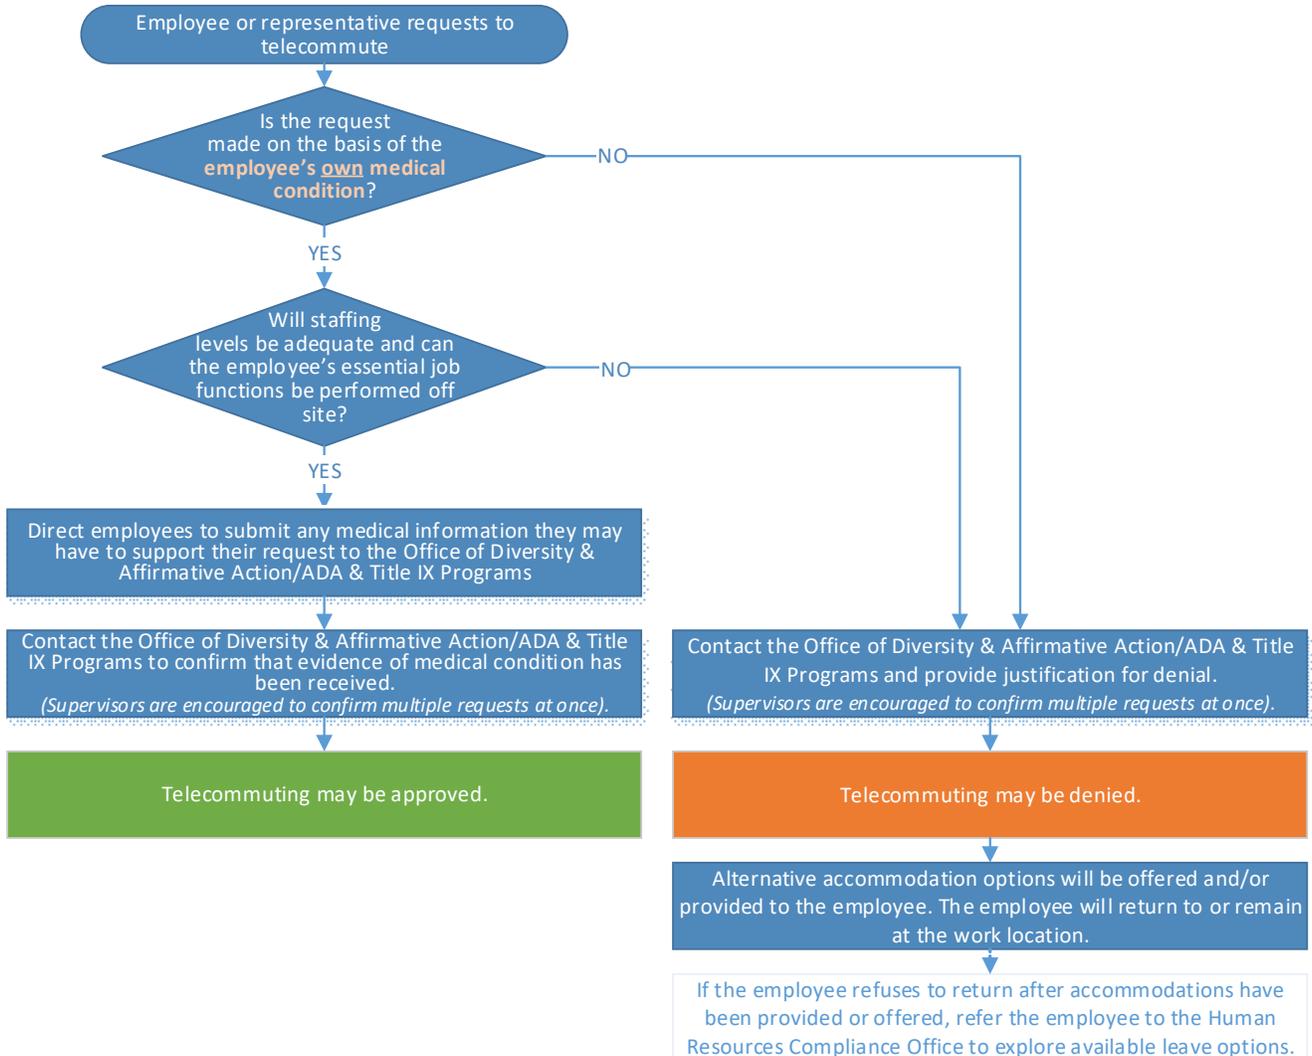

Requests for telecommuting may be denied if **any** of the following are true:

- The employee requests to telecommute for reasons other than his/her own medical condition, including but not limited to, concern for a family member, to child care issues, and the employee's age.
- Current or projected staffing requirements/building or department needs make it logistically impossible for the employee to telecommute and/or the employee is needed at the work location due to staffing (or other operational needs) and the employee can be provided with other accommodation/tools such as masks, air purifiers, Plexiglas, etc. (not all inclusive) that would aid the employee in mitigating exposure to Covid-19, thereby allowing them to work or continue working onsite safely.
- The employee cannot perform all the essential functions of his/her job from a satellite/offsite work location.
- The employee has not provided or cannot provide medical documentation that supports the need for telecommuting to the Office of Diversity & Affirmative Action/ADA & Title IX Programs.

Supervisors shall utilize the *COVID-19 Accommodations and Leave Options: Site Administrator Checklist* included in this document and/or refer the following employees to the Human Resources Division Compliance Department to explore available leave options:

- Employees who request accommodations due to reasons other than their own medical condition, such as the employee's age, family member health conditions, or childcare concerns.
- Employees who do not wish to return to work, even after accommodations have been offered and/or provided.

Supervisors should follow the decision-making flowchart provided below when considering telecommuting.

Supervisors may utilize the following sample message to develop language for communicating the outcome of decisions regarding accommodations:

Good morning Ms./Mr. (Insert Name),

It is my understanding that you have reached out to the Office of Diversity & Affirmative Action/ADA & Title IX Programs to request the accommodation of being allowed to telecommute (work offsite). I have discussed your request with the Office of Diversity & Affirmative Action/ADA & Title IX Programs, and unfortunately, I am unable to approve that particular accommodation because [select or adapt from options below]

The essential functions of your job cannot be performed from an offsite work location.

I need to maintain adequate coverage and staffing levels in the building.

I need to maintain adequate coverage in the building. I also believe that you have the ability to control social distancing because you have your own workspace (Office/Cubicle).

I need to maintain adequate coverage in the building. I also believe that because of the nature of your job, in that you are mostly isolated from others throughout your work day, you have the ability to control social distancing.

Additionally, you have the ability to control social distancing of students with riding the bus with verbal directives, and you can also be provided with other accommodations, such as a mask, gloves, and hand sanitizer to aid in mitigating exposure COVID-19.

That said, I am willing to discuss with you other accommodation options that would allow you to return to work safely.

COVID-19 Accommodations and Leave Options: Site Administrator Checklist

The following checklist is provided to assist site administrators in navigating employee requests for accommodations and/or leave.

Has the employee disclosed that they have or a family member has been exposed to COVID-19, that they are showing symptoms of COVID-19, or have received a positive test result for COVID-19?

- See Employee COVID-19 Exposure Guidelines within this plan for site administrator workflow regarding self-quarantine and return to work requirements.
- Employee leave options are as follows in this order:
 - Utilize Emergency Paid Sick Leave (up to ten days). This option expires on December 31, 2020.
 - Apply for and be granted Family Medical Leave (FML) – Intermittent or continuous.
 - Utilize applicable available leave per negotiated guidelines and District regulation.
 - For support professionals, utilize leave donated under the ESEA COVID MOA.
 - Utilize leave from association sick leave pools with appropriate association approvals.
 - Be granted short-term necessity leave per Regulation 4355.
 - Apply for and be granted a leave of absence (LOA).

Did the employee disclose that they are pregnant or that they have a medical condition that makes them vulnerable to COVID-19?

- Refer to the *Requests to Telecommute or Continue Telecommuting* section of this plan.
- If accommodations are unacceptable or denied, provide the following leave options in this order:
 - Apply for and be granted FML – Intermittent or continuous.
 - Utilize applicable available leave per negotiated guidelines and District regulation.
 - Be granted short-term necessity leave per District Regulation 4355.
 - Apply for an LOA.
 - Work.

Did the employee disclose that they are 65 years old or older without a medical condition?

- Do NOT refer the employee to the Office of Diversity & Affirmative Action/ADA & Title IX Programs.
- Site administrator may call the Office of Diversity & Affirmative Action/ADA & Title IX Programs for assistance and guidance.
- Can you provide for effective social distancing at your work site?
 - If yes, no additional accommodations are necessary, but may be provided.
 - If no, provide PPE (mask, gloves, face shield, air purifiers, sanitizing products).
- If accommodations are not accepted by the employee, then provide the following leave options in this order:
 - Apply for and be granted FML – Intermittent or continuous.
 - Utilize applicable available leave per negotiated guidelines and District regulation.
 - Be granted short-term necessity leave per District Regulation 4355.
 - Apply for an LOA.
 - Work.

Did the employee express a concern or fear of returning to work for reasons not listed above, including because a family member is part of a CDC identified vulnerable group?

- Can you provide for effective social distancing?
 - If yes, no additional accommodations are necessary, but may be provided.
 - If no, provide PPE (mask, gloves, face shield, air purifiers, and sanitizing products).
- If accommodations are not accepted by the employee, then provide the following leave options in this order:
 - Apply for and be granted FML – Intermittent or continuous.
 - Utilize applicable available leave per negotiated guidelines and District regulation.
 - Be granted short-term necessity leave per District Regulation 4355.
 - Apply for and be granted an LOA.
 - Work.

Did the employee indicate that they or a family member are ill (not related to COVID-19)?

- Apply for and be granted FML – Intermittent or continuous.
- Utilize applicable available leave per negotiated guidelines and District regulation.

- If the illness is catastrophic, utilize leave from association sick leave pools with appropriate association approvals.
- Be granted short-term necessity leave per District Regulation 4355.
- If the illness is severe, apply for and be granted an LOA.
- Work.

Did the employee indicate that they do not have childcare available for their school-age child(ren) and the child(ren) is/are not ill?

Refer to the Employees with Children Ages Four - 18 section in this plan. If these options are not applicable, the following options become available:

- Apply for and be granted Emergency Family and Medical Leave Expansion Act (EFMLEA) through the FMLA Office. The employee may take up to 12 weeks (60 days) for childcare at two-thirds of the employee's salary under the CARES Act.
 - This option expires on December 31, 2020.
 - Days may be used non-consecutively (for example: 2 days per week).
 - First two weeks of EFMLEA may be supplemented with sick leave only. The remaining ten weeks must be supplemented with compensatory time, vacation, and/or personal leave to receive full pay.
- Utilize applicable available leave per negotiated guidelines and District Regulation.
- Be granted short-term necessity leave per District Regulation 4355.
- There are no LOA options available to provide childcare.
- Work.

Volunteers

For the safety of students and staff, volunteers are not permitted on school campuses until further notice. Renewal of badges for volunteers will follow procedures established in previous years when volunteers are approved to return to campuses.

If a school has a program deemed essential to the function of the school that requires volunteer participation, the principal may request an exception to this guidance from the chief human resources officer and region superintendent.

For questions regarding volunteers, please contact the school's assigned Talent Acquisition director.

11. COMMUNICATIONS

Communications and Community Engagement

In order to increase effective communications, the District will employ a series of existing and new tools and channels to create effective mechanisms to engage in two-way communication (feedback loop) with stakeholders before and during the transition to a hybrid instructional model.

Stakeholders can utilize these channels to present suggestions, comments, complaints, questions, and to receive answers or feedback from the District. Additionally, the District will utilize the information to respond to questions, address concerns and complaints, and take into account suggestions from parents/guardians, students, staff, community members, elected officials, and other stakeholders. The District will also use the information derived from communications to identify trends of topics of interest, areas that need clarification, or issues that need to be addressed through implementation action.

Media

The Communications Department will share important information on the transition plan through national and local media, and respond to media inquiries.

A comprehensive communications plan will be implemented to communicate with stakeholders. Specific two-way communication will occur through:

- Interviews with broadcast (TV/radio) and print media responding to questions submitted by the public or issues of interest arising from media coverage.
- Op-eds and commentaries regarding the transitional plan.
- Through possible Vegas PBS, 30-minute live television Q/A shows where the public can call in to ask questions live on air.

Social Media

The Communications Department will respond to direct messages and mentions on social media (Facebook, Twitter, Instagram) by providing answers and/or directing people to the appropriate resources. Social media is also utilized to proactively communicate important information.

Social media will be monitored. Trends and topics of interest will be communicated to CCSD leadership for action or information.

Facebook Live events focused on specific areas of interest will cover the topic once a week and will be streamed live on social media.

Videos

The Communications Department will share information directly with the public by conducting interviews with CCSD leadership and subject matter experts, and will produce videos on topics of interest.

Video messages from the Superintendent of Schools will be produced and distributed through several channels to keep stakeholders informed.

Videos will also be produced by other CCSD departments to provide training and information on a variety of topics.

Engage/Conecta Email

The Community Relations Department will respond to emails received through Engage/Conecta and appropriately respond and direct inquiries, questions, and suggestions.

Community Sessions

The Community Relations Department will hold and/or coordinate community/information sessions with community organizations and stakeholders.

CCSD representatives will attend, upon invitation, community meetings from external organizations or groups to provide information, answer questions, and receive feedback.

CCSD will host 30-minute availability sessions several times a week. These will be open to the public with prior registration for small groups 20-30, and will be held on an online meeting platform.

CCSD will host one to two telephone town halls open to the public every month.

Family Guide Publication and Website

The Reconnecting with Our Students Family Guide publication will be updated with key information from the transition plan in both English and Spanish. The publication will be made available to parents/guardians, community members, and other stakeholders through CCSD websites and copies may be requested through the school office. The reconnect.ccsd.net website (reconecta.ccsd.net in Spanish) will be updated with a summary of important topics and will include access to the family guide publication.

Family and Community Engagement Services (FACES) Department

The FACES Department will continue to share/reshare information from the Communications Department through their department website, social media platforms, and other parent/guardian events. Messages via social media or to the faces@nv.ccsd.net email address will be answered or will be directed to the appropriate entity.

Weekly Updates and Other ParentLink

The Communications Department will continue gathering information from all CCSD units to be shared with all parents/guardians weekly via ParentLink email.

Emails and phone calls/texts will be sent to inform parents/guardians as necessary to keep them apprised of important information. Messages will be made available in Spanish.

The Engage/Conecta email will be shared in every weekly ParentLink to promote this channel for parents/guardians to communicate with CCSD.

Health Communications

The Communications Department has worked with the Health Services Department, the Risk Management Department, and Office of the General Counsel to develop a number of messages that are distributed to employees at school and/or work sites upon notification of a positive COVID-19 test. The letters are recommended to be sent to all employees at a site when a COVID-19 positive employee has been on campus within a week of their positive test.

The recommendations are shared with school principals or department leaders through the process laid out in the Implementation Guide.

Principals and/or department leaders first submit information on any employee who reports symptoms, exposure to a COVID-19 positive individual or a COVID-19 positive test to the Illness Tracker maintained by the Health Services Department and the Risk Management Department.

The principal and/or department leader then notifies their region leadership and the Communications Department of the basic details and the employee's last day on campus. When necessary, the Communications Department provides schools or departments with messaging approved by the Office of the General Counsel to notify other employees at the site of the case.

Region leadership becomes involved immediately in situations involving students on an impacted campus. Communications Department works closely with the Health Services

Department and region leadership to ensure the necessary information is included in the notifications to parents/guardians and those who need to quarantine.

The Communications Department also works with the Health Services Department and the chief of staff to update ccsd.net weekly with the number of COVID-9 cases confirmed by the SNHD on a weekly basis. Those numbers are posted publicly on the website every Friday.^{xxxvi}

CCSD
CLARK COUNTY
SCHOOL DISTRICT

Parent and Guardian Guidance

Checking Your Student Before Leaving Home

Check the following each morning prior to sending your student to school. If your student shows any signs indicated below, keep the student home and contact your medical provider for guidance.

- Cough
- Chills
- Sore Throat
- Muscle Pain
- Fever 100° or Higher
- Shortness of Breath or Difficulty Breathing
- New Loss of Taste or Smell
- Congestion
- Fatigue
- Headache
- Runny Nose
- Nausea/ Vomiting
- Diarrhea

Please provide a face mask for your student daily to wear on the bus and at school.

On the Way To and From School and At School

Encourage your child to:

- Stay at least six feet from other people outside of your home.
 - Keep away from large groups and avoid close contact with other people.
- Cover nose and mouth with a tissue when coughing or sneezing or cough or sneeze into their upper sleeve or elbow.
- Wash hands often with soap and water or use hand sanitizer when appropriate.
- Wear a cloth face mask (exceptions: children under two years of age, anyone with trouble breathing, unconscious, incapacitated, or with an exemption from a Licensed Health Care Provider).
- Avoid touching eyes, nose, and mouth.

If your student is not feeling well or has any symptoms of COVID-19, has been exposed to someone with COVID-19, or tested positive with COVID-19, they must stay home from school. Notify the School Nurse if any of these occur.

Aviso Para Padres y Tutores

Revise su Estudiante Antes de Salir del Hogar

Revise lo siguiente cada mañana antes de mandar a su estudiante a la escuela. Si su estudiante demuestra cualquier síntoma indicado en la lista, debe quedarse en casa y debe contactar su proveedor de atención médico para para más información.

Proporcione un cubrebocas (mascarilla) de tela para que su estudiante la use en el autobús y en la escuela.

- Tos
- Escalofríos
- Dolor de Garganta
- Dolor Muscular
- Fiebre de 100° o más
- Falta de Aire o Dificultad Para Respirar
- Nueva Pérdida del gusto u olfato
- Congestión
- Cansancio/Fatiga
- Dolor de Cabeza
- Nariz Congestionada
- Diarrea

En el Camino Hacia y Desde la Escuela y en la Escuela

Anime a su hijo a:

- Permanecer al menos seis pies de distancia de otras personas fuera de casa.

- Mantenerse alejado de grupos grandes y evitar el contacto cercano con otras personas.

- Cubrirse la nariz y la boca con un pañuelo desechable al toser o estornudar, o toser y estornudar en la parte superior de la manga o el codo.

- Lavarse las manos a menudo con agua y jabón o utilizar un desinfectante para manos cuando sea apropiado.

- Usar un cubrebocas de tela (excepciones: niños menores de dos años, cualquier persona con problemas para respirar, inconsciente, incapacitado, o con una exención de un Proveedor de Atención Médica Autorizado).
- Evitar tocarse los ojos, la nariz y la boca.

Si su estudiante no se siente bien o tiene algún síntoma de COVID-19, ha estado expuesto a alguien con COVID-19 o ha dado positivo con COVID-19, debe quedarse en casa. De aviso a la Enfermera Escolar si ocurre cualquiera de estos casos.

The Life Connection Employee Assistance Program

THE LIFE CONNECTION

Our licensed professional staff can advise you on issues that may affect you or your household members and can refer you to a variety of resources. These confidential consultation services are a way to establish better emotional wellness in your daily life, and its effects are long-lasting.

- Five free sessions per calendar year
- In-person, telephonic or by virtual visit
- Confidential

Typical issues include:

- Feelings of anxiety and depression
- Emotional/personal conflicts
- Grief and loss
- Marital conflicts
- Parenting concerns
- Questions about alcohol, drugs, or gambling
- Work stress
- Anger management

How do I get help?

To arrange for a confidential visit with our licensed, professional staff, to request a telephonic consultation, or to receive assistance with online resources, call **1-800-280-3782, TTY 711**

Crisis services through The Life Connection are available to you 24 hours a day, 7 days a week.

The role of EAP is to identify problems regarding physical or mental health or the abuse of alcohol or other substances and for the referral to health care for counseling, therapy or treatment.

This information is provided to employees and their household members by Behavioral Healthcare Options, Inc. (BHO). Your employer does not warrant the validity of the information contained in this material. Additionally, BHO and your employer will not be liable for any direct, consequential or other damages resulting from the information contained in this material.

What is The Life Connection (TLC)?

TLC services were developed to help you balance the demands of home and work. TLC is made up of three parts: consultation sessions with a licensed professional (either face-to-face, telephonic, or by virtual visit depending upon the issues), online information and resources, and telephonic consultations with legal, financial, child care, elder care and daily living professionals.

All of the services directly provided by TLC are free of charge to you and your household members.

Who is eligible for TLC services?

TLC services are available to all eligible employees and anyone who lives in their household, because their problems often affect the attitude and health of employees. Contact your human resources or benefits office for eligibility requirements.

The Life Connection (TLC)

BHO2021_201 (01/20)

LEGAL CONNECTION

In-person consultation with a licensed attorney about your issue, with:

- 30-minute free consultation
- Discounted fees may be available
- No limit on number of times used

Telephonic consultation with a licensed attorney – most common issues include:

- Bankruptcy/foreclosure
- Family/criminal law issues
- Elder/estate planning
- No limit on number of times used

Online resources on hundreds of topics including:

- Living wills and advanced directives
- Legal forms
- Adoption process
- Consumer issues

CHILD CARE CONNECTION

Telephonic consultation with a work/life specialist for referrals to:

- Child care centers
- Summer camps
- Back-up and sick child resources
- Public and private schools
- Tutors
- No limit on number of times used

Online resources on hundreds of topics including:

- Checklists for choosing child care centers
- Single parenthood
- Effective communication

ELDER CARE CONNECTION

Telephonic consultation with a work/life specialist for referrals to:

- Assisted living facilities
- Nursing homes
- Retirement communities
- No limit on number of times used

Online resources on hundreds of topics including:

- Aging well
- Planning for the future
- Grief, loss and depression in seniors

FINANCIAL CONNECTION

Telephonic consultation with a financial advisor about such issues as:

- Personal financial planning
- Debt consultation
- Tax consultation
- No limit on number of times used

Online resources on hundreds of topics including:

- Consumer tips on banking/credit cards
- Saving and investing
- Financial calculators
- Identity theft protection
- TaxACT tax preparation software

ADDITIONAL ONLINE RESOURCES**

Work/Life Home – articles, self-help questionnaires, interactive tools and brief video clips on topics including working, balancing, parenting, thriving and more.

Monthly Feature and News For You – features timely topics, such as fiscal fitness, parenting tips and more.

Centers – In addition to accessing services in the Legal and Financial Center, Wellness Center and Yearly Planning Center, the following centers are available:

- Savings Center – free program for savings of up to 25% on name-brand, every day, and luxury items
- Relocation Center – whether you're moving across the country or just down the street, you can find schools, neighborhood profiles and much more
- CareSpace Center – a place to connect with others providing care for parents or other loved ones
- Skill-Builders Center – online courses that can be completed in 15-20 minutes, with a printable certificate of completion
- LiveConnect – connects you to experienced work/life consultants via instant messaging

Monthly online seminars on topics of interest, such as Beating the Blues, Home Buying 101, Disrupting Negative Thoughts, Keeping Your Love Alive, Retirement, Raising Well Adjusted Kids, and many more.
